

NATIONAL SURVEY OF ORGAN DONATION ATTITUDES AND PRACTICES
Telephone Survey Instructions

Survey response options are preceded with “Would you say...”

Response options of “don’t know,” “refused,” and “N/A” are not read aloud by the interviewer but may be volunteered by the respondent. These implicit response options are in parentheses. Web survey respondents may indicate these types of answers by not responding to the question.

Introduction

This is an important study of people's opinions about organ donation. Your assistance in this study is voluntary, but your opinions are needed to provide an accurate understanding of the public's views. If there is any question you do not wish to answer, just tell me. Your answers are confidential and will be combined with those of others. You, as an individual, will never be identified. The questions will require about 20 minutes of your time.
