

**2017 SUPPORTING STATEMENT**  
**Report Forms Under the Federal Milk Marketing Order Program**  
**OMB NO. 0581-0032**

**6A. Justification**

**1. EXPLAIN THE CIRCUMSTANCES THAT MAKE THE COLLECTION OF INFORMATION NECESSARY. IDENTIFY ANY LEGAL OR ADMINISTRATIVE REQUIREMENTS THAT NECESSITATE THE COLLECTION.**

All of the report forms under the Federal Milk Marketing Order Program are required to be completed by regulated milk handlers and milk marketing cooperatives. The Receipts and Utilization form and the Producer Payroll Report are the principal reporting forms needed to administer the 10 Federal milk marketing orders. Additional forms are submitted as required by the individual milk marketing orders.

The 10 milk orders regulating the handling of milk in the respective marketing areas are:

Order #	7 CFR Part No.	Name of Federal Milk Order
1	1001	Northeast
5	1005	Appalachian
6	1006	Florida
7	1007	Southeast
30	1030	Upper Midwest
32	1032	Central
33	1033	Mideast
124	1124	Pacific Northwest
126	1126	Southwest
131	1131	Arizona

The Agricultural Marketing Agreement Act of 1937, as amended, (See 7 U.S.C. Sections 601-674) authorizes the milk marketing orders. The authority for requiring reports is found at paragraphs 8c(5) and (7) of the Act. The terms of each of the orders are found at 7 CFR Parts 1000-1199 ([www.gpoaccess.gov/CFR](http://www.gpoaccess.gov/CFR), follow e-CFR, Title 7 – Agriculture, Volume 9, Chapter X, Parts 1000-1199). The authority for requiring records to be kept is found in the general provisions at 7 CFR Part 1000.5. The Act also provides for milk marketing agreements, but there are none in effect. The Act is designed to improve returns to producers while protecting the interests of consumers.

The Act provides for the establishment and maintenance of orderly marketing for agricultural commodities in interstate commerce, a gradual approach to parity prices for agricultural commodities at the farm level, subject to maintaining a reasonable supply-demand balance; production and marketing research; and an orderly flow of commodities to market to avoid unreasonable fluctuations in supplies and prices.

The 10 milk orders regulating the handling of milk in the respective marketing areas are separate administrative entities. Normally, producer cooperatives propose an order for a geographical marketing area. Evidence on the need and feasibility of the program is developed at a public hearing conducted by the Department of Agriculture. The public and the industry may file comments or exceptions to findings and preliminary decisions made by the Department based on the hearing evidence. When a decision is made by the Secretary to propose an order, it is submitted to producers for approval. Normally, two-thirds of the producers voting affirmatively constitute approval.

A Federal milk marketing order is a regulation issued by the Secretary of Agriculture that places certain requirements on the handling of milk in the geographical area it covers. It is established under the authority of the Agricultural Marketing Agreement Act of 1937, as amended. It requires that handlers of milk for a marketing area pay not less than certain minimum class prices according to how the milk is used. These prices are established under the order after a public hearing at which evidence is received on the supply and demand conditions for milk in the market. A milk order requires that payments for milk be pooled and paid to individual farmers or cooperative associations of farmers on the basis of a uniform or average price. Thus, all eligible farmers (producers) share in the market wide use-values of milk by regulated handlers.

Each milk order is administered by a market administrator who is an agent of the Secretary of Agriculture. Part of the market administrator's duties are to prescribe reports required of each handler, to assure that handlers properly account for milk and milk products, and that such handlers pay producers and associations of producers according to the provisions of the order. The market administrator employs a staff that verifies handlers' reports by examining records to determine that the required payments are made to producers. Handlers submit the Receipts and Utilization form and the Producer Payroll Report to the market administrator monthly. Other forms are submitted on an as-needed basis to the market administrator.

The Agricultural Marketing Agreement Act of 1937, and its predecessors - the Agricultural Adjustment Acts of 1935 and 1933 - insofar as they relate to milk, grew out of the needs of milk producers for help in achieving and maintaining some degree of bargaining power over the prices they received for milk. The characteristics of milk cause an inherent instability in milk marketing and contribute to producers' bargaining difficulties. Milk is bulky and perishable and must be moved promptly to market. Because milk is produced every day of the year, farmers must continue shipping it to market even when market prices are not satisfactory. Milk production varies widely

6

90 with the seasons. Because of the biological process, cows produce more milk in the  
91 spring and much less in the fall. When there is enough milk in the fall to meet demand,  
92 there is too much in the spring.

93  
94 The demand for fluid milk is relatively stable measured season to season but varies  
95 considerably measured day to day. Because of its perishable nature, milk cannot be  
96 stored to balance the peaks and troughs of supply. The dairy industry must continually  
97 produce an oversupply or reserve to make sure there will be enough fluid milk at all  
98 times for the day-to-day needs of consumers. Reserve milk that is not needed for fluid  
99 use is manufactured into dairy products. But milk used in manufactured products  
100 returns a lower price to producers than milk used for fluid purposes. Milk producers  
101 are interested in getting a maximum proportion of their milk into the higher-valued  
102 fluid uses, and, in the absence of regulation, often make uneconomic price concessions  
103 to achieve that end.

104  
105 As early as 1910, milk producers in some markets had banded together into cooperative  
106 associations to gain bargaining strength over prices for their milk. Impetus was given  
107 to the cooperative movement by the Clayton Act of 1914 (15 U.S.C. 12 *et seq.*) and the  
108 Capper-Volstead Act of 1922 (P.L. 67-146 (February 18, 1922), 7 U.S.C. 291, 292) that  
109 established the legal right for producers to market their products jointly without being  
110 held in violation of certain antitrust laws.

111  
112 In an effort to promote stability in milk markets, cooperatives developed the classified  
113 pricing system. This system was in effect in a number of the larger markets in the  
114 country by about 1920. Along with the classified pricing plans, various pooling  
115 arrangements were used. When the economic depression of the early 1930's struck,  
116 these voluntary plans broke down under the price competition from non-cooperators.  
117 The depression did not create the basic problems faced by dairy farmers in marketing  
118 their milk. It accentuated the problems of existing classified pricing and pooling  
119 schemes. The Agricultural Marketing Agreement Act of 1937, while largely a  
120 restatement of an Act of 1935, provided a framework for long-run price and marketing  
121 stability. This turned the program to dealing with the problems associated with the  
122 inherent instability in milk marketing rather than the severe income problems that arose  
123 with the depression.

