Form Approved
OMB No. 0920-0214
Exp. Date: 12/31/2020

Assurance of confidentiality – We take your privacy very seriously. All information that relates to or describes identifiable characteristics of individuals, a practice, or an establishment will be used only for statistical purposes. NCHS staff, contractors, and agents will not disclose or release responses in identifiable form without the consent of the individual or establishment in accordance with section 308(d) of the Public Health Service Act (42 U.S.C. 242m(d)) and the Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA, Title 5 of Public Law 107-347). In accordance with CIPSEA, every NCHS employee, contractor, and agent has taken an oath and is subject to a jail term of up to five years, a fine of up to \$250,000, or both if he or she willfully discloses ANY identifiable information about you. In addition, NCHS complies with the Federal Cybersecurity Enhancement Act of 2015 (6 U.S.C. §§ 151 & 151 note). This law requires the federal government to protect federal computer networks by using computer security programs to identify cybersecurity risks like hacking, internet attacks, and other security weaknesses. If information sent through government networks triggers a cyber threat indicator, the information may be intercepted and reviewed for cyber threats by computer network experts working for, or on behalf of, the government.

Notice – Public reporting burden of this collection of information is estimated to average 42 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road, MS D-74, Atlanta, GA 30333. ATTN: PRA (0920-0214).

Special Instructions: Calculate age (AGE_CALC_A) against current date using the following values:

-Month: if BMONTH_A = DK, RF then use 1, else use BMONTH_A

-Day: if BDAY_A = DK, RF then use 1, else use BDAY_A

-Year: use BYEAR_A

Calculate younger age (AGE_CALCMINUS1_A):

The younger age is calculated only if we are unable to accurately calculate respondent's age due to incomplete DOB Month and/or Day information OR interview month is same as birth month and birth day is unknown.

BYEAR_A <> DK, RF AND (BMONTH_A = DK, RF OR (BMONTH_A = Current

Month AND BDAY_A = DK, RF))

Calculate age against current date using the following values:

-Month: Use 1

-Day: Use 1

-Year: use BYEAR_A + 1

(The reasoning behind this is that we need to use a future date that is definitely past the respondent's birthdate. Rather than using the last day of the month or the first day of the next month, it's easier just to use the first day of the next year.)

Question Text: CT colonography, sometimes called virtual colonoscopy, is a new type of test that looks for cancer in the colon. Unlike regular colonoscopies, you do not need medication to make you sleepy during the test. In this new test, your colon is filled with air and you are moved through a donut-shaped X-ray machine as you lie on your back and then your stomach.

Before today, HAD YOU EVER HEARD of CT colonography or virtual colonoscopy?

Question Text: The next question is about electronic cigarettes or e-cigarettes. You may also know them as vape-pens, hookah-pens, e-hookahs, or e-vaporizers. Some look like cigarettes, and others look like pens or small pipes. These are battery-powered, usually contain liquid nicotine, and produce vapor instead of smoke.

Have you EVER used an e-cigarette EVEN ONE TIME?

• [Read if necessary:](#) E-cigarettes and similar products can be bought as one-time, disposable products, as re-usable kits with a cartridge, or with refillable chambers. These usually contain a liquid, often called an "e-liquid" or "e-juice." Popular brands include NJOY, BLU, LOGIC, and VUSE.

Question Text: Have you ever smoked a regular cigar, cigarillo, or a little filtered cigar EVEN ONE TIME?

• **Read if necessary:** "Cigarillos" are medium cigars that sometimes are sold with plastic or wooden tips. Some common brands are Black and Mild, Swisher Sweets, Dutch Masters and Phillies Blunts. Cigarillos are usually sold individually or in packs of 5 or fewer. Little filtered cigars look like cigarettes and are usually brown in color. Like cigarettes, little filtered cigars have a spongy filter and are sold in packs of 20. Some common brands are Prime Time and Winchester.

• **Read if necessary:** Do not include electronic cigars or e-cigars.

Question Text: The next questions are about your total ^FAMILY income in ^LASTYEAR BEFORE TAXES.

Income is important in analyzing the health information we collect. For example, with this information, we can learn whether people with higher incomes use certain types of medical services more or less often than those with lower incomes. Please be assured that, like all other information you have provided, these answers will not be disclosed by NCHS or its agents, which includes the U.S. Census Bureau.

Question Text: Are you ^yourfam paying lower rent because the Federal, State, or local government is paying part of the cost?

✦ **Read if necessary:** Federal, State, or Local government housing programs for persons with low income may take many forms. Government housing assistance could come from monetary assistance to help pay rent, a program called "Section 8," direct payments to landlords, vouchers, or other types of assistance from a local housing authority. Living in public housing is considered housing assistance from the government.

Question Text: CT colonography, sometimes called virtual colonoscopy, is a new type of test that looks for cancer in the colon. Unlike regular colonoscopies, you do not need medication to make you sleepy during the test. In this new test, your colon is filled with air and you are moved through a donut-shaped X-ray machine as you lie on your back and then your stomach.
