

Background: The Secretary of Transportation (Secretary) is authorized to require a motor carrier that uses commercial motor vehicles not owned by it to transport property under an arrangement with another party to make the arrangement in writing. This written lease agreement must specify its duration, the compensation to be paid by the motor carrier providing transportation subject to jurisdiction under 49 U.S.C. 14102(a), “Leased Motor Vehicles” and signed by the parties. The Secretary has delegated authority pertaining to leased motor vehicles to FMCSA pursuant to 49 CFR 1.87(a)(6). The Agency’s regulations governing leased motor vehicles are at 49 CFR part 376.

The rules were adopted to ensure that small trucking companies were protected when they agreed to lease their equipment and drivers to larger for-hire carriers. They also ensure that the government and members of the public can determine who is responsible for a property-carrying commercial motor vehicle. Prior to the regulations, some equipment was leased without written agreements, leading to disputes over which party to the lease was responsible for charges and actions and, at times, who was legally responsible for the vehicle. Under 49 U.S.C. 14102(a), FMCSA “may require a motor carrier providing for-hire transportation that uses motor vehicles not owned by it to transport property under an arrangement with another party to—

(1) make the arrangement in writing signed by the parties specifying its duration and the compensation to be paid by the motor carrier;

(2) carry a copy of the arrangement in each motor vehicle to which it applies during the period the arrangement is in effect;

(3) inspect the motor vehicles and obtain liability and cargo insurance on them; and

(4) have control of and be responsible for operating those motor vehicles in compliance with requirements prescribed by the Secretary on safety of operations and equipment, and with other applicable law as if the motor vehicles were owned by the motor carrier.”

The rules specify what must be covered in the lease, but leave open how many responsibilities must be divided. The parties to the lease determine numerous details between themselves.

Part 376 applies only to certain motor carriers in interstate commerce and only to certain leasing situations based on exemptions set forth in 49 CFR 376.11, which cross references other provisions in part 376. Section 376.11 requires that

authorized carriers (a person or persons authorized to engage in the transportation of property as a motor carrier under the provisions of 49 U.S.C. 13901 and 13902) may perform authorized transportation using equipment it does not own only when the following conditions are met: (1) There shall be a written lease granting the use of the equipment and meeting the requirements contained in 376.12; and (2) Receipts, specifically identifying the equipment to be leased and stating the date and time of day possession is transferred, shall be given; and (3) The authorized carrier acquiring the use of equipment under this section shall identify the equipment as being in its service.

Comments to the part 390 rulemaking on passenger carrier leasing caused FMCSA to reduce the regulatory and paperwork burden on passenger carrier vehicles in certain ways. First, vehicles exchanged between or among commonly owned and controlled motor carriers will not be required to have leases and receipts. Second, leases and receipts will not be required when passenger carriers party to a revenue pooling agreement approved by the Surface Transportation Board exchange or interchange passenger vehicles between or among themselves on routes subject to the pooling agreement. A simple statement affirming responsibility for regulatory compliance and marking the vehicle appropriately will be required for these: (1) Exchanges of passenger vehicles among commonly owned and controlled motor carriers; and (2) parties to revenue pooling agreement approved by the Surface Transportation Board.

These property and passenger carrier provisions account for the burden in this information collection.

This program change increase of 527,214 estimated annual burden hours (1,136,114 proposed estimated annual burden hours—608,900 currently approved estimated annual burden) is due to updated estimates of the number of respondents and responses. Previous estimates were based on 2014 data. Current estimates are based on September 26, 2017, Motor Carrier Management Information System and Safety Measurement System snapshots. The data pulled for the current ICR shows an increase in the overall number of carriers since the data used in the previous ICR. The increased carriers resulted in an increase in the overall burden hours associated with this ICR.

SUPPLEMENTARY INFORMATION:

Background: The Secretary of Transportation (Secretary) is authorized to require marking of vehicles and intermodal equipment by motor carriers, freight forwarders and intermodal equipment providers (IEPs) engaging in interstate transportation based on the authority of 49 U.S.C. 31133(a)(8) and 31133(a)(10). The Secretary has delegated authority pertaining to the marking of commercial motor vehicles (CMVs) pursuant to 49 CFR 1.87(f). The Agency's regulation governing the marking of CMVs is codified at 49 CFR 390.21.

Vehicle marking requirements are intended to ensure that FMCSA, the National Transportation Safety Board (NTSB), and State safety officials are able to identify motor carriers and correctly assign responsibility for regulatory violations during inspections, investigations, compliance reviews, and crash studies. These marking requirements will also provide the public with beneficial information that could assist in identifying carriers for the purposes of commerce, complaints or emergency notification. The marking requirements apply to motor carriers, freight forwarders and intermodal equipment providers (IEPs) engaging in interstate transportation. The Agency does not require a specific method of marking as long as the marking complies with FMCSA's regulations. The program change decrease of 76,751 estimated annual burden hours (774,249 proposed estimated annual burden hours—851,000 approved estimated annual burden hours) is due to adjustments in respondent and response estimates, as well as the removal of initial marking burden from the adoption of the "Lease and Interchange of Vehicles; Motor Carriers of Passengers" final rule.

Estimated Time per Response: 26 minutes [12 minutes to affix DOT Number + 14 minutes for affixing a carrier's name = 26].

Expiration Date: August 31, 2018.

Frequency of Response: On occasion.

Estimated Total Annual Burden: 774,249 hours spent by motor carriers and IEPs marking CMVs with a DOT number and carrier information.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.