124  
125 The Agricultural Marketing Agreement Act provides the authority for milk marketing  
126 orders designed to promote stable and orderly marketing conditions. The principal  
127 mechanism the orders use to promote stability is a uniform system of classified pricing.  
128 Each order includes common provisions: a classified pricing plan, a system that  
129 determines minimum class prices, the requirements for payment of uniform prices to  
130 producers, and provisions for administering the order. Although an order is designed to  
131 address the conditions and meet the particular requirements of an individual market, it  
132 is aligned and coordinated among all markets.

133  
134 A classified pricing plan provides different prices for milk used in different classes of

135 products. Milk used in fluid products is placed in Class I, the highest priced class.  
136 Milk used in various manufactured products is placed in lower priced classes. In most  
137 orders, Class II includes the so-called "soft" products such as cottage cheese, ice cream  
138 and yogurt, while Class III and Class IV include the storable, "hard" manufactured  
139 products, such as cheese, butter, and nonfat dry milk. Prices of the higher classes are  
140 determined and announced in advance to both buyers and sellers, providing a measure  
141 of predictability for economic decisions that facilitates orderly marketing.

142  
143 Each milk order sets forth minimum prices that handlers must pay producers or  
144 associations of producers according to the way the milk is used. Such price levels  
145 reflect local and general economic conditions affecting the supply and demand for milk.  
146 Many markets receive milk produced over a wide area and prices are adjusted to reflect  
147 the different values of milk at different plant locations.

148  
149 A milk order provides for the payment each month of a uniform or "blend" price to  
150 producers. Most areas use market wide pooling wherein the price to producers is an  
151 average of the total class-use value of all milk in the market. All producers in the  
152 market are paid at least the uniform price per hundredweight (45.36 kilograms).  
153 The orders also contain provisions applicable to producer-handlers who process and sell  
154 milk of their own production to consumers, and provisions applicable to handlers  
155 whose relationship to the market makes them only partially regulated. Federal milk  
156 orders provide for the equitable sharing among producers of the returns from all milk  
157 uses by requiring that payments for milk be pooled and that a uniform, or average, price  
158 be paid to individual dairy farmers or their cooperative associations. Orders assist  
159 farmers in developing steady, dependable markets and help to prevent needless  
160 fluctuations in price and to correct conditions of price instability. The dairy farmer is  
161 assured a minimum price for his milk that takes into consideration the economic  
162 conditions throughout the year. This high degree of assurance encourages dairy  
163 farmers to make willingly the heavy investments in milk cows and equipment that are  
164 needed to produce high-quality milk.

165  
166 Milk marketing orders also benefit handlers. Regulated handlers are assured that their  
167 competitors are not paying less for their milk than the minimum prices set by the order.  
168 They can also expect steady year-round supplies of milk. Milk handlers can then focus  
169 and concentrate their efforts to a greater degree on improving plant and marketing  
170 efficiencies in competing for a larger or more profitable share of the market. The  
171 orders also help assure consumers of an adequate supply of milk throughout the year at  
172 reasonable prices.

173  
174 The orders also provide for the public dissemination of market statistics and other  
175 information for the benefit of producers, handlers, and consumers. Researchers at  
176 universities and at proprietary firms use the market information in their activities.

**INDICATE THE ACTUAL USE THE AGENCY HAS MADE OF THE INFORMATION RECEIVED FROM THE CURRENT COLLECTION.**

The forms used for reporting purposes under this section are described on a generic or functional basis. This means that the receipts and utilization forms (including Supplements) and the producer payroll forms of the 10 milk orders are represented by those forms for the Mideast milk order (7 CFR Part 1033 *et seq.*) that are attached. Special forms are attached also that are used in the Northeast, Upper Midwest, Southwest, Central, Southeast, Florida, Appalachian, Arizona, and Pacific Northwest orders.

The forms used by the market administrators are required by the respective milk orders that are authorized by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The forms are authorized by the sections of the respective orders as indicated herein. The forms are used to establish: the quantity of milk received by handlers, the pooling status of the handler, the class-use of the milk used by the handler and the butterfat content and amounts of other components of the milk.

The purpose and use of the forms are described below:

**(a) Report of Receipts and Utilization (including supplements) - Form 1**

This report is filed monthly by fully regulated handlers primarily to determine the amount of producer milk that was received during the month. This information is used to compute the monthly uniform price to producers in each of the markets. If such information was not collected, the price would not be determined.

Because milk is commingled in a milk plant, and thus loses its identity, and because milk plants often receive milk or milk products from sources other than producer milk, it is necessary to require a fully regulated handler to report all of its receipts of milk and milk products and to account for all uses of milk and milk products as well as to report opening and closing inventories. Regulations in several milk marketing areas require information regarding the amount of milk components, such as skim, butterfat, nonfat solids, and/or protein, and the somatic cell counts of the producer milk receipts. Such information is used to assign a use classification and price to producer milk receipts and to compute the monthly uniform blend price (basically, a weighted average price).

All of the information items that fully regulated handlers report to the market administrator are readily available from normally maintained business records.

**(b) Report for Partially Regulated Distributing Plants**

Many handlers who operate a partially regulated distributing plant must report on a monthly basis the receipts and utilization of all skim milk, butterfat, protein, and/or nonfat solids disposed of in the marketing area in the same manner as handlers

266  
267  
268  
269

operating fully regulated distributing plants except that the receipts of bottling grade milk from dairy farmers are reported in lieu of receipts of producer milk.

All of the information items that handlers operating partially regulated distributing plants report to the market administrator are readily available from normally maintained business records.

**(c) Producer-Handler Report of Receipts and Utilization**

Each producer-handler must report to the market administrator the total of receipts and utilization of milk at its plant each month. The total receipts include the pounds of milk produced by its own farm, any receipts of milk from other dairy farmers, any milk from reconstitution, and any receipts of fluid milk products from pool plants. The utilization report includes the quantities of milk packaged and sold on routes, sold to other plants, and used to produce cheese, butter, ice cream, livestock feed, or other products.

