This survey is conducted for the U.S. Department of Health and Human Services, Health Resources and Services Administration, by the American Directions Research Group (ADRG) under contract, HSH250201700044G.

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0290. Public reporting burden for this collection of information is estimated to average 0.29 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N-39, Rockville, Maryland, 20857.

This is an important study of people's opinions about organ donation. Your assistance in this study is voluntary, but your opinions are needed to provide an accurate understanding of the public's views. If you do not know the answer to a question, or do not want to answer, you may leave that question blank. Your answers are confidential and will be combined with those of others. You, as an individual, will never be identified. The questions will require about 20 minutes of your time.

Q1

OMB control number 0915-0290 Expiration XX/XX/XXXX

In the past year, have you heard, read, or seen any information at all about organ donation or transplantation?

NOTE: ORGAN DONATION means the donation of organs, such as heart or kidneys from a person who has died, or the donation of organs, such as kidneys or parts of a liver or lung, from a person who is alive. Transplantation is the surgical transfer of an organ from one person to another. Organ donation does not include donation of bone marrow or tissue, such as skin or corneas.

Q12A-H

OMB control number 0915-0290 Expiration XX/XX/XXXX

How much do you agree or disagree with each statement?

	Strongly Agree	Somewhat Agree	Somewhat Disagree	Strongly Disagree
It is important for a person's body to have all of its parts when it is buried.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It is important for people to tell their families whether or not they would want their organs to be donated upon death.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Most members of my family would support the idea of organ donation.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Receiving organ transplants improve people's lives.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Organ donation allows something positive to come out of a person's death.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
A deceased person's next of kin should be able to override the deceased person's wish to donate his or her organs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Organs should be distributed so that the expected life of the organ is similar to the expected life of the recipient. For example, older people should generally get older organs and younger people should get younger organs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
All people who need an organ transplant should be able to receive a transplant.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q16 a-k

OMB control number 0915-0290 Expiration XX/XX/XXXX

How much do you agree or disagree with each statement?

	Strongly Agree	Somewhat Agree	Somewhat Disagree	Strongly Disagree
Minority patients are less likely to receive organ transplants.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Organ donation helps families cope with their grief.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
A person's wish to donate his or her organs should be honored under all circumstances, even over the objections of surviving family members.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
People who choose to donate a family member's organs end up paying extra medical bills.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The U.S. transplant system uses a fair approach to distribute organs to patients.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Every year, thousands of people die due to a lack of donated organs for transplantation.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Transplants often go to undeserving people.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
You are worried that a loved one's body would be disfigured if his or her organs were donated.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If you indicate you intend to be a donor, doctors will be less likely to try to save your life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It is possible for a brain-dead person to recover from his or her injuries.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
You would agree to receive an organ transplant if it would save your life.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
