

## PRIVACY THRESHOLD ANALYSIS (PTA)

**This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).**

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance  
The Privacy Office  
U.S. Department of Homeland Security  
Washington, DC 20528  
Tel: 202-343-1717

[PIA@hq.dhs.gov](mailto:PIA@hq.dhs.gov)

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

### *Specialized Template for Information Collections (IC) and Forms*

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

## **SPECIFIC IC/Forms PTA QUESTIONS**

### **1. Purpose of the Information Collection or Form**

- a. Describe the purpose of the information collection or form. *Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).*  
*If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.*

This is an updated PTA; the reason for submission is to update ICE Form 73-048 (Allegation of Counterfeiting and Intellectual Piracy).

The U.S. Immigration and Customs Enforcement (ICE) Homeland Security Investigations (HSI)-led National Intellectual Property Rights Coordination Center (IPR Center) brings together 23 partner agencies to effectively leverage the resources, skills, and authorities of each in order to provide a comprehensive and coordinated response to intellectual property rights crimes. The IPR Center works with copyright owners, trade associations and both foreign and domestic law enforcement agencies. It accepts allegations concerning IPR violations from individuals and entities in both the public and private sector and has a website where allegations may be uploaded. Further information about the IPR Center is available at <http://www.iprcenter.gov/>.

The IPR Center modernized and automated its operations to gain efficiencies and improve effectiveness. One of the ways to accomplish this is through a system that automates the intake, development, deconfliction, and referral of investigative lead information intended for the purpose of initiating or resolving criminal and/or civil investigations and support actions involving IPR violations.

In coordination with its partner agencies, the IPR Center developed protocols for lead development and deconfliction. These come into play when complaints are received, either from the IPR Center's website or through referrals or direct reports to a Center member. Complaints are circulated among participating members of the IPR Center to determine if any agency is already investigating the matter. If this process reveals no active investigations or other pertinent information, IPR Center partners conduct a review of the information to determine if it is sufficient to justify a criminal investigation. If so, a partner agency will be selected to pursue the matter, based on the merits and origin of the lead, the commodity involved, and a previously-agreed-to rotation schedule.

To facilitate the lead development and deconfliction process, the IPR Center updated the form it uses for complaint intake to add a number of data fields that provide more robust information about the allegation of a potential intellectual property crime. Personal

identifiers of the complainant are now solicited along with information about witnesses and victims as well as alleged violators, if available, and is stored in an ICE approved database/spreadsheet. A Privacy Act notice appears on the form.

HSI uses ICE Form 73-048, “Allegation of Counterfeiting and Intellectual Piracy Form” to allow individuals to report suspected violations of intellectual property rights. Individuals filling out this form provide information to ICE-HSI about individuals, businesses, and/or organizations that have violated counterfeiting and intellectual property rights laws. The information is collected from anyone who wishes to report a violation using the referral form available at <https://www.iprcenter.gov>. The specific information collected on the form is outlined in Question 2e (below). All information provided on the form *is voluntary*.

- b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*