A producer-handler is eligible to keep all of the higher valued returns from the sale of fluid milk products and not share these returns with other producers in the marketing area. The producer-handler must demonstrate that the operation of the dairy farm and the processing and packaging business are the personal enterprise and risk of such person. A producer-handler is exempt from all provisions of the order except record keeping and reporting requirements. These requirements are necessary to demonstrate that the handler is entitled to the exemption.

The burden on the producer-handler to report receipts and utilization of milk is minimal since the information is normally maintained in its business records.

**(d) Handler's Report of Producer Payroll**

This report is filed monthly by fully regulated handlers after the uniform price has been computed and producers paid.

Its principal purpose is to enable the market administrator to verify that producers have been paid at least the minimum price required by the order. It also provides information essential in the application of certain order provisions, other than those dealing directly with minimum payments to each producer, such as : (a) identification of nonmembers as well as members of cooperative associations so that marketing service deductions and authorized deductions payable directly to cooperative associations may be determined concurrently with payments, respectively; and (b) a partial basis for checking the accuracy of reported receipts of producer milk.

It provides up-to-date information on a market wide basis essential to other aspects of order administration and modification, such as, but not limited to: (a) seasonality of production patterns by zones or other geographical areas of significance in establishing and appraising the effect of zone differentials, and any allocation rules that may be established with reference thereto, (b) producer response to the entire system of prices and price levels established by the order and supply-demand formulae, (c) level and

313  
314

effect of butterfat, protein, and total solids differentials as a factor in returns to producers, and (d) comparative analysis of several markets in which the information on producer deliveries is comparable in detail and comprehensiveness.

The handler burden in reporting the payments for milk is minimal since the payroll information is a part of the normal business records of a handler.

**(e) Report of Payments to Cooperative Associations**

In many orders, handlers are required to report payments made to cooperative associations. The primary purpose of this report is to enable the market administrator to verify the dates and amounts of payments received by cooperatives for milk marketed on behalf of the their members.

The handler burden in reporting the payments to cooperative associations is minimal since the payroll information is a part of the normal business records of a handler.

**(f) Notification of Producer Change(s) – MA 201**

In many orders this form is used in conjunction with the producer payroll report. Handlers are required to notify the market administrator of the following changes in producer status: a) new producers delivering to a handler, b) producers no longer delivering to a handler, c) producers who have been degraded or reinstated, and d) changes to current producer data (i.e., name changes, mailing address changes).

The handler burden in reporting changes in producer status is minimal since this information is a part of normal business records.

**(g) Designation of Persons Authorized to Sign Handler Reports**

In many orders, handlers must file with the market administrator a list of names of individuals authorized to sign reports, and the title and a specimen signature of each such authorized person. Each handler submits the form, or a similarly prepared letter, when the handler first becomes regulated and whenever there is a change in the individuals who are authorized to sign the handler reports.

The market administrator uses the information so that it only accepts reports signed by authorized handler personnel when computing the financial obligations of each handler.

The respondent burden to complete the form letter is minimal since the information is readily available from the handler’s own knowledge and records.

**(h) Annual Report of Cooperative Milk Marketing Association - DA-24**

The Secretary must annually determine that each cooperative association continues to satisfy specific requirements so that a cooperative association may continue to be eligible for certain privileges and exemptions under the order.

Each cooperative association of dairy farmers must continually qualify itself under the

16

315 provisions of the Capper-Volstead Act and annually satisfy the Secretary that it remains  
316 qualified under such Act for the cooperative association to be recognized under the  
317 marketing orders. Under the Agricultural Marketing Agreement Act of 1937, as  
318 amended, the cooperative association must have full authority in the sale of milk of its  
319 members, must be engaged in making collective sales or marketing milk or its products,  
320 and must have all of its activities under the control of its members. After once  
321 receiving the qualification determination, the cooperative association completes Form  
322 DA-24 at the end of its fiscal year.

323

324 The Secretary reviews the information supplied by the cooperative association and  
325 determines if the association satisfies the requirements to be recognized as a  
326 cooperative association under the milk marketing order. The burden on a cooperative  
327 association to complete annually Form DA-24 is minimal since the information is  
328 readily available from the cooperative association's own knowledge and records. This  
329 form is available as a fillable form that can be completed and sent to USDA via fax,  
330 email or mail.

331

332 This form is available as a fillable form that can be completed and sent to USDA via  
333 fax, email, or mail.

334

335 **(i) Application for Qualification of Cooperative Milk Marketing**  
336 **Association - DA-25**

337 The Secretary must determine that each cooperative association meets specific  
338 requirements so that a cooperative association may be eligible for certain privileges and  
339 exemptions under the order.

340

341 Each cooperative association of dairy farmers must qualify itself under the provisions  
342 of the Capper-Volstead Act and satisfy the Secretary that it remains qualified under  
343 such Act for the cooperative association to be recognized under the marketing orders.  
344 Under the Agricultural Marketing Agreement Act of 1937, as amended, the cooperative  
345 association must have full authority in the sale of milk of its members, must be engaged  
346 in making collective sales or marketing milk or its products, and must have all of its  
347 activities under the control of its members. When the cooperative association is  
348 seeking its initial qualification determination, it submits all of the information requested  
349 by Form DA-25.

350

351 The Secretary reviews the information supplied by the cooperative association and  
352 determines if the association satisfies the requirements to be recognized as a  
353 cooperative association under the milk marketing order.

354

355 This information request is collected only when the cooperative association first applies  
356 for "qualified status."

357

358 **(j) Handler Report of Expected Receipts and Expected Class I Needs MA - 300**

359 Market administrators have the authority under § .7 of the marketing orders to adjust

18

360 the applicable supply plant shipping percentages to encourage needed milk shipments  
361 or to prevent unnecessary milk shipments. Before making an adjustment-increase or  
362 decrease-the market administrator must investigate the need for such a change. If the  
363 investigation indicates that such an adjustment might be appropriate, the market  
364 administrator must issue a notice stating that an adjustment is being considered and  
365 invite data, views, and arguments.

