

record that is pertinent to the funds received under such grant or contract.

(Pub. L. 96-362, § 7, Sept. 26, 1980, 94 Stat. 1204.)

§ 2807. Capital requirements for aquaculture

(a) Capital requirements study

The Secretaries, through the coordinating group, shall conduct within twelve months after September 26, 1980, a study of the capital requirements of the United States aquaculture industry. The study shall—

(1) document and analyze any capital constraints that affect the development of aquaculture in the United States; and

(2) evaluate the role that appropriate Federal financial assistance does or could play in filling gaps in the normal credit market with respect to aquaculture.

The study will identify the capital needs of the United States aquaculture industry, with emphasis on the needs that are not being filled either in normal credit channels or through government programs for direct loans, loan guarantees, disaster loans, and insurance. Upon its completion, the Secretaries shall submit the results of the study to Congress.

(b) Capital requirements plan

Based on the results of the Capital Requirements Study conducted under subsection (a) of this section, and within six months of the completion of the study, the Secretaries shall formulate a plan for acting on the study's findings. The plan shall include: (1) those Federal actions, if any, found to be necessary to meet financial needs unmet through normal credit channels and existing Federal programs; and (2) recommendations, if any, for legislative actions. Upon completion, the plan shall be submitted to Congress.

(Pub. L. 96-362, § 8, Sept. 26, 1980, 94 Stat. 1204.)

§ 2808. Regulatory constraints on aquaculture

(a) Regulatory constraints study

The Secretaries, through the coordinating group, shall conduct, within twelve months after September 26, 1980, a study of the State and Federal regulatory restrictions to aquaculture development in the United States. The study shall—

(1) include a literature review and a descriptive list identifying the parameters of the issue;

(2) identify and list relevant current and pending Federal regulations restricting the development of commercial aquaculture operations;

(3) identify and list relevant current State regulations restricting the development of commercial aquaculture operations in five States selected randomly in five separate geographic regions of the United States;

(4) conduct case studies of ten commercial aquaculture operations in the United States representing a wide range of marine and fresh water species to determine the practical effects of regulatory restrictions on aquaculture; and

(5) develop a flow-chart time line using the information obtained by means of paragraphs (1) through (4) to identify those regulations and restrictions that could have the most detrimental effect in establishing commercial aquaculture operations in the United States.

Upon completion of the study, the Secretaries shall submit its results to Congress.

(b) Regulatory constraints plan

Based on the results of the Regulatory Constraints Study conducted under subsection (a) of this section, and within six months of the study's completion, the Secretaries shall formulate a plan for acting on the study's findings. The plan will contain specific steps the Federal Government can take to remove unnecessarily burdensome regulatory barriers to the initiation and operation of commercial aquaculture ventures. Upon its completion, the Secretaries shall submit the plan to Congress.

(Pub. L. 96-362, § 9, Sept. 26, 1980, 94 Stat. 1205.)

§ 2809. Authorizations for appropriations

For purposes of carrying out the provisions of this chapter, there are authorized to be appropriated—

(1) to the Department of Agriculture—

(A) \$7,000,000 for fiscal year 1981,

(B) \$10,000,000 for fiscal year 1982, and

(C) \$12,000,000 for fiscal year 1983;

(2) to the Department of Commerce—

(A) \$7,000,000 for fiscal year 1981,

(B) \$10,000,000 for fiscal year 1982, and

(C) \$12,000,000 for fiscal year 1983; and

(3) to the Department of the Interior—

(A) \$3,000,000 for fiscal year 1981,

(B) \$4,000,000 for fiscal year 1982, and

(C) \$5,000,000 for fiscal year 1983.

Funds authorized by this section shall be in addition to, and not in lieu of, funds authorized by any other Act.

(Pub. L. 96-362, § 10, Sept. 26, 1980, 94 Stat. 1205.)

§ 2810. Disclaimer

Nothing in this chapter shall be construed to amend, repeal, or otherwise modify the authority of any Federal officer, department, or agency to perform any function, responsibility, or activity authorized under any other provision of law.

