

Form Approved
OMB No. 0920-xxxx
Exp. Date xx/xx/20xx

The survey is part of a larger project we're doing to gather information on how well councils are achieving their stated purposes of information sharing, networking, and disseminating/implementing evidence-based solutions. We're also gathering information about whether council members are satisfied with their experience. The findings will be used to help councils function as effectively as possible to maximize their contributions towards Agendas and to improved occupational safety and health.

The survey is voluntary and will take about 12 minutes. The information you provide will be used for program improvement purposes only, will not be shared in any way that would identify you or your organization. NIOSH will keep information you provide private and secure to the extent permitted by law.

Public reporting burden of this collection of information is estimated to average 12 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333 ATTN: PRA (0920-xxxx)