366

367 This form provides the market administrator with supply and demand information  
368 pertinent to making such a decision. The form is used only when a market  
369 administrator needs to investigate the adequacy of milk supplies for Class I use.

370

371 **(k) Estimated Deliveries by Section 9(c) Cooperatives and/or Section 7(c) Supply**  
372 **Plants to Section 7(a) Class I Distributing Plants – MA - 301**

373 Market administrators have the authority under § .7 of the marketing orders to adjust  
374 the applicable supply plant shipping percentages to encourage needed milk shipments  
375 or to prevent unnecessary milk shipments. Before making an adjustment-increase or  
376 decrease-the market administrator must investigate the need for such a change. If the  
377 investigation indicates that such an adjustment might be appropriate, the market  
378 administrator must issue a notice stating that an adjustment is being considered and  
379 invite data, views, and arguments.

380

381 This form provides the market administrator with supply and demand information  
382 pertinent to making such a decision. The form is used only when a market  
383 administrator needs to investigate the adequacy of milk supplies for Class I use.

384

385 **(l) Summary of Estimated Utilization of Producer Receipts and Listing of**  
386 **Transfers and Diversions to 7(a) Plants for the Period through – MA-302**

387 Market administrators have the authority under § .7 of the marketing orders to adjust  
388 the applicable supply plant shipping percentages to encourage needed milk shipments  
389 or to prevent unnecessary milk shipments. Before making an adjustment-increase or  
390 decrease-the market administrator must investigate the need for such a change. If the  
391 investigation indicates that such an adjustment might be appropriate, the market  
392 administrator must issue a notice stating that an adjustment is being considered and  
393 invite data, views, and arguments.

394

395 This form provides the market administrator with supply and demand information  
396 pertinent to making such a decision. The form is used only when a market  
397 administrator needs to investigate the adequacy of milk supplies for Class I use.

398

399 **(m) Producer Weight Record – MA – 100A**

400 Section .13 provides that milk received from producers whose farms are located outside  
401 of the states included in the marketing area, or as otherwise specified, must be formed  
402 into state units and must adhere to the supply plant shipping percentages set forth in  
403 § .7 of the marketing order. The market administrator uses this form to ensure that the  
404 requirements of the order are being fulfilled.

448  
449

The burden of this form is minimal because the information is readily available from normally maintained business records of handlers.

(n) **Brokerage Report – MA-B**

This is a special report used only in the Northeast order. Handlers in this market may operate both pool and nonpool plants. Handlers must complete the MA-B report whenever they direct milk transfers to be made between any nonpool plants. Since the milk is not considered producer milk under the order, these transfers are not reported on any other form. The market administrator uses the information to substantiate the movements of milk that are not pooled under the order.

All information on this form is readily available from the handler’s business records.

(o) **Report of Billings to and/or Payments from Pool Handlers – CPR-4**

Each cooperative association must report to the market administrator on a monthly basis the billings to and / or payments from pool handlers. The association lists the handler’s name and address, the delivery period, date billed, amount received and deposited. The report is due on the 20<sup>th</sup> of each month and includes all amounts billed and/or received since the previous report.

The market administrator uses the information to verify that each cooperative association has received at least the order’s minimum total value for its milk deliveries to handlers regulated under the Northeast order.

The burden on the cooperative association is minimal since the accounts receivable is a normal business record.

(p) **Monthly Report of Payments Received by Cooperative Association from Handlers**

Each cooperative association must report to the market administrator on a monthly basis the billings to and /or payments from pool handlers. The association lists the handler’s name and address, the delivery period, date billed, amount received and deposited. The report is due on the 20<sup>th</sup> of each month and includes all amounts billed and/or received since the previous report.

The market administrator uses the information to verify that each cooperative association has received at least the order’s minimum total value for its milk deliveries to handlers regulated under the order.

The burden on the cooperative association is minimal since the accounts receivable is a normal business record.

(q) **Calculation of Transportation Credit (Producer Milk)**

The Appalachian and Southeast marketing areas are the only orders that contain a

22

450 Transportation Credit Balancing Fund. The credits are funded with a handler  
451 assessment on Class I milk. The fund is used to reimburse handlers for the cost of  
452 importing bulk milk into those markets for fluid use when local supplies are insufficient  
453 to meet fluid needs. Only milk imported from outside the two markets is eligible for  
454 reimbursement.

455

456 The form is used to calculate the transportation credit for bulk milk received directly  
457 from producers' farms outside of the marketing areas.

458

459 **(r) Calculation of Transportation Credit (Other Source Milk)**

460 The form is used to calculate the transportation credit for bulk milk transferred from  
461 another order plant. It is similar to the Producer Milk form above.

462

463 **(s) Membership Report by Order 30 Qualified Cooperative Association – M-21**

464 This form provides the necessary identification information needed by the market  
465 administrator concerning handler operations.

466

467 This form is not often requested. All of the information items on this form are readily  
468 available from the handler's business records.

469

470 **(t) Record of Dumped Milk and Accidental Loss**

471 The orders provide that milk dumped, used for animal feed, destroyed, or lost in a  
472 vehicular accident, flood, fire or similar occurrence beyond the handler's control may  
473 be classified in the lowest priced class for the month if the market administrator is  
474 notified no later than the next business day. To receive proper credit for dumped milk  
475 and accidental losses, this form must be sent to the market administrator.

476

477 This form was slightly modified. The Market Administrator's information in the  
478 heading was deleted to allow usage of this form by all Federal Orders.

479

480 This form asks the handler to specify the way the product was lost, ie. via a batch tank  
481 or other measurable method, or an uncontained loss where the quantity lost could only  
482 be estimated.

483

484 The burden to complete this form is minimal since this information is part of a  
485 handler's normal business records.

486

487 **(u) Payments Made to a Cooperative Association**

488 The orders require that handlers pay at least minimum blend price to all producers from  
489 who they purchase milk. The difference between what a handlers pays producers and  
490 the utilization value of the milk is paid to or received from the producer-settlement  
491 fund. This form ensures that the market administrator transfers funds from the  
492 producer-settlement fund to the correct banking accounts.

