
SUPPORTING STATEMENT FOR PAPERWORK REDUCTION ACT SUBMISSIONS

A. Justification

A1. Need for Information Collection

The Corporation for National and Community Service (CNCS) supports various service initiatives throughout the year that help engage Americans of all ages and backgrounds in service activities. This collection will help us measure and promote these activities.

A2. Indicate how, by whom, and for what purpose the information is to be used.

Day of Service Project Promotion Tool will be used by any organization or group organizing a service project in conjunction with a CNCS initiative. This will help the agency promote activities and to ascertain impact of the agency's initiatives.

A3. Minimize Burden: Use of Improved Technology to Reduce Burden

We have created an online entry form that takes very little time to complete and have eliminated questions that are not applicable for certain respondents.

A4. Non-Duplication

There are no other sources of information by which CNCS can meet the purposes described in A2 (above).

A5. Minimizing for economic burden for small businesses or other small entities.

This collection of information has no impact on small businesses – this is a purely optional collection. There is no economic burden to any other small entities beyond the cost of staff time to collect and report the data. This is minimized to the degree possible by only asking for the information absolutely necessary to measure progress towards the agency's strategic initiative benchmarks.

A6. Consequences of the collection if not conducted, conducted less frequently, as well as any technical or legal obstacles to reducing burden.

Without this collection we will not be able to gauge the effectiveness of our initiatives, nor make necessary adjustments to engage more Americans in service.

A7. Special circumstances that would cause information collection to be collected in a manner requiring respondents to report more often than quarterly; report in fewer than 30 days after receipt of the request; submit more than an original

and two copies; retain records for more than three years; and other ways specified in the Instructions focused on statistical methods, confidentially, and proprietary trade secrets.

There are no special circumstances that would require the collection of information in these ways.

A8. Provide copy and identify the date and page number of publication in the Federal Register of the Agency's notice. Summarize comments received and actions taken in response to comments. Specifically address comments received on cost and hour burden.

The 60 day *Notice* soliciting comments was published on Thursday, February 1, 2018 on page 4644. No comments were received.

A9. Payment to Respondents

There are no payments or gifts to respondents

A10. Assurance of Confidentiality and its basis in statute, regulation, or agency policy.

A11. Sensitive Questions

A12. Hour burden of the collection

We expect approximately 100,000 respondents to use this form. The frequency of response will not be greater than approximately 6 times annually, and should not exceed 10 minutes of effort per respondent. There is no estimated annual hour burden outside of the customary and usual business practices.

A14. Cost to Government
