ASK IF SPST2=1

ADOL1. Hello, my name is ____ calling on behalf of the Centers for Disease Control and Prevention. We're conducting a nationwide study about head injuries in children and adults.

You may have heard about head injuries, especially those experienced by children who play sports.

Even if you haven't had an injury in the past 12 months, you can still participate in this important study. We have asked your parents to give their permission for you to participate; they have said "yes." However, even though your parents said "yes," you can still say "no" and not participate. And you can skip any question or stop the survey at any time. The majority of respondents will complete the survey in less than 8 minutes.

There are minimal risks, and no known direct benefits to being in this voluntary study. CDC will keep the information that you provide private and secure to the extent permitted by the law. Your name will never be connected to your answers. We will not share your answers with your parents.

If you have questions or concerns about participating in the study, you may contact ICF International, the independent health research company hired to conduct this survey. They can be reached toll-free at -1-844-604-4399. If you have any questions about your rights as a research participant, please contact Sophia Zanakos at 301-572-0239. This call may be monitored for quality assurance purposes.

WHEN ADULT OR PROXY REPORTS FOR CHILD DISPLAY: "Now I'd like to ask some questions about your [insert age/sex of child] child."

RECALL. We are interested in learning about times, in the last year, when [IF INTTYPE=A OR D READ "you"/ IF INTTYPE=P READ "your child"] experienced a head injury. This might have been from a bump, blow or jolt to [IF INTTYPE=A OR D READ "your"/ IF INTTYPE=P READ "their"] head.

INJ. In the last year, that is since [insert date 1 year ago from today], [IF INTTYPE=A OR D READ "were you"/ IF INTTYPE=P READ "was your child"] examined in a doctor's office, clinic, hospital or elsewhere because of a head injury?

- 01. YES

PREJOG. Now I'd like for you to think about (IF YES TO TREATED TBI "other") times in the last year when [IF INTTYPE=A READ "you"/ IF INTTYPE=P READ "your child"] may have experienced an injury to the head. I would like you to tell me about a head injury even if [IF INTTYPE=A READ "you"/ IF INTTYPE=P READ "your child"] did not go to see a doctor for care. This might have happened while playing a sport for fun or competition, or while [IF INTTYPE=A READ "you were"/ IF INTTYPE=P READ "your child was"] doing something physically active like bicycling. It might have happened as a result of a car accident or because someone hurt [IF INTTYPE=A READ "you"/ IF INTTYPE=P READ "your child"]. Or, it could have happened because [IF INTTYPE=A READ "you"/ IF INTTYPE=P READ "your child"] tripped, slipped, or fell down.