493

494 All the information requested is readily available from normally maintained business

records.

**(v) Partially Regulated Distributing Plant Report of Route Dispositions into Federal Milk Marketing Orders – HR-76(a)**

At the request of the industry, the market administrator has been collecting Class I route disposition information by state for one month every quarter since 1995. The information is collected for the months of January, April, July, and October; and is summarized in the Market Information Bulletin. The summary data is used by handlers, dairy promotion organizations, and others to determine the effectiveness of marketing strategies and identify regional market trends.

All of the information on this report is readily available from the handler’s business records.

**(w) Information Report for Designation as Producer-Handler – PH-1**

This is a special form that is seldom used because very few dairy farmers want to process and market their own milk in packaged form. The information required to be submitted with this form helps the market administrator determine if the applicant can satisfy the requirements of § .10 of the order. Producer-handlers, as indicated earlier in this report, are exempt from the pricing and pooling provisions of the order but not the reporting or record-keeping requirements.

All of the information on this report is readily available from the producer-handler’s business records.

**(x) Report of Receipts and Utilization (including schedules 1, 2, and 3) – HR EZ**

This form is a special form used only by the Pacific Northwest and Arizona Orders. It is a simplified form used by regulated handlers whose operations have few end products.

This report is filed monthly by fully regulated handlers primarily to determine the amount of producer milk that was received during the month. This information is used to compute the monthly uniform price to producers in each of the markets. If such information were not collected, the price would not be determined.

Because milk is commingled in a milk plant, and thus loses its identity, and because milk plants often receive milk or milk products from sources other than producer milk, it is necessary to require a fully regulated handler to report all of its receipts of milk and milk products and to account for all uses of milk and milk products as well as to report opening and closing inventories. Such information is used to assign a use classification and price to producer milk receipts and to compute the monthly uniform blend price (basically, a weighted average price).

All of the information items that fully regulated handlers report to the market

26

540 administrator are readily available from normally maintained business records.

541

542 **(y) Producer Payroll Report – H-2**

543 This form is used only by the Pacific Northwest and Arizona Orders. This report is  
544 filed monthly in conjunction with a handler’s producer payroll report certifying that the  
545 information submitted is accurate.

546

547 The burden to complete this form is minimal.

548

549 **(z) Biennial Summary of Packaged Fluid Milk Sales in Federal Orders (NEW)**

550 The purpose of this summary is to seek information as to the type of packaging,  
551 container size, and method of distribution of fluid milk products. Data is collected  
552 from all handlers who process Class I fluid milk and are regulated under a Federal Milk  
553 Marketing Order.

554

555 Handlers complete this form in an Excel spreadsheet format. This information is based  
556 on data from their November pool report.

557

558 This form is used by each marketing order with slight modifications to the mailing  
559 instructions.

560

561 **(aa) Expected Producer Milk and Bulk Movements – H-11 (Form Deleted)**

562 Information from this form is no longer needed.

563

564 **(bb) Expected 1000.9(c) Movements to Pool Plants – H-12 (Form Deleted)**

565 Information from this form is no longer needed.

566

567 **(cc) Expected Bulk Milk Receipts and Usage – H-13 (Form Deleted)**

568 Information from this form is no longer needed.

569

570

574 **TECHNIQUES OR OTHER FORMS OF INFORMATION TECHNOLOGY,**  
575 **E.G. PERMITTING ELECTRONIC SUBMISSION OF RESPONSES, AND**  
576 **THE BASIS FOR THE DECISION FOR ADOPTING THIS MEANS OF**  
577 **COLLECTION. ALSO DESCRIBE ANY CONSIDERATION OF USING**  
578 **INFORMATION TECHNOLOGY TO REDUCE BURDEN.**

579

580 Respondents are provided certain forms in Excel spreadsheet and/or Word formats.  
581 Four marketing orders make forms available via their websites. The four areas are The  
582 Northeast Order ([www.fmmone.com](http://www.fmmone.com)), the Southeast and Florida Orders  
583 ([www.fmmatlanta.com](http://www.fmmatlanta.com)), the Mideast Order ([www.fmmacleev.com](http://www.fmmacleev.com)), and the Pacific  
584 Northwest and Arizona Orders (<http://www.fmmaseattle.com>). The formats may be

28

585 downloaded, completed, and submitted via e-mail. All respondents in all orders have  
586 the option of faxing in their completed forms. Currently, no forms are in an interactive  
587 format.

588

589 **4. DESCRIBE EFFORTS TO IDENTIFY DUPLICATION. SHOW**  
590 **SPECIFICALLY WHY ANY SIMILAR INFORMATION ALREADY**  
591 **AVAILABLE CANNOT BE USED OR MODIFIED FOR THE USE FOR THE**  
592 **PURPOSE(S) DESCRIBED IN ITEM 2 ABOVE.**

593

594 Dairy Programs has an ongoing relationship with many organizations in the dairy  
595 industry that also respond to other governmental agencies. Thus, we are aware of the  
596 reports dairy industry organizations are submitting to other Government agencies. We  
597 are confident that the information we collect is not duplicative of information already  
598 available.

599

600 **5. IF THE COLLECTION OF INFORMATION IMPACTS SMALL BUSINESSES**  
601 **OR OTHER SMALL ENTITIES (ITEM 5 OF THE OMB FORM 83-I),**  
602 **DESCRIBE THE METHODS USED TO MINIMIZE BURDEN.**

603

604 Information collection requirements have been reduced to the minimum requirements  
605 of the order. Forms require only a minimal amount of information, which can be  
606 supplied without data processing equipment or a trained statistical staff. The primary  
607 source of data used to complete the forms are routinely used in all business  
608 transactions. Thus, the information collection and reporting burden is relatively small.  
609 Requiring the same reporting requirements for all handlers does not significantly  
610 disadvantage any handler that is smaller than industry average.