(Pub. L. 96-362, § 11, Sept. 26, 1980, 94 Stat. 1206.)

§ 2901. Congressional findings and declaration of purpose

(a) Findings

The Congress finds and declares the following:

- (1) Fish and wildlife are of ecological, educational, esthetic, cultural, recreational, economic, and scientific value to the Nation.
- (2) The improved conservation and management of fish and wildlife, particularly nongame fish and wildlife, will assist in restoring and maintaining fish and wildlife and in assuring a productive and more esthetically pleasing environment for all citizens.
- (3) Many citizens, particularly those residing in urban areas, have insufficient opportunity to participate in recreational and other programs designed to foster human interaction with fish and wildlife and thereby are unable to have a greater appreciation and awareness of the environment.
- (4) Historically, fish and wildlife conservation programs have been focused on the more recreationally and commercially important species within any particular ecosystem. As a consequence such programs have been largely financed by hunting and fishing license revenues or excise taxes on certain hunting and fishing equipment. These traditional financing mechanisms are neither adequate nor fully appropriate to meet the conservation needs of nongame fish and wildlife.
- (5) Each State should be encouraged to develop, revise, and implement, in consultation with appropriate Federal, State, and local and regional agencies, a plan for the conservation of fish and wildlife, particularly those species which are indigenous to the State.

(b) Purpose

It is the purpose of this chapter—

- (1) to provide financial and technical assistance to the States for the development, revi-

sion, and implementation of conservation plans and programs for nongame fish and wildlife; and

(2) to encourage all Federal departments and agencies to utilize their statutory and administrative authority, to the maximum extent practicable and consistent with each agency's statutory responsibilities, to conserve and to promote conservation of nongame fish and wildlife and their habitats, in furtherance of the provisions of this chapter.

SHORT TITLE.

Section 1 of Pub. L. 96-366 provided: "That this Act [enacting this chapter] may be cited as the 'Fish and Wildlife Conservation Act of 1980'."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2905 of this title.

§ 2902. Definitions

As used in this chapter—

(1) The term "approved conservation plan" means the conservation plan of a State approved by the Secretary pursuant to section 2904(a) of this title.

(2) The term "conservation plan" means a plan developed by a State for the conservation of fish and wildlife which meets the requirements set forth in section 2903 of this title.

(3) The terms "conserve", "conserving", and "conservation" mean to use, and the use of, such methods and procedures which are necessary to ensure, to the maximum extent practicable, the well being and enhancement of fish and wildlife and their habitats for the ecological, educational, esthetic, cultural, recreational, and scientific enrichment of the public. Such methods and procedures may include, but are not limited to, any activity associated with scientific resources management, such as research, census, law enforcement, habitat acquisition, maintenance, development, information education, population manipulation, propagation, technical assistance to private landowners, live trapping, and transplantation.

(4) The term "designated State agency" means the commission, department, division, or other agency of a State which has primary legal authority for the conservation of fish and wildlife. If any State has placed such authority in more than one agency, such term means each such agency acting with respect to its assigned responsibilities but such agencies, for purposes of this chapter, shall submit a single conservation plan.

(5) The term "fish and wildlife" means wild vertebrate animals that are in an unconfined state, including, but not limited to, nongame fish and wildlife.

(6) The term "nongame fish and wildlife" means wild vertebrate animals that are in an unconfined state and that—

- (A) are not ordinarily taken for sport, fur, or food, except that if under applicable

State law, any of such animals may be taken for sport, fur, or food in some, but not all, areas of the State, any of such animals within any area of the State in which such taking is not permitted may be deemed to be nongame fish and wildlife;

(B) are not listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531-1543); and

(C) are not marine mammals within the meaning of section 1362(5) of this title.

Such term does not include any domesticated species that has reverted to a feral existence.

(7) The term "Secretary" means the Secretary of the Interior.

(8) The term "State" means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

(Pub. L. 96-366, § 3, Sept. 29, 1980, 94 Stat. 1323.)

