

Accountability and Reporting System, which is a real-time, performance management system that captures information on the substance abuse treatment and mental health services delivered in the United States. Continued approval of this information collection will allow SAMHSA to continue to meet Government Performance and Results Modernization Act of 2010 reporting requirements that

quantify the effects and accomplishments of its discretionary grant programs, which are consistent with OMB guidance.

SAMHSA and its Centers will use the data for annual reporting required by GPRA and comparing baseline with discharge and follow-up data. GPRA requires that SAMHSA's fiscal year report include actual results of performance monitoring for the three

preceding fiscal years. The additional information collected through this process will allow SAMHSA to: (1) Report results of these performance outcomes; (2) maintain consistency with SAMHSA-specific performance domains, and (3) assess the accountability and performance of its discretionary and formula grant programs.