611

612 Of the 690 respondents, we estimate that 518 (75 percent) are small businesses.

613

614 **6. DESCRIBE THE CONSEQUENCE TO FEDERAL PROGRAM OR POLICY**  
615 **ACTIVITIES IF THE COLLECTION WERE CONDUCTED OR CONDUCTED**  
616 **LESS FREQUENTLY, AS WELL AS ANY TECHNICAL OR LEGAL**  
617 **OBSTACLES TO REDUCING BURDEN.**

618

619 Collecting data less frequently would eliminate data needed to keep the Secretary  
620 informed concerning industry operations. Timing and frequency of the various reports  
621 are such to meet the needs of the industry and yet minimize the burden of the reporting  
622 public.

623

624 **7. EXPLAIN ANY SPECIAL CIRCUMSTANCES THAT WOULD CAUSE AN**  
625 **INFORMATION COLLECTION TO BE CONDUCTED IN A MANNER:**

626

627 - **REQUIRING RESPONDENTS TO REPORT INFORMATION TO THE**  
628 **AGENCY MORE OFTEN THAN QUARTERLY**

674

The primary information required under the Federal milk order program must be submitted on a monthly basis because the orders require that the market administrator compute monthly minimum prices to producers based on the monthly information. Without monthly information, the market administrator would not have the information to compute each monthly price nor know if handlers were paying producers on dates prescribed in the order, such as the advance payment for milk received the first 15 days of the month and the final payment which is payable after the end of the month. The Act imposes penalties for order violations, such as the failure to pay producers not later than prescribed dates.

- **REQUIRING RESPONDENTS TO PREPARE A WRITTEN RESPONSE TO A COLLECTION OF INFORMATION IN FEWER THAN 30 DAYS AFTER RECEIPT OF IT;**
- **REQUIRING RESPONDENTS TO SUBMIT MORE THAN AN ORIGINAL AND TWO COPIES OF ANY DOCUMENT;**
- **REQUIRING RESPONDENTS TO RETAIN RECORDS, OTHER THAN HEALTH, MEDICAL, GOVERNMENT CONTRACT, GRANT-IN-AID, OR TAX RECORDS FOR MORE THAN 3 YEARS;**
- **IN CONNECTION WITH A STATISTICAL SURVEY, THAT IS NOT DESIGNED TO PRODUCE VALID AND RELIABLE RESULTS THAT CAN BE GENERALIZED TO THE UNIVERSE OF STUDY;**

There are no special circumstances. The collection of information is conducted in a manner consistent with the guidelines in 5 CFR 1320.6.

The orders provide for the public dissemination of market statistics and other information for the benefit of producers, handlers, and consumers. Researchers at universities and at proprietary firms use the market information in their activities.

Each milk order is administered by a market administrator who is an agent of the Secretary of Agriculture. Part of the market administrator's duties are to prescribe reports required of each handler, to assure that handlers properly account for milk and milk products, and that such handlers pay producers and associations of producers according to the provisions of the order. The market administrator employs a staff that verifies handlers' reports by examining records to determine that the required payments are made to producers. The market administrators distribute and publish general market-wide information based on the data submitted by regulated handlers and verified by its staff.

**8. IF APPLICABLE, PROVIDE A COPY AND IDENTIFY THE DATE AND PAGE NUMBER OF PUBLICATION IN THE FEDERAL REGISTER OF THE AGENCY'S NOTICE, REQUIRED BY 5 CFR 1320.8(D), SOLICITING COMMENTS ON THE INFORMATION COLLECTION PRIOR TO SUBMISSION TO OMB. SUMMARIZE PUBLIC COMMENTS RECEIVED IN RESPONSE TO THAT NOTICE AND DESCRIBE ACTIONS TAKEN BY THE AGENCY IN RESPONSE TO THESE COMMENTS. SPECIFICALLY ADDRESS COMMENTS RECEIVED ON COST AND HOUR BURDEN.**

On August 16, 2016, the agency published the notice of information collection and request for comments in the *Federal Register* (81 FR 54550). Public comments were invited through October 17, 2016. No comments were received.

**DESCRIBE EFFORTS TO CONSULT WITH PERSONS OUTSIDE THE AGENCY TO OBTAIN THEIR VIEWS ON THE AVAILABILITY OF DATA, FREQUENCY OF COLLECTION, THE CLARITY OF INSTRUCTIONS AND RECORDKEEPING, DISCLOSURE, OR REPORTING FORMAT (IF ANY), AND ON THE DATA ELEMENTS TO BE RECORDED, DISCLOSED, OR REPORTED.**

**CONSULTATION WITH REPRESENTATIVES OF THOSE FROM WHOM INFORMATION IS TO BE OBTAINED OR THOSE WHO MUST COMPILE RECORDS SHOULD OCCUR AT LEAST ONCE EVERY 3 YEARS—EVEN IF THE COLLECTION OF INFORMATION ACTIVITY IS THE SAME AS IN PRIOR PERIODS. THERE MAY BE CIRCUMSTANCES THAT MAY**

**PRECLUDE CONSULTATION IN A SPECIFIC SITUATION. THESE CIRCUMSTANCES SHOULD BE EXPLAINED.**

Telephone interviews were conducted on a random sampling of respondents to obtain their views on the data collection requirements of the Federal milk order program. Respondents were asked to express their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

Ms. Franny Knouse – Maryland Virginia Milk Producers Cooperative, Reston, Virginia – 704-949-8303

Mr. Tom Wegner – Land O’Lakes, Arden Hills, Minnesota – (651) 481-2521

Mr. Elvin Hollon – Dairy Farmers of America, Kansas City, Missouri – (816) 801-6422

These three organizations are amongst the largest in the dairy industry, which is the reason why they were used again for this interview. The respondents included a dairy cooperative located in the Middle Atlantic region that operates several fluid milk processing plants and several milk manufacturing plants; a large dairy cooperative operating in the Midwest and Western regions of the United States operating numerous manufacturing plants; and the largest dairy cooperative association in the United States in number of members and total volume of milk marketed in the United States. The latter dairy cooperative has dairy farmer members across the United States. It delivers milk to more than 100 fluid milk processing and distributing plants. It operates many dairy manufacturing and cheese plants across the United States.

