

Title: Application for Authority to Construct or Make Changes in an FM Translator or FM Booster Station, FCC Form 349

SUPPORTING STATEMENT

A. Justification:

FCC Form 349 is used to apply for authority to construct a new FM translator or FM booster broadcast station, or to make changes in the existing facilities of such stations.

Form 349's Newspaper Notice (third party disclosure) requirement; 47 CFR § 73.3580. Form 349 also contains a third party disclosure requirement, pursuant to Section 73.3580. This rule requires stations applying for a new broadcast station, or to make major changes to an existing station, to give local public notice of this filing in a newspaper of general circulation in the community in which the station is located. This local public notice must be completed within 30 days of the tendering of the application. This notice must be published at least twice a week for two consecutive weeks in a three-week period. In addition, a copy of this notice must be placed in the station's public inspection file along with the application, pursuant to Section 73.3527. This recordkeeping information collection requirement is contained in OMB Control No. 3060-0214, which covers Section 73.3527.

The Commission is requesting a three year extension for this information collection from the Office of Management and Budget (OMB).

This information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

Statutory authority for this collection of information is contained in Sections 154(i), 303 and 308 of the Communications Act of 1934, as amended.

2. Agency Use of Information: FCC staff use the data to ensure that the applicant meets basic statutory requirements and will not cause interference to other licensed broadcast services. In the case of mutually exclusive qualified applicants, the information will be used to determine which proposal would best serve the public interest.

3. Consideration Given to Information Technology: The Commission requires applicants to file this Form electronically.

4. Effort to Identify Duplication and Use Similar Information: This agency does not impose a similar information collection on the respondents. There are no similar data available.

5. Effort to Reduce Small Business Burden: In conformance with the Paperwork Reduction Act of 1995, the Commission is making an effort to minimize the burden on all respondents. The Commission has limited the information requirements to those that are absolutely necessary for evaluating and processing the applications to determine the community having the greater need and to deter possible abuses of the processes. Therefore, the information collection does not have a significant economic impact on a substantial number of small entities/businesses.

6. Less Frequent Data Collection: The frequency for filing is determined by the respondents, as necessary.

7. **Information Collection Circumstances:** This collection of information is consistent with the guidelines in 5 CFR § 1320.5(d)(2).

8. **Comments Received from the Public:** The Commission published a notice in the *Federal Register* seeking public comment on the information collections contained in this supporting statement, see 83 FR 34848, published on July 23, 2018. The Commission did not receive any comments from the public.

10. **Confidentiality of Information:** There is no need for confidentiality with this information collection.

11. **Justification for Sensitive Questions:** This information collection does not address any private matters of a sensitive nature.

12. **Estimate of Burden and Burden Hour Cost:** We estimate 1,200 Form 349 applications will be filed annually. Most of the filings will consist of making repairs or miscellaneous changes in the FM translator or FM booster station facility. Station engineers and attorneys with a salary of \$100,000/year (\$48.08/hour) will perform these functions.

Respondents are required by Section 73.3580 to fulfill the newspaper notice requirement for construction permit applications for New and Major Changes. We estimate one hour to fulfill this requirement. The respondent’s salary is \$100,000/year (\$48.08/hour).
