

enforcement activities included in the RMP. Reporting and inclusion of new information derived from research, monitoring, and evaluation activities described in the plan provide assurance that performance standards will be achieved in future seasons.

### Summary of Comments Received in the Response to the Proposed Evaluation and Pending Determination

NMFS published notice of its Proposed Evaluation and Pending Determination (PEPD) on the plan for public review and comment on December 7, 2017 (82 FR 57729). The PEPD was available for public review and comment for 30 days.

During the public comment period, 121 comments were received, all by email. These came in the form of: Individual, unique comments; individuals who submitted form-letter communications, some with added comments; and letters from fish conservation organizations. NMFS thoroughly reviewed and considered all of the substantive comments received from the public and the additional literature and studies submitted. This review of new information and data informed NMFS' subsequent analysis, in its biological opinion, but did not lead to any changes to the Skagit RMP, as submitted, or to NMFS' determination that the plan adequately addresses the 4(d), Limit 6 criteria. A section summarizing and responding to the substantive comments received during the public comment period on the PEPD is included as part of the final evaluation document, available on the West Coast Region website. Based on its evaluation and recommended determination and taking into account the public comments, NMFS issued its final determination on the joint state-tribal plan.

### Authority

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) rule (50 CFR 223.203(b)) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. The rule further provides that the prohibitions of paragraph (a) of the rule do not apply to actions undertaken in compliance with a plan developed jointly by a state and a tribe and determined by NMFS to be in accordance with the salmon and

steelhead 4(d) rule (65 FR 42422, July 10, 2000).

BILLING CODE 3510-22-P

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* National Oceanic and Atmospheric Administration's Papahānaumokuākea Marine National Monument and University of Hawaii Research Internship Program.

*OMB Control Number:* 0648-0719.

*Form Number(s):* None.

*Type of Request:* Regular (extension of a currently approved information collection).

*Number of Respondents:* 80.

*Average Hours per Response:* 1 hour or less, for each application, reference letter and support letter.

*Burden Hours:* 80.

*Needs and Uses:* This request is for extension of a currently approved information collection.

The National Oceanic and Atmospheric Administration's (NOAA's) Papahānaumokuākea Marine National Monument (PMNM) would like to collect student data and information for the purposes of selecting candidates for its research internship program in partnership with the University of Hawaii. The application package would contain: (1) A form requesting information on academic background and professional experiences, (2) reference forms in support of the internship application by two educational or professional references, and (3) a support letter from one academic professor or advisor.

*Affected Public:* Individuals or households.

*Frequency:* One time.

*Respondent's Obligation:* Voluntary.

This information collection request may be viewed at [reginfo.gov](http://reginfo.gov). Follow the instructions to view Department of

Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202) 395-5806.

Dated: July 8, 2018.

**Sarah Brabson,**

NOAA PRA Clearance Officer.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* NOAA Marine Debris Program Performance Progress Report and Data Collection Form.

*OMB Control Number:* 0648-0718.

*Form Number(s):* None.

*Type of Request:* Regular (revision and extension of a currently approved information collection).

*Number of Respondents:* 70.

*Average Hours per Response:* 1.

*Burden Hours:* 1,400.

*Needs and Uses:* This request is for revision and extension of an existing information collection.

The NOAA Marine Debris Program (MDP) supports national and international efforts to research, prevent, and reduce the impacts of marine debris. The MDP is a centralized office within NOAA that coordinates and supports activities, both within the bureau and with other federal agencies, which address marine debris and its impacts. In addition to inter-agency coordination, the MDP uses partnerships with state and local agencies, tribes, non-governmental organizations, academia, and industry to investigate and solve the problems that stem from marine debris through research, prevention, and reduction activities, in order to protect and conserve our nation's marine environment and ensure navigation safety.

The Marine Debris Research, Prevention, and Reduction Act (33

U.S.C. 1951 *et seq.*) as amended by the Marine Debris Act Amendments of 2012 (Pub. L. 112–213, Title VI, Sec. 603, 126 Stat. 1576, December 20, 2012) outlines three central program components for the MDP to undertake: (1) Mapping, identification, impact assessment, removal, and prevention; (2) reducing and preventing fishing gear loss; and (3) outreach to stakeholders and the general public. To address these components, the Marine Debris Act authorized the MDP to establish several competitive grant programs on marine debris research, prevention and removal that provide federal funding to non-federal applicants throughout the coastal United States and territories.