Since the program area last spoke with these same three contacts, they still agree with our burden hours. They agreed that the frequency of reporting on a monthly basis was appropriate. They agreed that the classified use basis for milk (reporting what products the milk is used to produce) necessitated the level of detail that the Federal milk order program requires in each Order’s receipt and utilization schedules and other supporting forms. The consensus was that less detailed information would not allow the current equity to be maintained among the regulated dairy processors. The processors also agreed that the information required to be reported was the minimum amount needed to determine the amount and composition of the component values of the milk received from the dairy farmer producers.

**9. EXPLAIN ANY DECISION TO PROVIDE ANY PAYMENT OR GIFT TO RESPONDENTS, OTHER THAN RENUMERATION OF CONTRACTORS OR GRANTEES.**

No payments or gifts are provided to respondents.

**10. DESCRIBE ANY ASSURANCE OF CONFIDENTIALITY PROVIDED TO RESPONDENTS AND THE BASIS FOR THE ASSURANCE IN STATUTE, REGULATION OR AGENCY POLICY.**

Section 608d of the Act provides assurance of confidentiality of

information collected. The Act imposes substantial penalties on anyone violating the confidentiality requirements of the Act.

- 11. PROVIDE ADDITIONAL JUSTIFICATION FOR ANY QUESTIONS OF A SENSITIVE NATURE, SUCH AS SEXUAL BEHAVIOR AND ATTITUDES, RELIGIOUS BELIEFS, AND OTHER MATTERS THAT ARE COMMONLY CONSIDERED PRIVATE. THIS JUSTIFICATION SHOULD INCLUDE THE REASONS WHY THE AGENCY CONSIDERS THE QUESTIONS NECESSARY, THE SPECIFIC USES TO BE MADE OF THE INFORMATION, THE EXPLANATION TO BE GIVEN TO PERSONS FROM WHOM THE INFORMATION IS REQUESTED, AND ANY STEPS TO BE TAKEN TO OBTAIN THEIR CONSENT.**

Questions of a sensitive nature are not asked.

- 12. PROVIDE ESTIMATES OF THE HOUR BURDEN OF THE COLLECTION OF INFORMATION.**

**THE STATEMENT SHOULD:**

- **INDICATE THE NUMBER OF RESPONDENTS, FREQUENCY OF RESPONSE, ANNUAL HOUR BURDEN, AND AN EXPLANATION OF HOW THE BURDEN WAS ESTIMATED. UNLESS DIRECTED TO DO SO, AGENCIES SHOULD NOT CONDUCT SPECIAL SURVEYS TO OBTAIN INFORMATION ON WHICH TO BASE HOUR BURDEN ESTIMATES. CONSULTATION WITH A SAMPLE (FEWER THAN 10) OF POTENTIAL RESPONDENTS IS DESIRABLE. IF THE HOUR BURDEN ON RESPONDENTS IS EXPECTED TO VARY WIDELY BECAUSE OF DIFFERENCE IN ACTIVITY, SIZE, OR COMPLEXITY, SHOW THE RANGE OF ESTIMATED HOUR BURDEN, AND EXPLAIN THE REASONS FOR THE VARIANCE. GENERALLY, ESTIMATES SHOULD NOT INCLUDE BURDEN HOURS FOR CUSTOMARY AND USUAL BUSINESS PRACTICES.**

The number of respondents totals 690; 18,051 responses; and 26,524 burden hours. This number of respondents is the number of individual recordkeepers whom are under the general record keeping requirements. The frequency that a report is submitted ranges from zero to 12 times per year. Each respondent submits a receipts and utilization form each month. Not all reports are submitted by each respondent in a year. The hour burden per respondent per report ranges from 0.25 to 3 hours per report. Estimates of the burden of collection of information have been summarized on AMS Form 71 (enclosed).

- **IF THIS REQUEST FOR APPROVAL COVERS MORE THAN ONE FORM,**

38

810 **PROVIDE SEPARATE HOUR BURDEN ESTIMATES FOR EACH FORM**  
811 **AND AGGREGATE THE HOUR BURDENS IN ITEM 13 OF OMB FORM**

813 **83-I.**

814

815 See AMS Form 71.

816

817 - **PROVIDE ESTIMATES OF ANNUALIZED COST TO RESPONDENTS**  
818 **FOR THE HOUR BURDENS FOR COLLECTIONS OF INFORMATION,**  
819 **IDENTIFYING AND USING APPROPRIATE WAGE RATE CATEGORIES.**

820

821 **THE COST OF CONTRACTING OUT OR PAYING OUTSIDE PARTIES**  
822 **FOR INFORMATION COLLECTION ACTIVITIES SHOULD NOT BE**  
823 **INCLUDED HERE. INSTEAD, THIS COST SHOULD BE INCLUDED IN**  
824 **ITEM 14.**

825

826 The estimated annual cost to respondents for report preparation is  
827 \$475,044 (26,524 x \$17.91/hr.). Although hourly rates vary among  
828 handlers in various localities, the wages paid to clerical workers  
829 engaged in report preparation is estimated to be compatible to about  
830 a grade GS-7, step 1.

831

832 This hourly wage was obtained from the U.S. Department of Labor  
833 Statistic's publication, National Compensation Survey. The cost  
834 estimate is for May 2015, using occupation series 43-3031  
835 (Bookkeeping, Accounting and Auditing Clerks). This data can also be  
836 found at the following website:

837 [http://www.bls.gov/oes/current/oes\\_nat.htm#43-](http://www.bls.gov/oes/current/oes_nat.htm#43-).

