

including informational interviews and discussions, direct observation, and focus groups. The work covered under this information request is for interviews with PHA staff, partners, and

study participants receiving FSS services.  
*Respondents:* For the annual web-based partnership survey and weekly time text survey, 100 respondents from

the grantee and key project partner at 7 demonstration sites.  
 For the monthly web-based time survey, 35 supervisory staff.  
*Respondents:*

<sup>1</sup> Households participating in the Family Self-Sufficiency Demonstration will range widely in employment position and earnings. We have estimated the hourly wage at the expected prevailing minimum wage, which is \$7.25 per hour. While we expect about 50 percent of the participants to be employed at the time of study entry (based on a report by the Center on Budget and Policy Priorities, wherein some 55 percent of non-elderly, non-disabled households receiving voucher assistance reported earned income in 2010. (<http://www.cbpp.org/cms/?fa=view&id=3634>)), the calculation above assumes an up to amount if all participants were employed.

<sup>2</sup> For program staff participating in interviews, the \$25.91 estimate uses the median hourly wages of selected occupations (classified by Standard Occupational Classification (SOC) codes) and was sourced from the Occupational Employment Statistics from the U.S. Department of Labor's Bureau of Labor Statistics. Potentially relevant occupations and their median hourly wages are:

Occupation	SOC code	Median hourly wage rate
Community and Social Service Specialist .....	21-1099	\$20.73
Social/community Service Manager .....	11-9151	31.10

**Source:** Occupational Employment Statistics, accessed online October 16, 2017 at [http://www.bls.gov/oes/current/oes\\_stru.htm](http://www.bls.gov/oes/current/oes_stru.htm).

<sup>3</sup> For program staff supporting data extraction activities and FSS Partner staff, the estimate uses the median hourly wages of selected relevant occupations in a manner similar to the above. A standard wage assumption of \$35.97/hr was created by averaging median hourly wage rates for these occupations:

Occupation	SOC code	Median hourly wage rate
Database Administrator .....	15-1141	\$40.84
Social/community Service Manager .....	11-9151	31.10

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on August 25, 2017 at 82 FR 40586.

**A. Overview of Information Collection**

*Title of Information Collection:* Evaluation of the HUD-DOJ Pay for Success Permanent Supportive Housing Demonstration.

*OMB Approval Number:* 2528-New.

*Type of Request:* New.

*Form Number:* No forms.

*Description of the need for the information and proposed use:* The U.S. Departments of Housing and Urban

Development (HUD) and Justice (DOJ) entered into an interagency collaboration that combines DOJ’s mission to promote safer communities by focusing on the reentry population with HUD’s mission to end chronic homelessness. This collaboration resulted in the Pay for Success Permanent Supportive Housing Demonstration with \$8.68M awarded to seven communities to develop supportive housing for persons cycling between the jail or prison systems and the homeless service systems using pay for success (PFS) as a funding mechanism. HUD-DOJ announced seven grantees from across the country in June 2016. The PFS Demonstration grant supports activities throughout the PFS lifecycle, including feasibility analysis, transaction structuring, and outcome evaluation and success payments, with each grantee receiving funds for different stages in the PFS lifecycle. Through the national evaluation, which is funded through an interagency agreement between HUD and DOJ and managed by HUD’s Office of Policy Development and Research, HUD-DOJ seek to assess whether PFS is a viable model for scaling supportive housing to improve outcomes for a re-entry population. The main goal of the evaluation is to learn how the PFS

model is implemented in diverse settings with different structures, populations, and community contexts. The Urban Institute has designed a multi-disciplinary, multi-method approach to “learn as we do” and meet the key objectives of the formative evaluation. To understand project implementation, the evaluation includes data collection on both the time that project partners dedicate to each PFS project as well as PFS partner perceptions and interactions and community-level changes that may benefit the target population. This information collection request is for an ongoing time survey and an annual partnership web survey. The time survey will be used to assess staff time spent on development of each PFS project throughout the different lifecycle phases and the partnership survey will be used to document partner perceptions and interactions and community-level changes that may benefit the target population.

*Respondents:* For the annual web-based partnership survey and weekly time text survey, 100 respondents from the grantee and key project partner at 7 demonstration sites. For the monthly web-based time survey, 35 supervisory staff.

*Respondents:*
