

**Supporting Statement**  
**Biofuels Infrastructure Partnership (BIP)**  
**OMB control number-0560-0284**

FSA is requesting a revision and an extension of the currently approved information collection to support a Biofuel Infrastructure Partnership (BIP) Grants to States. The Farm Service Agency (FSA) is administrating BIP on behalf of the Commodity Credit Corporation (CCC). CCC is funding the grant.

**Justification**

**1. Explain the circumstances that make the collection of information necessary.**

This information collection is needed for FSA to identify eligible States for blender pump funding to encourage increased ethanol use. FSA requires each State interested in a grant to submit an application to FSA on a form specified by FSA.

FSA announced the availability of competitive grants to fund States, the Commonwealth of Puerto Rico, and Washington, D.C. with respect to activities designed to expand the infrastructure for renewable fuels. The goal is for grantees to provide funds on a one-to-one basis to receive matching CCC funds. The funds may be used to pay a portion of the costs related to the installation of fuel pumps and related infrastructure dedicated to the distribution of higher ethanol blends, for example, “E15,” and “E85”, at local gasoline stations, convenience stores (CS), hypermarket fueling stations (HFS), or fleet facilities. The matching contributions may be used for these items as well as for additional related costs such as marketing, education, and administrative costs associated with the application process.

The funding will be provided under the authority in section 5(e) of USDA’s CCC Charter Act (15 U.S.C. 714c(e)).

**2. Indicate how, by whom and for what purpose the information is to be used. Except for new collections indicate the actual use the Agency has made of the information received from the current collection.**

The information is used by FSA to determine whether participants meet the eligibility requirements to be a recipient of grant funds. Lack of adequate information to make the determination could result in the improper administration and appropriation of Federal grant funds. The participants are required to keep their records on files for more than three years for reporting purposes

The information collection requirements are described on the attached FSA-85-1, Reporting and Recordkeeping Requirements. There are 19 States to continue to provide annual report (non-format in place of SF-425),. The SF-425, Financial Report (OMB # 4040-0014) and SF-3881 (OMB #1551-0069) were requested through common form requests.

## Annual Report

BIP participants will provide an annual report to FSA that includes the goals and accomplishments of the program, program activities and outcomes, and financial status report. The annual report may be provided on SF-425, but may be provided in another format as long as the information requested on SF-425 is included in the report.

In addition, information on the performance and effectiveness of the program will be reported. Lastly, the annual reports may provide any additional information the state may elect to include, such as lessons learned or anything else that may help continue to drive innovative implementation of more comprehensive approaches to marketing higher levels of ethanol for the installation of infrastructure for higher blends of ethanol in general. The time to collect and provide the information is estimated to be 4 hours per response.

## **Collections Approved under Other OMB Control Numbers**

**[Note: these are standard grants.gov forms.]**

The following table summarizes the current information collections.

Description	Approved Under
SF-425, Financial Status Report (request for common form)	4040-0014
SF-3881 ACH Vendor/Misc. Payment (request for common form)	1530-0069

**3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decisions for adopting this means of collection. Also describe any consideration of information technology to reduce burden.**

Most of the electronic forms are available at [www.grants.gov](http://www.grants.gov).

**4. Describe efforts to identify duplication. Show specifically why similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

There is no duplication of information.

**5. Methods to minimize burden on small businesses or other small entities (Item 5 of OMB Form 83-I), describe any methods to minimize burden.**

This information collection will be for the States; therefore, small businesses will not be affected in this request. Also, there are no small businesses in this collection.

**6. Describe the consequences to Federal program or policy activities if the collection is not conducted or conducted less frequently, as well as any technical or legal obstacles to reducing burden.**

FSA requires the minimum information needed to determine whether a State's proposal for BIP is competitive for Federal Assistance, reporting requirements, and mid-year reports. This minimum reporting of information is necessary for the FSA to administer BIP in an equitable and cost-effective manner.

**7. Explain any special circumstances that would cause an information collection to be conducted in a manner:**

- a) Requiring respondents to report information more frequently than quarterly. There are no information collection requirements that require information more frequently than quarterly.
- b) Requiring written responses in less than 30 days. There are no information collection requirements that require written responses in less than 30 days.
- c) Requiring more than an original and two copies. There are no information collection requirements that require more than an original or single copy of a document.
- d) Requiring respondents to retain records for more than 3 years. The respondents are required to retain records for more than 3 years because the respondents are still required to report to FSA until year of 2022.
- e) No utilizing statistical sampling. There are no such requirements.
- f) Requiring the use of statistical sampling which has not been reviewed and approved by OMB. There are no such requirements.
- g) Requiring the pledge of confidentiality. If documents were requested through FOIA, participants will be contacted to determine whether they should be treated as confidential.
- h) Requiring submission of propriety trade secrets. There are no such requirements.

