

# Participate in our Study

The National Center for Health Statistics is looking to interview adults who:

- 1) Are 18 years and older, AND
- 2) Have intellectual difficulty or need support in doing everyday things like learning new things, solving problems, and making decisions.

The interview will be no longer than 60 minutes. It will ask for your ideas about how to ask health questions for a national survey.

Each participant will get \$40 for their time.
