

#### PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

# PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

# **DHS Privacy Office Comments:**

#### Please describe rationale for privacy compliance determination above.

USCG is submitting this PTA to discuss the Vapor Control Systems for Facilities and Tank Vessels information collection, which is associated with OMB Control Number 1625-0060. To comply with various Federal and State environmental quality statutes and regulations imposed by agencies other than the Coast Guard, many tank vessels and facilities involved in loading or unloading cargo from those vessels use vapor control systems (VCSs) to limit hydrocarbon emissions during tank vessel loading or unloading. The Coast Guard itself does not require any vessel or facility to use a VCS, but it regulates VCS safety. VCSs require approval, either directly from the Coast Guard or using the services of third-party certifying entities that have been recognized ("accepted") by the Coast Guard for that purpose. The purpose of the information is (1) recording compliance actions, (2) documenting safety procedures (3) conveying training information and (4) labeling equipment to assure safe operations.

There are no forms associated with this collection. The information may be submitted by mail, fax or electronically via e-mail to the Coast Guard. However, records contain basic business contact information of the vessel or facility owner/operator, if owned/operated by an individual. The records that USCG receives are maintained in Marine Information for Safety and Law Enforcement (MISLE) database and are not shared outside of the office.

The DHS Privacy Office agrees that this information collection is privacy-sensitive.

PIA coverage is provided by DHS/USCG/PIA-008 MISLE, which outlines the risks of capturing information required to support the Coast Guard's marine safety, security,

Privacy Office U.S. Department of Homeland Security Washington, DC 20528 202-343-1717, pia@hq.dhs.gov www.dhs.gov/privacy

environmental protection and law enforcement programs. SORN coverage is not technically required as the information is retrieved by search using vessel-specific information. However, DHS/USCG-013 MISLE does provide notice of this type of information collection. No Privacy Act Statement is required.
