Comment 1

We received one comment from a healthcare professional. The commenter fully supports these changes to the DUR survey, highlighting its purpose in ensuring appropriate drug use in Medicaid. The commenter also noted that the changes to the DUR reporting tool are in keeping with the HITECH act which promotes the meaningful use and adoption of health information technologies, and further noted that the DUR program is a much needed and important aspect of the Medicaid framework.

CMS Response

CMS thanks the commenter for their support.