838

839

840 **13. PROVIDE AN ESTIMATE OF THE TOTAL ANNUAL COST BURDEN TO**  
841 **RESPONDENTS OR RECORDKEEPS RESULTING FROM THE**  
842 **COLLECTION OF INFORMATION. (DO NOT INCLUDE THE COST OF**  
843 **ANY HOUR BURDEN SHOWN IN ITEMS 12 AND 14).**

844

845 - **THE COST ESTIMATE SHOULD BE SPLIT INTO TWO COMPONENTS:**

847 **(A) A TOTAL CAPITAL AND START-UP COST COMPONENT**  
848 **(ANNUALIZED OVER ITS EXPECTED USEFUL LIFE); AND (B) A**  
849 **TOTAL OPERATION AND MAINTENANCE AND PURCHASE OF**  
850 **SERVICES COMPONENT. THE ESTIMATES SHOULD TAKE INTO**

852 **ACCOUNT COSTS ASSOCIATED WITH GENERATING, MAINTAINING,**

854 **AND DISCLOSING OR PROVIDING THE INFORMATION. INCLUDE**

855 **DESCRIPTIONS OF METHODS USED TO ESTIMATE MAJOR COST**  
856 **FACTORS INCLUDING SYSTEM AND TECHNOLOGY ACQUISITION,**  
857 **EXPECTED USEFUL LIFE OF CAPITAL EQUIPMENT, THE DISCOUNT**

859 **INCURRED. CAPITAL AND START-UP COSTS INCLUDE, AMONG**  
860 **OTHER ITEMS, PREPARATIONS FOR COLLECTING INFORMATION**  
861 **SUCH AS PURCHASING COMPUTERS AND SOFTWARE;**  
862 **MONITORING, SAMPLING, DRILLING AND TESTING EQUIPMENT;**  
863 **AND RECORD STORAGE FACILITIES.**

865 **- IF COST ESTIMATES ARE EXPECTED TO VARY WIDELY, AGENCIES**  
866 **SHOULD PRESENT RANGES OF COST BURDENS AND EXPLAIN THE**  
867 **REASONS FOR THE VARIANCE. THE COST OF PURCHASING OR**  
868 **CONTRACTING OUT INFORMATION COLLECTION SERVICES**  
869 **SHOULD BE A PART OF THIS COST BURDEN ESTIMATE. IN**  
870 **DEVELOPING COST BURDEN ESTIMATES, AGENCIES MAY CONSULT**  
871 **WITH A SAMPLE OF RESPONDENTS (FEWER THAN 10), UTILIZE THE**  
872 **60-DAY PRE-OMB SUBMISSION PUBLIC COMMENT PROCESS AND**  
873 **USE EXISTING ECONOMIC OR REGULATORY IMPACT ANALYSIS**  
874 **ASSOCIATED WITH THE RULEMAKING CONTAINING THE**  
875 **INFORMATION COLLECTION, AS APPROPRIATE.**

877 **- GENERALLY, ESTIMATES SHOULD NOT INCLUDE PURCHASES OF**  
878 **EQUIPMENT OR SERVICES, OR PORTIONS THEREOF, MADE: (1)**  
879 **PRIOR TO OCTOBER 1, 1995, (2) TO ACHIEVE REGULATORY**  
880 **COMPLIANCE WITH REQUIREMENTS NOT ASSOCIATED WITH THE**  
881 **INFORMATION OR KEEPING RECORDS FOR THE GOVERNMENT, OR**  
882 **(4) AS PART OF CUSTOMARY AND USUAL BUSINESS OR PRIVATE**  
883 **PRACTICES.**

884  
885 There are no capital/startup costs or operation and maintenance  
886 costs.

887  
888 **14. PROVIDE ESTIMATES OF AN ANNUALIZED COST TO THE FEDERAL**  
889 **GOVERNMENT. ALSO, PROVIDE A DESCRIPTION OF THE METHOD**  
890 **USED TO ESTIMATE COST, WHICH SHOULD INCLUDE**  
891 **QUANTIFICATION OF HOURS, OPERATION EXPENSES (SUCH AS**  
892 **EQUIPMENT, OVERHEAD, PRINTING, AND SUPPORT STAFF), AND ANY**  
893 **OTHER EXPENSE THAT WOULD NOT HAVE BEEN INCURRED WITHOUT**  
894 **THIS COLLECTION OF INFORMATION. AGENCIES ALSO MAY**  
895 **AGGREGATE COST ESTIMATES FROM ITEMS 12, 13, AND 14 IN A**  
896 **SINGLE TABLE.**

897  
898 The orders provide for an administrative assessment based on the  
899 volume of milk that handlers receive each month. These funds are

42  
 900  
 901  
 902  
 903  
 904  
 905

used to pay all the expenses incurred by the various market administrators in the administration of the Federal milk orders; including preparing and publishing the required forms. All costs incurred by the various marketing orders are covered through user fees.

906 **15. EXPLAIN THE REASON FOR ANY PROGRAM CHANGES OR**  
 907 **ADJUSTMENTS REPORTED IN ITEMS 13 OR 14 OF THE OMB FORM 83-I.**  
 908

909 There is an overall increase in the total burden hours due to the introduction of a new form.

911

912

913

914 **16. FOR COLLECTION OF INFORMATION WHOSE RESULTS ARE PLANNED**  
915 **TO BE PUBLISHED, OUTLINE PLANS FOR TABULATION, AND**  
916 **PUBLICATION. ADDRESS ANY COMPLEX ANALYTICAL TECHNIQUES**  
917 **THAT WILL BE USED. PROVIDE THE TIME SCHEDULE FOR THE**  
918 **ENTIRE PROJECT, INCLUDING BEGINNING AND ENDING DATES OF**  
919 **THE COLLECTION OF INFORMATION, COMPLETION OF REPORT,**  
920 **PUBLICATION DATES, AND OTHER ACTIONS.**

921

922 The information collection data will not be published.

923

924 **17. IF SEEKING APPROVAL TO NOT DISPLAY THE EXPIRATION DATE FOR**  
925 **OMB APPROVAL OF THE INFORMATION COLLECTION, EXPLAIN THE**  
926 **REASONS THAT DISPLAY WOULD BE INAPPROPRIATE.**

927

928 There is some confusion to respondents thinking their annual  
929 applications are good for the length of time noted in the expiration  
930 date, rather than expiring at the end of the application period.  
931 Therefore, we are seeking approval to not display the OMB expiration  
932 date on these forms.

933

934 **18. EXPLAIN EACH EXCEPTION TO THE CERTIFICATION**  
935 **STATEMENT IDENTIFIED IN ITEM 19, "CERTIFICATION FOR**  
936 **PAPERWORK REDUCTION ACT SUBMISSIONS," OF OMB FORM 83-I.**

937

938 The agency is able to certify compliance with all provisions under Item  
939 19 of OMB Form 83-I.

940

941

942 **B. Collection of Information Employing Statistical Methods**

943

944 This information collection does not employ statistical methods.
