

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

- a. Describe the purpose of the information collection or form. *Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).*
If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

The information obtained from the TSA 1904A, *End of Course Level 1 – Classroom Training* form provides valuable feedback to staff of the TSA OTD Canine Training Center (CTC) and is used to evaluate and improve the effectiveness and efficiency of instructional programs. The PRA is triggered in this instance for CTC because Level 1 feedback must be collected from legacy civilian canine handler students who attend either the CTC Explosives Detection Canine Handlers Course, Passenger Screening Canine Handler Course, or the Supervisor/Trainer Seminars Course. The 1904A form is an extension of OTD’s broader evaluations program and training standards, which include use of the Kirkpatrick Evaluation Model to measure and evaluate training effectiveness.

CTC students who successfully complete the above courses, complete the 1904A form to provide participant reaction to course content, materials, learning environment, and instructor performance. This provides valuable feedback to both those at the local level, such as the CTC Supervisory Air Marshal in Charge (SAC), instructional staff, and supervisors, and to those evaluating data at the headquarters level, with respect to the presentation and receipt of training material. The feedback is used to improve the course curriculum and course of instruction.

Since obtaining OMB approval on the 1904A form on September 27, 2013, OTD has sought to streamline OTD’s Level 1 evaluation collection into a single, consolidated Level 1 Evaluation form that can be used for all students, both TSA employees acting within the scope of their duties and the legacy CTC civilian students in any of the courses listed above. To accomplish this, OTD is revising the previously OMB approved 1904A. The revisions are primarily cosmetic, non-substantive changes, particularly from a PRA perspective (since there are no new added imperatives to collect additional information beyond what is already requested via the approved

TSA Form 1904A). Changes include adding three more Instructor sections, as there is the potential for more than 3 instructors to deliver the training, eliminating redundancies in the evaluation items, updating the rating scale from a numerical (N/A; 1-5) to a radial rating scale (Strongly Disagree, Disagree, etc.) in accordance with DHS.

b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i>	
<p>DHS Privacy Office finds that the End of Course Level 1 Evaluation – Instructor-Led Classroom Training, TSA Form 1904A is non-privacy sensitive as it does not collect PII.</p> <p>TSA Form 1904A allows Canine Training Center (CTC) students to provide feedback to the staff of the TSA OTD CTC with their opinions on the courses. No PII is collected on this form as the student answers the survey with the following options (Strongly Agree, Disagree, etc.) along with three sections students can provide comments on their learning experience. This form is being revised to streamline OTD’s Level 1 evaluation collection into a single, consolidated Level 1 Evaluation form that can be used for all students, both TSA employees acting within the scope of their duties and the legacy CTC civilian students in any of the courses involved.</p> <p>PIA/SORN coverage is not required as TSA Form 1904A does not collect PII.</p> <p>A Privacy Act Statement is not required as information on this form is not retrieved by personal identifier.</p>
