Brief BBS Instructions

- -If you will not be able to conduct the survey, please contact your local BBS coordinator or national office ASAP.
- Select a run date within the window of acceptable dates provided on the reverse side. Routes must be run under satisfactory weather conditions, good visibility, little or no precipitation, light winds. Make notes of stops where weather deviates.
- START EXACTLY ONE-HALF HOUR BEFORE SUNRISE. Official start time is printed on the reverse side.
- Routes should be completed within 4 5 hours. Observers should count birds for *exactly* 3 minutes at each stop; birds seen before or after the 3-minute count period, or while traveling between stops, must *not* be counted, but may be noted in the comments section.
- ONE AND ONLY ONE PERSON, THE OBSERVER, IS PERMITTED TO IDENTIFY AND COUNT BIRDS.
- Count all individuals <u>except</u> young who are still dependent on their parents for food and/or protection (e.g., do not count begging fledglings, the downy chicks of precocial species, etc.).
- Count all birds seen within 1/4 mile (0.4 km) or heard at any distance during the 3-minute count period. Observers should avoid counting individuals already counted on previous stops.
- Write in any species not already listed on the form. Provide documentation for all write-ins not typically found in the area (check a field guide map if unsure). Check the "Mig?" box if the species is not known to breed in the survey area.
- Please note the number of vehicles that pass, on the route's road *only*, during each 3-min stop. If you feel that constant excessive noise other than passing vehicles (e.g., a nearby lawnmower, stream noise, distant roadway, etc.) seriously impaired your ability to hear birds at a particular stop, please fill in the "excessive noise" bubble.

Always read the detailed instructions before running your route.

| Wind S | peed Codes: | Sky Conditior National | n Codes: |
|--------------|--|---------------------------|---|
| Beaufo | rt | Weather Servi | ce |
| <u>Scale</u> | Wind speed indicators | <u>Codes</u> | Sky condition indicators |
| 0 | Smoke rises vertically (<1 mph, <2 kph) | 0 | Clear or few clouds |
| 1 | Wind direction shown by smoke drift (1-3 mph, 2-5 kph) | 1 | Partly cloudy (scattered) or variable sky |
| 2 | Wind felt on face; leaves rustle (4-7 mph, 6-12 kph) | 2 | Cloudy (broken) or overcast |
| 3 | Leaves, small twigs in constant motion (8-12 mph, 13-19 kph) | 4 | Fog or smoke |
| 4 | Dust rises; small branches move (13-18 mph, 20-29 kph) | 5 | Drizzle |
| 5 | Small trees in leaf begin to sway (19-24 mph, 30-38 kph) | 7 | Snow |
| | | 8 | Showers |

Many thanks for all your help!
