Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Consistent with the requirements of Executive Order (E.O.) 13771, Reducing

Regulation and Controlling Regulatory Costs, and E.O. 13777, Enforcing the Regulatory Reform Agenda, TSA is also requesting comments on the extent to which this request for information could be modified to reduce the burden on respondents.

Information Collection Requirement

OMB Control Number 1652–0029; Maryland Three Airports: Enhanced Security Procedures for Operations at Certain Airports in the Washington, DC Metropolitan Area Flight Restricted Zone, 49 CFR part 1562. TSA's regulations impose requirements and security procedures on airport operators of three Maryland airports located within the Washington, DC, Metropolitan Area FRZ (Maryland Three Airports),¹ and on individuals operating aircraft to or from these airports. The information collected is used to determine compliance with 49 CFR part 1562, subpart A.

Part 1562, subpart A, allows an individual who is approved by TSA to operate an aircraft to or from one of the Maryland Three Airports or to serve as an airport security coordinator at one of these airports. In order to be approved, a pilot or airport security coordinator applicant is required to successfully complete a security threat assessment. As part of this threat assessment, the applicant must undergo a criminal history records check and a check of Government terrorist watch lists and other databases to determine whether the individual poses, or is suspected of posing, a threat to transportation or national security. An applicant will not receive TSA's approval under this analysis if TSA determines or suspects them of being a threat to national or transportation security.

Applicants can be fingerprinted at the Ronald Reagan Washington National Airport's (DCA) badging office and any participating airport badging office or law enforcement office located nearby to the applicant's residence or place of work. Applicants must present the following information to TSA, using TSA Form 418, as part of the application process: Full name; Social Security number; date of birth; address; phone numbers; current and valid airman certificate or current and valid student pilot certificate; current medical certificate; a list of the make, model, and Federal Aviation Administration (FAA) aircraft registration number for each aircraft the pilot intends to operate at Maryland Three Airports; one form of

¹ The Maryland Three Airports are: College Park Airport (CGS), Potomac Airfield (VKX), and Washington Executive/Hyde Field (W32).

Government-issued picture ID; the certificate of completion of the FAA DC Special Flight Rules Area training; and fingerprints. Although not required by the rule, TSA asks applicants to voluntarily provide an email address and emergency contact phone number to facilitate immediate communication that might be necessary when operating in the FRZ or helpful during the application process.

TSA is revising the collection by providing an option to submit the documents for the application by email. Applicants will no longer need to go in person to the FAA Flight Standards District Offices to submit the required documentation, but may submit the information to TSA electronically at mdthree@tsa.dhs.gov. Fingerprints, however, will continue to be collected in person at the various locations.

TSA receives approximately 369 applications annually and estimates applicants spend approximately 7.75 hours to prepare and submit the information to TSA, which is a total annual burden of 2,859.75 hours.

[Docket No. TSA–2006–26514]

Intent To Request Extension From OMB of One Current Public Collection of Information: Rail Transportation Security

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0051, abstracted below that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection involves the submission of contact information of rail security coordinators (RSCs) and alternate RSCs from certain freight rail and passenger rail entities; reporting of significant security concerns; documenting the transfer of

custody and control of certain hazardous materials rail cars; and providing location and shipping information for certain hazardous materials rail cars.

DATES: Send your comments by May 8, 2018.

ADDRESSES: Comments may be emailed to TSAPRA@dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011.

Information Collection Requirement

OMB Control Number 1652-0051; Rail Transportation Security. TSA collects and uses information collected under 49 CFR part 1580 to enhance the security of the Nation's rail systems. Sections 1580.101 and 1580.201 require freight railroad carriers, certain rail hazardous materials shipper and receiver facilities,

passenger railroad carriers, and rail mass transit systems to designate and submit contact information for a RSC and at least one alternate RSC to TSA.

Sections 1580.105 and 1580.203 require freight railroad carriers, certain rail hazardous materials shipper and receiver facilities, passenger railroad carriers, and rail mass transit systems to report to TSA significant security concerns, which include security incidents, suspicious activities, and threat information.

Section 1580.103 requires freight railroad carriers, shippers, and receivers in a high threat urban area (HTUA) that handle certain categories and quantities of hazardous materials set forth in § 1580.100(b), known as "rail security-sensitive materials" (RSSM), to provide location and shipping information on rail cars under their physical custody and control to TSA upon request. The specified categories and quantities of RSSM cover explosive materials, materials poisonous by inhalation, and radioactive materials.

Section 1580.107 requires a secure chain of physical custody for rail cars containing RSSM which, in turn, requires freight railroad carriers and certain hazardous materials shippers and receivers of RSSM to document the transfer of custody of certain rail cars in writing or electronically and to retain these records for a minimum of 60 calendar days. Specifically, § 1580.107 requires documentation of the secure exchange of custody of rail cars containing RSSM between: A rail hazardous materials shipper and a freight railroad carrier; two separate freight railroad carriers, when the transfer of custody occurs within a HTUA, or outside of an HTUA, but the rail car may subsequently enter an HTUA; and a freight railroad carrier and a rail hazardous materials receiver located within an HTUA. The documentation must uniquely identify that the rail car was attended during the transfer of custody, including car initial and number; identification of individuals who attended the transfer (names or uniquely identifying employee number); location of transfer; and date and time the transfer was completed.

The total annual burden for this collection is approximately 112,764 hours, which is 67,320 hours higher than the current annual inventory. This change is primarily due to an increase in the number of responses of transfer of custody.
