

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

DHS Privacy Office Comments:

Please describe rationale for privacy compliance determination above.

USCG is submitting this PTA to discuss the Cargo Record Book for Ships Carrying Noxious Liquid Substances in Bulk, Form CG-4602B, which is associated with the Ships Carrying Bulk Hazardous Liquids information collection and OMB Control Number 1625-0094. The information collection and recordkeeping requirements required under this OMB Control Number is implemented in 46 CFR 153 and required by Annex II to the MARPOL Convention, which is in 46 CFR 153 under the authority of 33 USC 1903. The information is used by the Coast Guard to evaluate vessel design, to ensure compliance with the regulations. The information is used by vessel crewmembers in operations related to the cargoes and to avoid potential dangers presented by the cargo. These requirements are necessary to ensure that the requirements for the safe transport by vessel of bulk liquid hazardous materials mandated by 46 USC 3703 are met.

The Cargo Record Book is completed by a vessel crewmember and is maintained on the vessel. The only PII used on this form is that of the master of the vessel. The form is not submitted to UCGS, and it is not signed off by USCG. The reviewer is a USCG member during an inspection. The form and information are not put into the Marine Information for Safety and Law Enforcement (MISLE) database.

The only PII collected on this form is that of a master of a vessel and that information is not collected by USCG. PIA coverage for this type of information being required is provided by DHS/USCG/PIA-008 MISLE, which outlines the risks of capturing information required to support the Coast Guard's marine safety, security, environmental protection and law enforcement programs. SORN coverage is not technically required as the information is

Privacy Office U.S. Department of Homeland Security Washington, DC 20528 202-343-1717, pia@hq.dhs.gov www.dhs.gov/privacy

collected and therefore not retrieved by a unique identifier. However, DHS/USCG-013 MISLE does provide notice of this type of information collection.
