**Child Care: Types and Hours**

Now I'd like to understand your child care schedule last week.

**C1\_INTRO.**

[READ FOR FIRST CHILD ONLY:] In addition to a child's parents, a child may be cared for by other adults in the household, by relatives or friends outside of the household, or by a child-care professional in a center or someone's home. Older children may sometimes care for themselves. Next I have some questions about various people who cared for your child/children during the last week (that is, Monday, [MONDAY DATE] to Sunday, [SUNDAY DATE]).

IN SLOTS 1-15, LIST ALL HHMS WHO ARE NOT THE RESPONDENT, ARE NOT THE RESPONDENT'S SPOUSE (HH\_B1D\_RLTION\_R\_X NOT 1), AND DO NOT HAVE A CHILD IN THE HH (HH\_B1E\_HAVECHILD\_X NOT 1).

[Let's start with [CHILD 1 NAME]./Now let's talk about [CHILD X NAME].] Please tell me all of the people or organizations that cared for [him/her] last week. Do not include any parent of a child under 13 in this household or his or her spouse.

[IF CHILD AGE 5 YEARS OR MORE]: If your child attended regular school for any grade from kindergarten through eighth grade, please tell me the name of that school. If [CHILD NAME] also attended a before or after-school program, either at the school or somewhere else, please mention that program separately.

Please also include any other activities, such as playdates or babysitters.

The types of care I will ask you about are: center care, relative or friend care, family day care, and parental care.

**C14\_1.**

[Let's start with center care. Examples of center care include preschools, Head Start, an after school program at school, or a child care center.

/Let us continue with relative or friend care, where a relative or close family friend cares for a child in the relative's/friend's home or the child's home.

/Next let us think about family care, where an individual has a child care business in his or her own home and cares for a few or several children there.

/Last, let us talk about parental care, where the parents are the only care providers a child has.]

Now how would you rate it on having a nurturing environment for children of the same age as (SELECTED CHILD IN C14\_SELECT)? Would you say: excellent, good, fair, poor?

REPEAT H5 FOR EACH CHILD IN HH.
---------------------------------

**H5.**

We are asking your permission to search state or local government records for child-care subsidy, Supplemental Nutritional Assistance Program (Food Stamps), TANF, WIC, Medicaid, or other programs that provide assistance to families. We would give the state agency basic information that identifies [CHILD NAME], and request that information about [his/her] participation in government programs be sent to the U.S. Department of Health and Human Services or its contractors, for study purposes only. Do we have your permission to do so?

1. Yes → GO TO H6
2. No → GO TO H3

**H3.**

(SUGGESTED SCRIPT) State or local government program records can provide additional information about the child care and financial assistance for care that a child and his/her family may be receiving. (IF NEEDED: For example, some pre-schools or after-school programs may be receiving government subsidies that parents are not aware of. These subsidies would be recorded in state program data on child care subsidies or such child care-related programs as Head Start or Universal Pre-Kindergarten.) NORC requests your permission to search child-care related government program records for information about your child or about the providers who serve your children. Even if your (child has/children have) not received subsidies or (has/have) never been in child care, it is still important for us to have your permission so that we can compare families like yours against those that do enroll in programs. We would not provide the state agency with any of the answers you've told me today, other

than your name and the name(s) of your child/ren, and enough information to find them in state records.

All information about your child and your child’s care provider will be considered private and used for study purposes only. Any names of children, as well as any names of childcare providers, will not be used in reporting the study results. We will never release any information that may identify you or your child. The information will be reported in statistical form to the U.S. Department of Health and Human Services as part of the results of this study.
