UNITED STATES DEPARTMENT OF AGRICULTURE ANIMAL AND PLANT HEALTH INSPECTION SERVICE ANIMAL CARE

Pre-license Phone Discussion with Rabbit Breeder/Dealer Applicant INTERNAL USE

<u> </u>			
>	Ba	ckground and General Facility Questions Have you been licensed with USDA-APHIS-Animal Care before? If so, how long ago were you licensed and for what timeframe? Can you tell me what happened to cause this failure to renew your license? Tell me about your past inspection reports – was anything cited, how were the problems fixed? Were there any minor issues or concerns that your inspector discussed with you previously but did not put on the report? What measures have you taken to fix those issues/concerns? Do you understand that there are no "teachable moments" or minor issues for these pre-license inspections? How many rabbits are currently under your control or at your facility? How many of these animals are intact females and capable of being bred? Are these all of the animals and locations you are using or intending to use for regulated purposes?	 □ How is the facility heated and cooled and how is the temperature regulated? □ Indoor facilities: ○ Not required to have supplemental heating. ○ Require AC or auxiliary ventilation when the ambient temperature is over 85 degrees. ○ Outdoor facilities: ○ Require artificial cooling when temps reach over 90 degrees (misting system, etc.) ○ Require shelter from sunlight, rain, snow and cold weather. ○ Require fencing or to be enclosed to minimize the entrance of predators. □ What is the high temperature in the summer and the low temperature in the winter inside the facility? □ Tell me how you monitor the temperature and humidity levels? □ How is the facility ventilated? Doors, vents, windows, or some other auxiliary ventilation system? □ How is the facility lighted? Are there windows or skylights? What is the lighting schedule? □ Are interior surfaces including walls, floors, and
		Have you ever pled 'no contest' or have you ever been found to have violated any Federal, State, or local laws or regulations pertaining to animals? When? Tell me about your facility and how and where your	ceilings impervious to moisture? What is used to make surfaces impervious to moisture? How often do you have maintenance issues that require repair or replacement? Are these issues currently fixed?
