Abstract: The information collection under OMB Control number 1093–0006 received approval from OMB on August 04, 2015. This approval will expire on 8/31/2018 and we are now requesting comments as part of the standard renew and update process. This collection was formally known as Volunteer Partnership Management and Volunteer Application and Agreement for Natural Cultural Resources.

The Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*, require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8 (d)).

Federal natural and cultural resources management agencies are authorized to manage volunteers, youth programs, and partnerships to recruit, train, and accept the services of citizens to aid in disaster response, interpretive functions, visitor services, conservation measures and development, research and development, recreation, and or other activities as allowed by an agency's policy and regulations. Providing, collecting and exchanging written and electronic information is required from potential and selected program participants of all ages so they can access opportunities and benefits provided by agencies guidelines. Those under the age of 18 years must have written consent from a parent or guardian.

The customer relationship management web based portals are the agencies response to meeting citizens' requests for improved digital customer services to access and apply for engagement opportunities. Secure under one security platform parameter, the portals provide for prospective and current program participants to establish an account for electronic submission of program applications and to obtain status of applications, enrollments, benefits, and requirements. Additionally, citizens have the option of using self-service features to report hours, apply for opportunities, or register for program benefits such as America the Beautiful Pass, Public Land Corps register or Service Learning verification. This collection includes the modernization of electronic process so citizens maintain portal accounts with

single program application which can be reused to apply for all interested opportunities verse requiring a program participants to electronically complete the application anew for each opportunity they wish to be considered. This specifically minimizes the burden on this collection on the respondents. While electronic records provides a means to streamline data collection and allow citizen access to track benefits and control the sharing of their data, the participating agencies may also provide an accessible paper version of the volunteer forms.

Participating Agencies are:

Department of Agriculture: U.S. Forest Service, and Natural Resources Conservation Service;

Department of the Interior: All DOI offices and units including National Park Service, U.S. Fish and Wildlife Service, Bureau of Land Management, Bureau of Reclamation, Bureau of Indian Affairs, Office of Surface Mining Reclamation and Enforcement, and U.S. Geological Survey.

Information required to establish an account is preference for location, name, email, qualifying factors, and training. Once self-registered, the youth and young adult programs participants authorized under the 16 U.S.C. 1722 *et seq.*, Public Lands Corps (PLC) Act may be required to report additional details for public land corps status such as the agency work for, partner organization, project dates, where the work was completed, and total hours worked on the specific project. This information is used by the system to match the individuals with most applicable opportunities. The steward engagement portal is under redesign and will incorporate a feedback loop for respondents to rate quality of customer service and opportunities.

The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM proposes to exchange certain Federal lands for properties owned by Galloway, Inc., the owners of the Blue Valley Ranch. The land exchange proposal would convey approximately 1,489 acres of Federal lands managed by the BLM in Grand County, Colorado, to Blue Valley Ranch in exchange for approximately 1,830 acres of non-Federal lands in Summit and Grand Counties, Colorado. Pursuant to Section 206 of the Federal Land Policy and Management Act of 1976, as amended, the proposed land exchange must be determined to be in the public's interest, and appraisals of the Federal and non-

Federal parcels must show that the exchange parcels are equal in value. The Federal and non-Federal lands are located within the BLM's Kremmling Field Office and the White River National Forest.

The Draft EIS describes and analyzes the Proposed Action (BLM's preferred alternative), as well as the No Action alternative. The BLM's preferred alternative would convey approximately 1,489 acres of Federal lands managed by the BLM in Grand County, Colorado, to Blue Valley Ranch in exchange for approximately 1,830 acres of non-Federal lands in Summit and Grand Counties, Colorado. If the BLM moves forward with the exchange, this project would support the goals of Secretarial Orders 3347, 3356 and 3362 by increasing access for recreation and hunting, and increasing big game winter range on public lands.

Issues identified by the public during scoping included changes to public fishing access, perceived changes to float boating on the Blue River, concerns about changes to public access for hunting, changes to wildlife management and habitat, changes to the availability of Federal minerals for development, transfer of historic water rights and issues common for all proposed land exchanges such as concerns about large landowners realizing a benefit from the exchange. These issues are addressed in the analysis of the Draft EIS. The BLM would manage lands acquired through the land exchange in accordance with applicable laws and regulations, as well as the Kremmling Field Office Resource Management Plan, as amended. The White River National Forest would manage approximately 300 acres of lands acquired under the White River National Forest Land and Resource Management Plan. The Blue Valley Ranch would manage lands acquired in accordance with applicable State, county, and local laws and ordinances.

The BLM sought public participation through a scoping period that occurred before the preparation of the Draft EIS, which assisted the BLM in identifying issues to be addressed in the Draft EIS for the proposed land exchange.

Please note that public comments and information submitted during the Draft EIS comment period, including names, street addresses, and email addresses of persons who submit comments, will be available for public review and disclosure at the above address during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except on holidays.