REFERENCES IN TEXT

The Endangered Species Act of 1973, referred to in par. (6)(B) is Pub. L. 93-205, Dec. 28, 1973, 87 Stat. 884, as amended, which is classified principally to chapter 35 (§ 1531 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 1531 of this title and Tables.

§ 2903. Conservation plans

The conservation plan for any State must—

(1) provide for the vesting in the designated State agency of the overall responsibility for the development and revision of the conservation plan;

(2) provide for an inventory of the nongame fish and wildlife, and such other fish and wildlife as the designated State agency deems appropriate, that are within the State and are valued for ecological, educational, esthetic, cultural, recreational, economic, or scientific benefits by the public;

(3) with respect to those species identified under paragraph (2) (hereinafter in this section referred to as "plan species"), provide for—

(A) the determination of the size, range, and distribution of their populations, and

(B) the identification of the extent, condition, and location of their significant habitats;

(4) identify the significant problems which may adversely affect the plan species and their significant habitats;

(5) determine those actions which should be taken to conserve the plan species and their significant habitats;

(6) establish priorities for implementing the conservation actions determined under paragraph (5);

(7) provide for the monitoring, on a regular basis, of the plan species and the effectiveness of the conservation actions determined under paragraph (5);

(8) provide for plan review and revision, if appropriate, at intervals of not more than 3 years;

(9) ensure that the public be given opportunity to make its views known and considered during the development, revision, and implementation of the plan; and

(10) provide that the designated State agency consult, as appropriate, with Federal agencies, and other State agencies during the development, revision, and implementation of the plan, in order to minimize duplication of efforts and to ensure that the best information is available to all such agencies.

(Pub. L. 96-366, § 4, Sept. 29, 1980, 94 Stat. 1323.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2902, 2904, 2905 of this title.

§ 2904. Approval of conservation plans and certain nongame fish and wildlife conservation actions

(a) Approval by Secretary of plans

(1) Any State may apply to the Secretary for approval of a conservation plan.

(2) Applications for the approval of conservation plans shall be made and reviewed by the Secretary in such manner as the Secretary shall by regulation prescribe.

(3) As soon as practicable, but no later than 180 days, after the date on which a State submits (or resubmits in the case of prior disapproval) an application for the approval of a conservation plan the Secretary shall—

(A) approve the conservation plan, and designate it as an approved conservation plan, if he determines that the plan—

(i) meets the requirements set forth in section 2903 of this title, and

(ii) is substantial in character and design; or

(B) disapprove the conservation plan if he determines that—

(i) the plan does not meet the requirements set forth in section 2903 of this title, or

(ii) to implement any part of the plan on the basis of the specifications, determinations, identifications, or priorities therein would threaten the natural stability and continued viability of any of the plan species concerned.

If the Secretary disapproves a plan, he shall give the State concerned a written statement of the reasons for disapproval and provide the State opportunity for consultation with respect to deficiencies in the plan and the modifications required for approval.

(b) Effect of approval of plans

If the Secretary approves the conservation plan of any State under subsection (a) of this section—

(1) that portion of such plan that pertains to wildlife conservation shall be deemed to be an approved plan for purposes of section 6(a)(1) of the Act of September 2, 1937 (16 U.S.C. 669e(a)(1)), commonly referred to as the Pittman-Robertson Wildlife Restoration Act [16 U.S.C. 669 et seq.]; and

(2) that portion of such plan that pertains to fish conservation shall be deemed to be an approved plan for the purposes of section 6(a)(1) of the Act of August 9, 1950 (16 U.S.C. 777c(a)(1)) commonly referred to as the Dingell-Johnson Sport Fish Restoration Act [16 U.S.C. 777 et seq.].

(c) Conservation actions

If the Secretary approves the conservation plan of any State under subsection (a) of this section, those conservation actions set forth in the plan which pertain to nongame fish and wildlife shall be deemed to be eligible as nongame fish and wildlife projects for which reimbursement is available under section 2905 of this title.

