

## Appendix 2 – Survey Instrument for Phase 2 of the STEW-MAP Information Collection

---

### Welcome to the STEW-MAP survey!

STEW-MAP stands for the Stewardship Mapping and Assessment Project.

STEW-MAP is collecting information about civic groups and organizations that do environmental stewardship work in your region. These organizations may not *primarily* focus on the environment, but instead be focused on housing, immigration, social services; however, they still engage in caring for the environment in some fashion.

STEW-MAP uses a *broad definition of stewardship*: conserving, managing, transforming, monitoring, advocating for, and educating the public about local environments. Stewardship activities can include planting trees, restoring a wetland, transforming the local food system, advocating for open space preservation, gardening in a schoolyard, cleaning up a vacant lot, environmental education, or partnering with other organizations on local environmental issues.

By participating in STEW-MAP, you can help potential volunteers, public agencies, funders, and other stewards find your group and learn about what it does. You will also be able to learn about other groups doing stewardship work in your region.

Your participation in STEW-MAP is completely voluntary. Your personal contact information will not be made public in any way; it will only be used by the research team to contact you if we have questions about information you provide on the survey.

If you wish, your group or organization's basic contact information and information about the place(s) you do stewardship work will be displayed as part of the online stewardship map for the region. This helps everyone see what groups are doing stewardship where. In section 2 of the survey, you may indicate whether or not you want your group's information to be displayed on the online map.

If you would prefer to answer the STEW-MAP survey questions on paper or over the phone, please contact **XXX**.

STEW-MAP projects have already been done in Baltimore, Chicago, Los Angeles, New York City, Philadelphia, and Seattle, as well as San Juan, Puerto Rico; Valledupar, Colombia; and Paris, France. Please visit <https://www.nrs.fs.fed.us/urban/monitoring/stew-map/> to learn more.

## Thank you for your time and participation!