**8. Describe efforts to consult with persons outside the Agency to obtain their view on the availability of data, frequency of collection, the clarity of instructions and record keeping, disclosure, or reporting format (if any), and on data elements to be recorded, disclosed, or reported.**

The 60-day notice published on October 12, 2018 (83 FR 51660), and there were 3 comments received but the comments were not relevant to the information collecting aspects, three persons were contacted below, and there were no comments, or no changes suggested for the information collection activity:

Kristi Moriarty

US Department of Energy, National Renewable Energy Lab  
303-275-4477

Peter Riley  
USDA, Food Production and Conservation Business Center, Economic & Policy  
Analysis  
202-720-7787

William Hohenstein  
USDA Office of the Chief Economist, Office of Energy and Environmental Policy  
202-720-6698

**9. Explain any decision to provide any payment or gift to respondents.**

There is no payment or gift given to respondents.

**10. Describe any assurance of confidentiality provided to the respondents and the basis for the assurance in statute, regulation, or Agency policy.**

There is no assurance of confidentiality provided to respondents for the information required in this collection. The information collected pertains mostly to administering federal grant funds according to rules and regulations.

**11. Provide additional justification for any question of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.**

The information collected under NOFA is financial in nature. As a condition for the receipt of federal grant funds, CCC will handle financial information as part of the business operations. However, the information is required to properly administer federal funds.

**12. Provide estimates of the hour burden of the collection of information.**

The burden for the BIP collection of information includes both the upfront one-time application and the on-going reporting. So, the estimate of the annual burden and costs reflects the average of the one-time and the annual information collection activities. These estimates were prepared based on the variety of forms and other information collection methods that will be used by the states.

The estimate of hour burden of the information collections is as follows:

Total Number of Unduplicated Respondents	19
Reports Filed Per Respondent	1

Total Annual Responses	19
Total Annual Burden Hours	76
Average Burden Per Collection	0.22 hour

The respondents are mainly States employees so an average wages would be around \$38.00. The cost per hour for respondents was based on experience with other FSA grant programs to states. A total employer compensation costs (fringe benefits) for all workers averaged \$11.25 per hour worked from Bureau of Labor Statistics website, specifically in the document of the employer costs for employee compensation, September 2018. The total respondents' hourly rate is \$49.25. The respondent costs would be \$3,743 (76 hours x \$49.25).

**13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information.**

The information collection request places no burden costs on respondents for capital, start-up, operation, maintenance, or the purchase of services.

**14. Provide estimates of annualized cost to the Federal Government.**

Agency employees provide guidance and assistance to State BIP participants in obtaining and reporting the information needed. In addition, they will ensure information provided is complete and accurate, and to reduce the time it takes State BIP to gather and submit the required information. Lastly, employees review the information provided to effectively administer federal grant funds according to applicable rules and regulations. The agency estimates that employees spend 75 hours on information submitted from each State BI Partnership, for a total of 1,425 hours.

The estimate of annualized cost for the information collections is as follows:

Respondent's Cost Per Hour -	Budget analyst	\$36.24
	- Program Analyst	\$48.53

Total Annual		
Respondent Cost –	Budget analyst (76 X \$36.24 +7.20)=	\$3,301
	Program Analyst (76 X \$48.53+7.20)=	\$4,236
	Total	\$7,5367

Cost per hour for respondents was derived from the OPM January, 2019 at <http://www.opm.gov>. A total employer compensation costs (fringe benefits) for all government workers averaged \$7.20, 37%, per hour worked from BLS website, specifically in the document of the employer costs for employee compensation, September 2018.

**15. Explain the reason for any program changes or adjustments reported in Items 13 or 14 of the OMB Form 83-I.**

There is a program change reported in this request because the burden hours have decreased by -464 for the removal of forms that were no longer required for States to submit to FSA.

The annual number of responses were reduced by -485 while then number of respondents reduced by -17. There are only 19 States eligible to receive BIP grant.

**16. For collection of information whose results will be published, outline plans for the tabulation and publication.**

The information collections will not be tabulated or published.

**17. If seeking approval to not display the expiration date for the OMB approval of information collection, explain the reasons that display would be inappropriate.**

Most of the information collected is in narrative form – information collection instruments utilized for this collection are used by multiple agencies via Grants.gov.

**18. Explain each exception statement to the certification statement identified in Items 19 and 20 on OMB Form 83-I.**

FSA is able to certify compliance with all provisions under Item 19 of OMB Form 83-I.