(d) Nongame conservation actions in the absence of an approved plan

In the absence of an approved conservation plan, and on a showing of need by the State, the Secretary may deem certain conservation actions to be nongame fish and wildlife projects for which reimbursement is available under section 2905(a)(3) of this title if they—

- (1) are consistent with such of the requirements set forth in section 2903 of this title as may be appropriate, including, but not limited to, the requirements in paragraphs (3), (4), (5), and (7) of such section; and
- (2) are substantial in character and design.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2902, 2905 of this title.

§ 2905. Reimbursement of State costs for developing, revising, and implementing conservation plans and implementing certain nongame fish and wildlife conservation actions

(a) In general

Any State may apply to the Secretary for reimbursement under this section for costs incurred by the State for the following:

- (1) The development of a conservation plan.
- (2) The revision of an approved conservation plan.
- (3) The implementation of nongame fish and wildlife conservation actions approved under section 2904(c) and (d) of this title.

(4) The implementation of conservation actions specified in an approved conservation plan.

(5) The coordination, consolidation, or implementation of the conservation plan or conservation actions approved under this chapter with other related plans or actions developed pursuant to the Act of September 2, 1937 (16 U.S.C. 669e(a)(1)), commonly referred to as the Pittman-Robertson Wildlife Restoration Act [16 U.S.C. 669 et seq.] and the Act of August 9, 1950 (16 U.S.C. 777c(a)(1)), commonly referred to as the Dingell-Johnson Sport Fish Restoration Act [16 U.S.C. 777 et seq.].

(b) Applications

Application for reimbursement under this section shall be made in such manner as the Secretary shall by regulation prescribe and shall contain such information as is necessary to enable the Secretary to determine whether the State meets the eligibility requirements set forth in subsection (c) of this section.

(c) Eligibility

No State is eligible for reimbursement under this section unless the Secretary finds that the costs, for which reimbursement is sought, have been incurred by the State as follows:

(1) If reimbursement is sought under subsection (a)(1) of this section, such costs have been incurred in developing a conservation plan that meets the requirements set forth in section 2903 of this title.

(2) If reimbursement is sought under subsection (a)(2) of this section, such costs have been incurred in revising the plan in a manner consistent with such requirements.

(3) If reimbursement is sought under subsection (a)(3) of this section, such costs have been incurred in implementing the conservation actions as approved by the Secretary.

(4) If reimbursement is sought under subsection (a)(4) of this section, such costs have been incurred in implementing conservation actions specified in, and in a manner consistent with, the approved conservation plan.

(5) If reimbursement is sought under subsection (a)(5) of this section, such costs have been incurred in consolidating, coordinating or implementing conservation plans and actions approved under this chapter with approved plans and actions under the Act of August 9, 1950 (16 U.S.C. 777c(a)(1)), commonly referred to as the Dingell-Johnson Sport Fish Restoration Act [16 U.S.C. 777 et seq.] and the Act of September 2, 1937 (16 U.S.C. 669e(a)(1)), commonly referred to as the Pittman-Robertson Wildlife Restoration Act [16 U.S.C. 669 et seq.] in a manner consistent with sections 2901 and 2903 of this title.

(d) Reimbursement

Subject to the limitations in subsection (c) and the terms and conditions imposed under section 2906 of this title, and to the availability of funds appropriated under section 2910 of this title, the Secretary shall reimburse each

State which the Secretary finds to be eligible therefor under subsection (c) of this section.

(e) Limitations

(1) The total amount of the reimbursement paid to any State under this section with respect to any fiscal year may not exceed the allocation available to the State under section 2907 of this title for such year.

(2) No reimbursement may be paid under this section to any State for any cost incurred by the State during any fiscal year—

(A) after September 30, 1991, in developing a conservation plan;

(B) after September 30, 1986, for costs incurred in implementing certain nongame fish and wildlife actions approved under section 2904(d) of this title;

(C) in which less than 80 percent of the costs to be reimbursed are for the principal benefit of nongame fish and wildlife or the users of nongame fish and wildlife;

(D) in implementing an approved conservation plan, unless the cost was incurred in implementing actions approved under section 2904(c) or (d) of this title;

(E) in implementing an approved conservation plan covering only nongame fish and wildlife, or any nongame fish and wildlife conservation action approved under section 2904(c) or (d) of this title, to the extent that more than 10 percent of such costs are paid for with moneys collected during such year by the State—

(i) from the sale of hunting, fishing, and trapping licenses, and

(ii) as penalties (including forfeitures) for violations of the hunting, fishing, and trapping laws of the State; or

(F) in implementing an approved conservation plan or any nongame fish and wildlife conservation action approved under section 2904(c) or (d) of this title, to the extent that—

(i) more than 10 percent of such costs are applied for purposes of conservation law enforcement under any such plan or action, and

(ii) more than 10 percent of such costs in any such year are accounted for by personal service or other inkind contributions.

