Form NC-99001 Information Sheet

Definitions and Instructions for the Report of Organization, NC-99001

Estimates are acceptable if book figures are not readily available.

This survey contains questions about the organization, questions about each of the pre-identified locations of this organization (if any), and questions for any locations being added to this organization (if any).

Respondents will either have a short survey (S) or a long survey (L) to fill out. The (L) survey contains questions for the organization (survey NC-99001(L)), the pre-listed locations, and any additional locations to add. The (S) survey contains questions for the organization (survey NC-99001(S)), and any additional locations to add.

Respondents can fill out this survey via downloading a spreadsheet template or online.

- The spreadsheet template option requires downloading the spreadsheet from this instrument, filling out the spreadsheet, uploading the completed spreadsheet back to the instrument, reviewing and correcting the responses (as needed), and submitting the responses within this instrument.
- The online option is a question by question response driven approach. Respondents will navigate through this survey, based on responses to questions and clicking the 'Save and Continue' button, then review and correct the responses (as needed) and then submit these responses within this instrument.

Burden Statement

We estimate this survey will vary from a half-hour for the smallest companies to 25 hours for the largest companies to complete, with an average of 3 hours and 31 minutes to complete, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: ESMD Survey Comments 0607-0444, U.S. Census Bureau, 4600 Silver Hill Road, Room ESMD-5H160, Washington, DC 20233. You may e-mail comments to ESMD.surveys@census.gov. Be sure to use "ESMD Survey Comments 0607-0444" as the subject.

Response to this collection of information is not required unless it displays a valid approval number from the Office of Management and Budget (OMB). The OMB eight-digit number appears in the upper right corner of the instrument.

Discontinued Operations - If your organization discontinued operations before 2018, complete the Operational Status section of the questionnaire for each location (e.g., Closed or Sold) along with the effective date for of the status change. If your organization was in operation for any part of 2018, a completed questionnaire is required for the portion of the year 2018 in which your organization was in operation.

Census File Number (CFN) - A CFN has been assigned to your company. Always refer to the complete number in any correspondence with the U.S. Census Bureau.

Employer Identification Number (EIN) - The EIN is the nine-digit taxpayer identification number assigned by the Internal Revenue Service (IRS) and used by all business firms and other legal entities to file federal employment tax returns such as Forms 941 and 943; and federal income tax returns such as Forms 1065, 1120, and 990 series.

Company - An economic unit comprising one or more establishments under common ownership or control.

Subsidiary - A company that is owned or controlled by another firm or company. Subsidiaries include firms in which your company owns more than 50 percent of the outstanding voting stock, as well as firms in which your company has the power to direct or cause the direction of the management and policies.

Establishment - An establishment is a single physical location where business is conducted or where services or industrial operations are performed. (For example: a factory, mill, store, hotel, movie theater, mine, farm, and administrative office.) If distinctly separate activities are performed at the same location, and if there is significant employment in each activity, then each activity should be treated as a separate establishment, except agricultural production as explained below. (For example: construction activities operated out of the same physical location as a lumber yard.)

For firms engaged in construction, real estate management or operation, transportation, communication, electric, gas, and sanitary services, and similar types of physically dispersed activities, it is not necessary to list separately each individual "site," "project," "field," "network," "line," or "system." It is only necessary to report for main or branch offices, terminals, stations, etc., which are either (a) directly responsible for supervising such activities, or (b) the base from which personnel operate to carry out these activities.

Foreign Locations - Report a foreign location only if any of the employees at the location are reported on an IRS Form 941 for an EIN that is also used to report employees at domestic locations. You only need to report one foreign location for each such EIN. If more than one such establishment exists for an EIN, consolidate the employment and payroll data at the headquarters location, using "foreign employees" as the secondary name.
