

Appendix 1: SNAP Retailer Applications Burden Narrative Reporting Requirements--Part 278-279

There are currently six application forms currently approved under OMB No. 0584-0008. For this submission to OMB, FNS is seeking approval, with revisions, for the information collection associated with forms FNS-252, FNS-252-E, FNS-FE, FNS-252-R, FNS-252-2, and FNS-252-C.

1. Form FNS-252:

For the burden associated with forms FNS-252, FNS-252-E and FNS-252-FE, for initial authorization, we used the number of applications received as of September 31, 2017 (33,249) as the base number for current estimates. Based on Program growth, we estimate a 2 percent annualized increase in each Fiscal Year (FY), and we used 34,596.77 ($33,913.98 + 34,592.25 + 35,284.09/3 = 34,596.77$) in our calculations for FY 2018. We estimate approximately 1,383.87 ($4\% \times 34,596.77$) applications received will be submitted using the paper application, form FNS-252. We estimate that it takes respondents, on average, 19 minutes (or 0.3167) to complete form FNS-252, and a total burden hours calculated to be 438.27 ($1,383.87 \times 0.3167$).

2. Form FNS-252-E:

In FY 2018, we estimate approximately the number of respondents completing form FNS-252-E will decrease due to a subset of these respondents will complete form FNS-252-C. We estimate 31,483.06 ($91\% \times 34,596.77$) retailers will complete the online application, form FNS-252-E. We estimate that it takes respondents, on average, 15 minutes (0.25) to complete form FNS-252-E, and a total burden hours calculated to be 7,870.76 ($31,483.06 \times 0.25$).

Appendix 1: SNAP Retailer Applications Burden Narrative Reporting Requirements--Part 278-279

3. Form FNS-252-FE:

We estimate approximately 1,729.83 (5% x 34,596.77) Farmers' Market respondents will complete form FNS-252-FE. We estimate that it takes respondents, on average, 15 minutes (or 0.25) to complete form FNS-252-FE, and a total burden hours calculated to be 432.45 (1,729.83 x 0.25).

4. eAuthentication:

Applicants using form FNS-252-E or FNS-252-FE must also first self-register for a Level 1 access account through the USDA eAuthentication system in order to initially start an online application. USDA eAuthentication facilitates the electronic authentication of an individual and it takes approximately 8 minutes (or 0.13360) to obtain an eAuthentication account. We estimate approximately 33,212.89 (31,483.06 (FNS-252-E) + 1,729.83 (FNS-252-FE)) retailers and farmers' market applicants will register for Level 1 access. The total burden hours for eAuthentication are calculated to be 4,437.24 (33,212.89 x 0.13360).

5. Form FNS-252-2:

In FY 2017, approximately 378 Meal Service Applications, form FNS-252-2, were submitted to FNS. We used this number as the base number for current estimates. We estimate on average, a 1 percent annualized increase in each FY, and we estimate 385.60 (381.78 + 385.59 + 389.44/3 = 385.60) respondents will complete form FNS-252-2 in FY 2018. We estimate that it takes respondents, on average, 15 minutes (0.25) to complete form FNS-252-2, and a total burden hours calculated to be 96.40 (385.60 x 0.25).

Appendix 1: SNAP Retailer Applications Burden Narrative Reporting Requirements--Part 278-279

6. Form FNS-252-C:

Approximately 5,438 Corporate Supplemental Application, form FNS-252-C used for individual (chain) stores under a corporation were submitted to FNS in FY 2017. We estimate on average, an annualized increase of 2 percent of applications 5,658.43 ($5,546.76 + 5,657.69 + 5,770.84/3 = 5,658.43$) will be submitted on form FNS-252-C. We also estimate that it takes retailers 15 minutes (or 0.25) to complete form FNS-252-C, and a total burden hours calculated to be 1,414.60 ($5,658.43 \times 0.25$).

7. Store Visit estimates:

During authorization or reauthorization, FNS may conduct an on-site store visit of the firm. An FNS representative or store visit contractor obtains permission to fill in the store visit checklist and photograph the store.

We estimate an FNS representative or contractor interacts, on average, one minute (0.0167) with the respondent. Approximately 41,446 store visits were conducted in FY 2017, and we used this as our basis for our calculations. Due to program changes and program integrity initiatives, we estimate a 2 percent annualized increase in each FY. We estimate 43,126.04 store visits will be conducted ($42,274.92 + 43,120.41 + 43,982.81/3 = 43,126.04$) in FY 2018, and a total burden hours calculated to be 720.20 ($43,126.04 \times 0.0167$).

8. Form FNS-252-R:

The estimated burden hours associated with form FNS-252-R is determined from the number of currently reauthorized (25,349) stores. FY 2017 data was used as the base

Appendix 1: SNAP Retailer Applications Burden Narrative Reporting Requirements--Part 278-279

number for our estimates. We estimate on average, an annualized increase of 2 percent in each FY. We estimate 26,376.54 stores will be subject to reauthorization in FY 2018 ($25,855.98 + 26,373.09 + 26,900.55/3 = 26,376.54$). We estimate that it takes respondents 15 minutes (0.25) to complete form FNS-252-R, and a total burden hours calculated to be 6,594.13 ($26,376.54 \times 0.25$).

There are no recordkeeping burden requirements associated with this information collection.
