Nuzhat Qureshi Precaution????

National Cancer Institute Hi Nuzhat, It sounds like you may be wondering what precautions patients being treated for breast cancer or lymphoma can take to lower their risk of heart failure. The article linked in our post states that the researchers' main goal was to raise aware... See More

Arslan Sikandar Got cured of Hodgekin's lymphoma when 9 years old but diagnosed heavily calcified mitral and aortic valves at 18. Is radiation OR chemo the culprit?

Like · Reply · Message · 2d

National Cancer Institute Hi Arslan, Thank you for your interest in NCI. We are sorry to hear of everything you have been through. Radiation to the chest and certain types of chemotherapy can increase the risk of heart and blood vessel late effects, however we do not see calcif... See More