(3) The amount of the reimbursement paid to any State under this section with respect to any fiscal year—

(A) may not exceed 75 percent for the development of a conservation plan except that during fiscal years 1982, 1983, and 1984 such amount shall not exceed 90 percent;

(B) for the implementation of nongame fish and wildlife conservation actions approved under section 2904(c) or (d) of this title, may not exceed 75 percent of the cost of implementing the action during such fiscal year, except that if such action is undertaken by two or more States such amount shall not exceed 90 percent;

(C) during and after the fiscal year in which the conservation plan of the State is approved under section 2904(a) of this title, may not exceed 75 percent of the cost of im-

plementing and revising the conservation plan during such fiscal year, or if two or more States cooperate in implementing or revising such plan, such cost shall not exceed 90 percent, and

(D) after September 30, 1991, may not exceed—

(i) 50 percent of the cost of implementing and revising the plan during the fiscal year, if the approved conservation plan of the State covers only nongame fish and wildlife, or

(ii) 75 percent of the cost of implementing and revising the plan during such fiscal year, if the approved conservation plan of the State coordinates and consolidates planning for fish and wildlife.

(4)(A) In computing the costs incurred by any State during any fiscal year in developing or revising conservation plans, in implementing approved conservation plans, or in implementing nongame fish and wildlife conservation actions approved under section 2904(c) or (d) of this title, for which reimbursement may be available under this section, the Secretary shall—

(i) take into account, in addition to each outlay, the value of inkind contributions and real and personal property received and applied during such year by the State for such purposes; and

(ii) not include any other Federal moneys received by such State and applied by it, directly or indirectly, for such purposes.

(B) For purposes of subparagraph (A), inkind contributions may be in the form of, but are not limited to, personal services rendered by volunteers in carrying out surveys, censuses, and other scientific studies regarding fish and wildlife. The Secretary shall by regulation establish (i) the training experience, and other qualifications which such volunteers must have in order for their services to be considered as inkind contributions; and (ii) the standards under which the Secretary will determine the value of inkind contributions and real and personal property for purposes of subparagraph (A).

(C) Any valuation determination made by the Secretary for purposes of this paragraph shall be final and conclusive.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2904, 2906, 2907, 2910 of this title.

§ 2906. Terms and conditions of reimbursement

Reimbursements made to the States under section 2905 of this title shall be subject to such terms and conditions as the Secretary shall by regulation prescribe as being necessary or appropriate to protect the interests of the United States. Such terms and conditions shall include, but not be limited to, the following:

(1) Each State and each designated State agency shall keep such records as the Secretary shall require as being necessary or appropriate for fully disclosing the amount and purposes of costs incurred by the State for which reimbursement under section 2905 of this title is, or may be, sought. The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access, for purposes of audit and examination, to such records.

(2) Upon a finding by the Secretary, after notice and opportunity for an agency hearing on the record, that any State has received reimbursement under section 2905 of this title for which it is not eligible, or has violated any term or condition imposed under this section, the State shall thereafter be ineligible to receive reimbursement under such section until restitution satisfactory to the Secretary is made, such violation ceases, or adverse effects resulting from such violation are remedied.

(Pub. L. 96-366, § 7, Sept. 29, 1980, 94 Stat. 1327.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2905 of this title.

§ 2907. Allocation of funds for administration and reimbursement of States

(a) In general

The total amount appropriated pursuant to section 2910 of this title for any fiscal year shall be available for administration and for allocation among the States as provided in this section.