The terms and conditions of the financial assistance awarded through these grant programs require regular progress reporting and communication of project accomplishments to MDP. Progress reports contain information related to, among other things, the overall short and long-term goals of the project, project methods and monitoring techniques, actual accomplishments (such as pounds of debris removed from an ecosystem, numbers of volunteers participating in a cleanup project, etc.), status of approved activities, challenges or potential roadblocks to future progress, and lessons learned. This information collection enables MDP to monitor and evaluate the activities supported by federal funds to ensure accountability to the public and to ensure that funds are used consistent with the purpose for which they were appropriated. It also ensures that reported information is standardized in such a way that allows for it to be meaningfully synthesized across a diverse set of projects and project types. MDP uses the information collected in a variety of ways to communicate with federal and non-federal partners and stakeholders on individual project and general program accomplishments.

**Revision:** A section has been added to the report form, but there is no change to burden.

**Affected Public:** Not-for-profit institutions; business or other for-profit organizations; state, local or tribal government.

**Frequency:** Semiannual.

**Respondent's Obligation:** Required to obtain or retain benefits.

This information collection request may be viewed at [reginfo.gov](http://reginfo.gov). Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this

notice to [OIRA\\_Submission@omb.eop.gov](mailto:OIRA_Submission@omb.eop.gov) or fax to (202) 395–5806.

Dated: July 8, 2018.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

**Agency:** National Oceanic and Atmospheric Administration (NOAA).

**Title:** Highly Migratory Species

Dealer, Importer, and Exporter

Reporting Family of Forms.

**OMB Control Number:** 0648–0040.

**Form Number(s):** None.

**Type of Request:** Regular (revision and extension of a currently approved information collection).

**Number of Respondents:** 10,391.

**Average Hours per Response:** 15 minutes for catch document/statistical document/re-export certificate validation by government official; 120 minutes for authorization of non-governmental catch document/statistical document/re-export certificate validation; 2 minutes for daily Atlantic bluefin tuna landing reports; 3 minutes for daily Atlantic bluefin tuna landing reports from pelagic longline and purse seine vessels; 1 minute for Atlantic bluefin tuna tagging; 15 minutes for biweekly Atlantic bluefin tuna dealer landing reports; 15 minutes for HMS international trade biweekly reports; 15 minutes for weekly electronic HMS dealer landing reports (*e-dealer*); 5 minutes for negative weekly electronic HMS dealer landing reports (*e-dealer*); 15 minutes for voluntary fishing vessel and catch forms; 2 minutes for provision of HMS dealer email address.

**Burden Hours:** 18,552.

**Needs and Uses:** This request is for revision and extension of a currently approved information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. NMFS must also promulgate

regulations, as necessary and appropriate, to carry out obligations the United States (U.S.) undertakes internationally regarding tuna management through the Atlantic Tunas Convention Act (ATCA, 16 U.S.C. 971 *et seq.*).

This collection serves as a family of forms for Atlantic highly migratory species (HMS) dealer reporting, including purchases of HMS from domestic fishermen, and the import, export, and/or re-export of HMS, including federally managed tunas, sharks, and swordfish.

Transactions covered under this collection include purchases of Atlantic HMS from domestic fishermen; and the import/export of all bluefin tuna, frozen bigeye tuna, southern bluefin tuna or swordfish under the HMS International Trade Program, regardless of geographic area of origin. This information is used to monitor the harvest of domestic fisheries, and/or track international trade of internationally managed species.

The domestic dealer reporting covered by this collection includes weekly electronic landing reports and negative reports (*i.e.*, reports of no activity) of Atlantic swordfish, sharks, bigeye tuna, albacore, yellowfin, and skipjack tunas (collectively referred to as BAYS tunas), and biweekly and electronic daily landing reports for bluefin tuna, including tagging of individual fish. Because of the recent development of an individual bluefin quota (IBQ) management system (RIN 0648–BC09), electronic entry of IBQ-related landing data is required for Atlantic bluefin tuna purchased from Longline and Purse seine category vessels. NMFS intends to consider integrating the electronic dealer reporting for bluefin tuna and electronic reporting for the IBQ system; however, at this time, dealers must submit limited bluefin tuna landings data to both NMFS systems for purse seine and pelagic longline vessels.

International trade tracking programs are required by both the International Commission for the Conservation of Atlantic Tunas (ICCAT) and the Inter-American Tropical Tuna Commission (IATTC) to account for all international trade of covered species. The U.S. is a member of ICCAT and IATTC and required by ATCA and the Tunas Convention Act (16 U.S.C. 951 *et seq.*, consecutively) to promulgate regulations as necessary and appropriate to implement ICCAT and IATTC recommendations. These programs require that a statistical document or catch document accompany each export from and import to a member nation,
