

PRIVACY THRESHOLD ANALYSIS (PTA)

This form is used to determine whether a Privacy Impact Assessment is required.

Please use the attached form to determine whether a Privacy Impact Assessment (PIA) is required under the E-Government Act of 2002 and the Homeland Security Act of 2002.

Please complete this form and send it to your component Privacy Office. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form. If a PIA is required, the DHS Privacy Office will send you a copy of the Official Privacy Impact Assessment Guide and accompanying Template to complete and return.

A copy of the Guide and Template is available on the DHS Privacy Office website, www.dhs.gov/privacy, on DHSConnect and directly from the DHS Privacy Office via email: pia@hq.dhs.gov, phone: 202-343-1717.

SPECIFIC PTA QUESTIONS

1. Reason for submitting the PTA: New PTA

The Federal Emergency Management Agency provides financial needs and services to individuals and households who apply for disaster benefits in the event of a federal declared disaster, in accordance with the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. No. 93-288, as amended (the Stafford Act), collected at 42 U.S. 5121 et seq. Section 408 of the Stafford Act (42 U.S.C. § 5174) authorizes FEMA to provide direct housing assistance, directly to individuals or households, who, as a result of a major disaster, lack of available housing resources and would be unable to make use of financial assistance. FEMA provides temporary housing units in the form of a manufactured home or other readily fabricated dwellings.

FEMA is creating this new information collection request to support the direct housing operation. FEMA will use the information collected to determine available pad sites for potential park owners/managers; to calculate the final sales prices of manufactured housing units (MHU) when FEMA activates the Sales Program; to act as an acknowledgement of conditions of sale, which is used to execute the sale of MHUs; to serve as the programmatic point of transfer between the Logistics Management Directorate Manufactured Housing Unit and Individual Assistance Direct Housing Operations Unit; to record an occupant's compliance with requirements for direct temporary housing assistance; and to record an occupant's agreement to occupy the Temporary Housing Unit (THU).

Information is collected via paper forms then uploaded into the Individual Assistance (IA) IT system, which maintains the information on the Individual and Households Program. FEMA staff enters the information into the Housing Operations Management Enterprise Systems (HOMES) database that is used to coordinate the Direct Housing Assistance for disaster survivors. Under this information collection, FEMA will collect information from members of the public, owners/managers of the properties hosting MHUs, as well as IHP applicants in the THUs.

2. Does this system employ any of the following technologies:

If you are using any of these technologies and want coverage under the respective PIA for that technology please stop here and contact the DHS Privacy Office for further guidance.

- Closed Circuit Television (CCTV)
- Social Media
- Web portal¹ (e.g., SharePoint)
- Contact Lists
- None of these

3. From whom does the Project or Program collect, maintain, use, or

- This program does not collect any personally identifiable information²

¹ Informational and collaboration-based portals in operation at DHS and its components that collect, use, maintain, and share limited personally identifiable information (PII) about individuals who are "members" of the portal or "potential members" who seek to gain access to the portal.

² DHS defines personal information as “Personally Identifiable Information” or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. “Sensitive PII” is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this PTA, SPII and PII are treated the same.

³ When data is sent over the Internet, each unit transmitted includes both header information and the actual data being sent. The header identifies the source and destination of the packet, while the actual data is referred to as the payload. Because header information, or overhead data, is only used in the transmission process, it is stripped from the packet when it reaches its destination. Therefore, the payload is the only data received by the destination system.

⁴ PII may be shared, received, or connected to other DHS systems directly, automatically, or by manual processes. Often, these systems are listed as “interconnected systems” in Xacta.

DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i>	
FEMA’s 1660-NW90 is a new information collection to support its direct housing operation, which is part of its Individual Assistance program. FEMA has drafted a new e3 Privacy Act Statement to adhere to the forms used in this ICR. The PTA notes that the information FEMA collects under this ICR is entered into the HOMES module of the Individual Assistance (formerly NEMIS-IA) IT system. As such, this information should be covered within the IA PIA, which is due for an update this year.	

FEMA should ensure that this ICR and its relevant details (e.g. individuals, data elements collected, sharing, etc.) are represented in the new IA PIA.

Furthermore, the DHS/FEMA 008 SORN that covers IA records is due for a biennial review this year as well. Here again, FEMA should ensure that any new categories of records created by this ICR are included in the updated SORN. FEMA should review the routine uses of the SORN to ensure that the sharing of information collected through this ICR is covered under the DHS/FEMA 008 SORN.
