

**Crosswalk for Changes to MDS 3.0**

**CMS 10387**

**OMB #0938-1140**

<b>2017 (old version)</b>	<b>2018 (new version)</b>	<b>Type of change</b>	<b>Reason for change</b>	<b>Burden Change</b>
<p>Require scheduled Prospective Payment System (PPS) assessments (NP) , unscheduled PPS assessments (Change of Therapy (COT) and End of Therapy (EOT) Other Medicare Related Assessment (OMRA) (NO/SO), and the optional Start of Therapy (SOT) OMRA (NS) as well as the COT/EOT combined with discharge (NOD) and the SOT combined with discharge (NSD).</p>	<p>Require only two scheduled assessments (as opposed to the current requirement for five scheduled assessments) for each SNF stay: A 5-day scheduled PPS assessment (Item Set NP) and a discharge assessment (Item Set NPE).</p>	<p>Revision</p>	<p>As part of the finalized new SNF Patient Driven Payment Model (PDPM) found in CMS-1696-F</p>	<p>Burden will be decreased</p>
<p>PPS discharge item set has 125 items.</p>	<p>Add 18 items to the PPS discharge assessment.</p>	<p>Revision</p>	<p>To calculate and monitor the total amount of therapy provided during a SNF stay.</p>	<p>Burden will increase; however, this increase is more than offset by the significant decrease in burden associated with the item above.</p>
