

## Post-Telework Survey

NASA exercised a telework day for the entire Agency on Friday, March 6, 2020. The NASA OCIO is interested in collecting information from civil servants, contractors, and other NASA users about the telework user experience leveraging existing NASA IT resources. Please take a few minutes to let us know if you participated in the telework day and what your telework experiences were like. We'll be using this information to measure and improve the quality of the telework experience.

This survey is voluntary and does not collect any personally identifiable information from respondents.

### Paperwork Reduction Act Statement

This information collection meets the requirements of 44 U.S.C 3507, as amended by section 2 of the Paperwork Reduction Act of 1995. You do not need to answer these questions unless we display a valid Office of Management and Budget control number. The OMB control number for this information collection is 2700-153 and it expires on 09/30/2021. We estimate that it will take about 3 minutes to read the instructions, gather the facts, and answer the questions. You may send comments on our time estimate above to [luis.bares@nasa.gov](mailto:luis.bares@nasa.gov). Send only comments relating to our time estimate to this address.
