## Manufacturer Production Report for Heavy-Duty and Medium-Duty Engines and Vehicles

Last Revision: August 2018 Version 1.0

### Production Report - INSTRUCTIONS

This template allows engine and vehicle manufacturers to submit their annual production data in a simple, consistent format. The reporting of production numbers is required. The number of engines produced by engine family and configuration is required only for Part 1033. The fields for Max Power, Displacement and Fuel System Type only apply to engines for Parts 1033 and 1039. Note that the reporting of engine serial number data for Part 86/1036 engines is not required. Your report **must** include production information on each certified engine family, **even if the production was zero**. Report zero production into the "Exemptions" worksheet. This template should **not** be used to report production data for Part 1037 engines and vehicles.

#### Submission Template

Production data for all non-exempt engines or vehicles should be entered in the Submission Template worksheet. Reporting of production numbers is required only for Part 1033. The fields for Max Power, Displacement and Fuel System Type only apply to engines for Parts 1033 and 1039. Note that the reporting of engine serial number data for Part 86/1036 engines is not required.

#### Exemptions

If exempted locomotives are identified in the "# Exempted Engines" field in the Submission Template worksheet, they will appear at the top of the worksheet. Basic information as entered in the Submission Template worksheet will appear at the top of the worksheet (Locomotive). In addition to identifying information for each exempt engine/locomotive, the associated buyer information should be provided.

#### **Paperwork Reduction Act Notice**

The public reporting and recordkeeping burden for this collection of information is estimated to average 30 minutes per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques, to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Avenue, Washington, D.C. 20460. Include the OMB control number(s) in any correspondence. Do not send the completed form to this address.
