

HIV Outpatient Study (HOPS)

Attachment 3b

Behavioral Survey Instrument screen shots

Public reporting burden of this collection of information is estimated to average 7 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

We would like to ask you a few questions about things that you have done in the last six months.

Some of these questions may seem personal but we encourage you to answer honestly. Please keep in mind that your answers to these questions are private, and that no one in this clinic will have access to this information. The only information the clinic will receive is whether or not this survey was completed.

Your answers will be used to aid medical research about behavior and diseases.
