REACTIVE TUBERCULIN TEST EVALUATION FORM

Dear Medical Provider,

Your patient has applied to serve with the Peace Corps and has reported a history of reactivity to tuberculosis (TB) skin testing. In order to accurately evaluate this applicant's medical status, the Peace Corps needs further information about the applicant's risk of developing tuberculosis. **Please answer the following questions regarding the applicant's TB status.**

PRIVACY ACT NOTICE

This information is collected under the authority of the Peace Corps Act, 22 U.S.C. 2501 et seq. It will be used primarily for the purpose of determining your eligibility for Peace Corps service and, if you are invited to service as a Peace Corps Volunteer, for the purpose of providing you with medical care during your Peace Corps service. Your disclosure of this information is voluntary; however, **your failure to provide this information or failure to disclose relevant information may result in the rejection of your application to become a Peace Corps Volunteer.**

This information may be used for the purposes described in the Privacy Act, 5 U.S.C. 552a, including the routine uses listed in the Peace Corps' System of Records. Among other uses, this information may be used by those Peace Corps staff members who have a need for such information in the performance of their duties. It may also be disclosed to the Office of Workers' Compensation Programs in the Department of Labor in connection with claims under the Federal Employees' Compensation Act and, when necessary, to a physician, psychiatrist, clinical psychologist, licensed clinical social worker or other medical personnel treating you or involved in your treatment or care. A full list of routine uses for this information can be found on the Peace Corps website at <http://multimedia.peacecorps.gov/multimedia/pdf/policies/systemofrecords.pdf>.

BURDEN STATEMENT

Public reporting burden for this collection of information is estimated to average between 75 minutes and 105 minutes per applicant and 30 minutes per physician per response. This estimate includes the time for reviewing instructions and completing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: FOIA Officer, Peace Corps, 1111 20th Street, NW, Washington, DC, 20526 ATTN: PRA (0420-0550). Do not return the complete form to this address.

I. Current TB test

Test must be within the past six months (tuberculin skin test or QuantiFERON-TB Gold). No test is required if there is documentation of the size of induration and documentation of previous treatment for latent TB.

Select one

Date: _____

Tuberculin skin test

mm of induration: _____

Interferon gamma releasing assay (QuantiFERON® -TB Gold/T. Spot Blood Test)

Result: Positive Negative

II. TB test history:

No prior TB test

Prior TB test(s)

Date: _____ mm of induration: _____

Date: _____ mm of induration: _____

Date: _____ mm of induration: _____

BCG vaccine (if reported by applicant, please provide) Date of vaccination: _____

III. Current documentation required

Copy of current CXR report with interpretation is required for:

- Applicants with a reported induration of ≥ 15 mm (regardless of BCG Vaccination history) or interval change >10 mm from previous skin test.
- Applicants with a history of a **prior or current** reactive tuberculin test with current symptoms (see V)

Copy of baseline liver functions tests is required for:

- Applicants currently being treated for latent tuberculosis infection (LTBI)
-

IV. Risk assessment for developing active TB (check yes or no):

YES NO

- | | | |
|--------------------------|--------------------------|--|
| <input type="checkbox"/> | <input type="checkbox"/> | Person infected with the human immunodeficiency virus |
| <input type="checkbox"/> | <input type="checkbox"/> | Close contact (i.e., those sharing the same household or other enclosed environments) of person(s) known or suspected to have tuberculosis |
| <input type="checkbox"/> | <input type="checkbox"/> | Foreign-born person who has recently arrived (within five years) from a country that has a high incidence or prevalence of tuberculosis (includes most countries in Asia, Africa, and Latin America) |
| <input type="checkbox"/> | <input type="checkbox"/> | Resident or employee of high-risk congregate setting (e.g., correctional institution, nursing home, mental institution, or homeless shelter) |
| <input type="checkbox"/> | <input type="checkbox"/> | Person who injects illicit drugs or uses other high-risk substances (e.g., crack cocaine) |
| <input type="checkbox"/> | <input type="checkbox"/> | Health-care worker who is exposed to high-risk clients or is/has been mycobacteriology laboratory personnel |

V. Current TB symptoms

- | YES | NO | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Cough lasting longer than three weeks |
| <input type="checkbox"/> | <input type="checkbox"/> | Night sweats (drenching bed clothes that last more than one week) |
| <input type="checkbox"/> | <input type="checkbox"/> | Unexplained weight loss of 10 pounds or more than 10 percent of normal weight |
| <input type="checkbox"/> | <input type="checkbox"/> | Fatigue/malaise lasting longer than two weeks |
| <input type="checkbox"/> | <input type="checkbox"/> | Loss of appetite > two weeks |
| <input type="checkbox"/> | <input type="checkbox"/> | Fever > 100 degrees lasting > one week |
-

VI. Treatment

Note: In general, treatment of latent tuberculosis infection (LTBI) is highly recommended, in accordance with Centers for Disease Control and Prevention guidelines, for all Peace Corps applicants who are candidates for this therapy. Before an applicant can be medically cleared, and prior to departure overseas, treatment should be initiated. There must be a strong medical reason for not treating preventively, e.g., high risk for hepatitis, etc.

No treatment received

INH therapy received:

Date treatment initiated: _____

Date treatment completed: _____

Full-course of alternative treatment:

Drug regimen: _____ Date treatment initiated: _____

Date treatment completed: _____

Full-course or treatment not received nor recommended:

Please explain: _____

VII. Recommendations for further evaluation and treatment

Closing Signatures

Provider Signature/Title _____

Provider Name (Print) _____ Date _____

Provider License Number/State _____

Provider Address and Phone Number _____

If evaluation completed by other than MD, DO, or NP licensed to practice independently, must be signed or co-signed by a licensed MD or DO.
