

NMFS Transshipment Log for Coral Reef Ecosystem Management Unit Species

Vessel: _____ Permit No.: _____ Date: ____/____/____

(Vessel receiving fish)

Broker or Shipping Agent:

Vessel: _____ Radio Call Sign: _____ (Vessel offloading fish) Permit Number: _____		
Total number of days fished: _____ Type of Gear Used: _____		
Average units of gear set per day: _____ Area of Catch: _____		
Species	Number Received	Total Weight Received (Lbs.)

I certify that the above information is complete and true to the best of my knowledge:

Print Name: _____ Signature: _____ Date: ____/____/____

(Vessel captain / operator)

It is prohibited to falsify or fail to make, keep, maintain, or submit any logbook or logbook form or other record or report (50 CFR 665.15(c)).

All required information must be recorded on the form within 24 hours after the day of transshipment. Submit report to National Marine Fisheries Service at the address below within 7 days following the date the vessel arrived in port to land transshipped fish.

Send log to: NMFS Pacific Islands Fisheries Science Center, Fishery Monitoring Branch
NOAA IRC, Attn: NMFS/PIFSC/FMB, 1845 Wasp Boulevard, Building 176, Honolulu, HI 96818;
Phone: (808) 725-5360, Fax: (808) 725-5475

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, NMFS Pacific Islands Region, 1845 Wasp Blvd., Building 176, Honolulu, HI 96818.

This information is being collected to provide the information needed by NMFS to regulate and monitor the coral reef fisheries and resources managed under Fishery Ecosystem Plans (FEP) for American Samoa, Mariana Archipelago, Hawaiian Archipelago, and Pacific Remote Island Areas Federally permitted coral reef fisheries and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information provides a basis for determining whether changes in management are needed to sustain the productivity of the stocks and to address economic problems in the fishery. The information is also used to provide a basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Responses to the collection are required to obtain the benefit of the FEPs (50 CFR Part 665, Subpart G). Data provided concerning the vessel and/or business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec.402(b)). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
