STAFF TIME-USE SURVEY

Cost Study of SNAP E&T Pilot Projects

Staff Time Use Survey

INTRODUCTION

The Food and Nutrition Service (FNS) within the U.S. Department of Agriculture has contracted with Mathematica Policy Research, an independent research organization, and its partners MDRC, Insight Policy Research, Kone Consulting, and Decision Information Resources to conduct the evaluation of the impacts, participation effects, implementation, and costs and benefits of the Supplemental Nutrition Assistance Program Employment and Training (SNAP E&T) pilots.

As part of the Evaluation's cost study, we are conducting this survey to learn how staff members in organizations that provide SNAP E&T pilot services spend their time working with SNAP E&T pilot clients [specify treatment/control as appropriate]. This information will be used to gain a better understanding of the costs of specific services or activities of each of the pilot programs for the evaluation's cost-benefit analysis.

Who Should Complete the Questionnaire. [Selected] staff members who spend any time delivering services to SNAP E&T pilot clients [specify treatment/control as appropriate] should complete this questionnaire. This might include staff with responsibility for providing client orientations, case management services, and workshops.

How to Complete the Questionnaire. Most questions in Section A can be answered by simply placing a check mark or entering a number in the appropriate box. For some questions, you will be asked to write a brief text response. In Section B, you will be asked to enter the number of hours you spent on specific activities in an average or typical week during the past month. For some questions, you might also be asked to estimate the number of sessions or services provided in a typical week.

If you are unsure how to answer a question, please give the best answer you can, rather than leaving it blank.

Voluntary Participation. Your participation in this survey is important and will help us understand the resources needed to offer SNAP E&T pilot services. Information you provide will be treated as private, and the evaluation will not identify individuals in any of its reports. No personal data will be maintained in the system.

Please complete this questionnaire **within the next 5 days**. It will take approximately 20 minutes to complete. If you have any questions, please contact [assigned cost study liaison] at Mathematica Policy Research at [email] or [phone].

Thank you for your cooperation in completing this questionnaire.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0604. The time required to complete this information collection is estimated to average 20 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate to the Office of Policy Support, Food and Nutrition Service, USDA, 3101 Park Center Drive, Room 1014, Alexandria, VA 22302.