(b) Allocation formula

Of the total amount appropriated for any fiscal year pursuant to section 2910 of this title—

(1) the Secretary shall deduct so much, but not to exceed 8 percent thereof, as may be necessary for administering during such fiscal year the provisions of this chapter relating to the purposes for which so appropriated;

(2) less the deduction under paragraph (1), the Secretary shall allocate—

(A) for the District of Columbia and the Commonwealth of Puerto Rico each a sum equal to not more than one-half of 1 percent of such amount; and

(B) for Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands each a sum equal to not more than one-sixth of 1 percent of such amount; and

(3) less the deduction under paragraph (1) and the sums allocated under paragraph (2), the Secretary shall allocate for each of the States (other than those provided for in paragraph (2)) a sum—

(A) one-third of which is based on the ratio to which the area of such State bears to the total area of all such States, and

(B) two-thirds of which is based on the ratio to which the population of such State bears to the total population of all such States.

except all sums allocated under this paragraph shall be adjusted equitably so that no State shall be allocated a sum which is less than one-half of 1 percent of the amount available for allocation under this paragraph for any fiscal year or more than 5 percent of such amount.

(c) Treatment of amounts allocated but not used for any fiscal year

(1) That portion of any amount deducted by the Secretary under subsection (b)(1) of this section for administrative purposes for any fiscal year and not expended during such fiscal year shall remain available for administrative purposes until the close of the next succeeding fiscal year and if not obligated or expended by the close of such succeeding fiscal year shall be available for disbursement by the Secretary without regard to subsection (b) of this section, to the States to carry out the purposes of this chapter.

(2) That portion of any amount allocated to any State under subsection (b)(2) or (3) of this section for any fiscal year and not disbursed to the State for such fiscal years under section 2905 of this title shall remain available for disbursement to the State under such section for the next succeeding fiscal year and if not disbursed for such succeeding fiscal year shall be available for disbursement by the Secretary, without regard to subsection (b) of this section, to the States to carry out the purposes of this chapter.

(Pub. L. 96-366, § 8, Sept. 29, 1980, 94 Stat. 1328.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2905, 2910 of this title.

§ 2908. Other Federal assistance and actions

The Secretary and the chief executive officer of any other appropriate Federal department or agency may loan to any State such personnel and equipment of the department or agency, share such scientific or other appropriate information, and provide such other assistance as the Secretary or officer determines appropriate for purposes of assisting any State to develop or revise conservation plans.

(Pub. L. 96-366, § 9, Sept. 29, 1980, 94 Stat. 1329.)

§ 2909. Disclaimers

Nothing in this chapter shall be construed as affecting—

(1) the authority, jurisdiction, or responsibility of the States to manage, control, or regulate fish and resident wildlife under State law;

(2) any requirement under State law that lands, waters, and interests therein may only be acquired for conservation purposes if the owner thereof is a willing seller; and

§ 3001. Congressional findings and statement of purpose

(a) The Congress finds that—

(1) the Chesapeake Bay area is one of the greatest national resources in the United States of America, serving as an abundant source of seafood, recreation, beauty, and enjoyment, as well as providing habitat for a wide variety of fish, waterfowl, flora, and fauna;

(2) the Chesapeake Bay area serves as one of the world's major waterways, each year carrying millions of tons of waterborne shipping to and from all parts of the globe;

(3) the productivity and beauty of the Chesapeake Bay area in recent years has been diminished and threatened by water pollution, shoreline erosion, excessive sedimentation, and other injuries;

(4) numerous Federal agencies have initiated and supported research to study, manage, enhance, protect, preserve, or restore the resources of the Chesapeake Bay area; and

(5) the various research relating to the Chesapeake Bay area could be more effectively coordinated in order to obtain maximum benefits.

(b) The purposes of this chapter are—

(1) to provide for the rational and effective coordination of federally conducted and supported research aimed at increasing fundamental knowledge in support of wise management of the Chesapeake Bay area;

(2) to identify key management information needs and specify a coherent program of research that will respond to those needs;

(3) to identify the needs and priorities for such additional research as are required for
