

Attachment B-1: Summary of survey constructs, survey numbers measuring each construct, and relevant U.S. family planning guidance document

Survey Construct	Survey Number					Assessment Measure For:		
	Phase 1 Provider Survey	Phase 2 Provider Survey	Phase 3 Provider Survey	Phase 2 Administrator Survey	Phase 3 Administrator Survey	US MEC	US SPR	QFP
Safety Attitudes								
COCs for women with certain characteristics	15	13, 14	13	--	--	X	--	--
IUDs for women with certain characteristics	16, 17	15	15	--	--	X	--	X
DMPA for women with certain characteristics	18	16	14	--	--	X	--	--
'Quick Start'* for CHCs	--	17	16, 17	--	--	--	X	X
'Quick Start'* for DMPA	--	17	16, 17	--	--	--	X	X
'Quick Start'* for implants	--	17	16, 17	--	--	--	X	X
'Quick Start'* for IUDs	--	17	16, 17	--	--	--	X	X
Emergency contraception for women in different clinical scenarios	--	--	18	--	--	--	X	--
Practices								
DMPA for adolescents	19	19	--	--	--	X	--	--
COCs for postpartum women	20	20	--	--	--	X	--	--
IUDs for nulliparous women	21, 22	21	21	--	--	X	--	X
'Quick Start'* for CHCs	--	23	26	--	--	--	X	X
'Quick Start'* for DMPA	--	24	27	--	--	--	X	X
'Quick Start'* for IUDs	--	--	28	--	--	--	X	X
'Quick Start'* for implants	--	--	29	--	--	--	X	X
Contraceptive counseling practices	--	18	19	13	11	--	--	X
Required exams and tests	--	22	25	--	--	--	X	X
Recommended follow up	--	25	--	--	--	--	X	--
Emergency contraception	--	26	24	--	--	--	X	X
Prescribe/dispense year's supply of pills at 1 visit	--	27	31	--	--	--	X	X
Contraceptive method availability	14	--	12	9	7	X	--	X
Cervical cancer screening	--	29, 30	--	--	--	--	--	X
Routine urine pregnancy testing	--	--	20	--	--	--	X	
Medications used during IUD insertion	--	--	22	--	--	--	X	--
Typical number of visits required for LARC	--	--	30	--	--	--	X	
Family planning services provided	--	--	--	10	8	--	--	X
Basic infertility services	--	--	--	--	9			X
Preconception care services	--	--	--	12	10	--	--	X
Sources of Information/Tools								
Preferred provider tools	23	--	--	--	--	X	X	X
Preferred continuing education sources	24	28	32	--	--	X	X	X

Survey Construct	Survey Number					Assessment Measure For:		
	Phase 1 Provider Survey	Phase 2 Provider Survey	Phase 3 Provider Survey	Phase 2 Administrator Survey	Phase 3 Administrator Survey	US MEC	US SPR	QFP
Awareness of Guidelines								
Awareness of US MEC, US SPR, or QFP	25	31	33	25	23	X	X	X
Use of US MEC, US SPR, or QFP provider tools	--	32	34	--	--	X	X	X
Recommended new topics	--	33	35, 36	--	--	X	--	--
Health center systems and programs								
Hours of services	--	--	--	14	12	--	--	X
Educational materials provided	--	--	--	14	12	--	--	X
Adolescent services	--	--	--	14,15	12, 13	--	--	X
Information technology	--	--	--	16	14, 15, 18	--	--	X
Community education programs	--	--	--	17, 18	16, 17	--	--	X
Quality improvement systems	--	--	--	19, 20	--	--	--	X
Referral arrangements and networks	--	--	--	11, 21	19	--	--	X
Staff training	--	--	--	22	20	--	--	X
Demographics/Training								
Role	1	6	3	23, 24	21, 22	Not specific evaluation measures, but used to better understand use of guidelines and to target dissemination efforts.		
Clinical focus	2	7	4	2	1			
Funding sources	3	2	--	--	--			
Setting	4	1	1	1	--			
State	5	3	--	3	--			
Urbanicity	--	--	2	4	2			
# of clients	8	9	7	5	3			
% provide family planning services	9	10	8	6	4			
Time spent on family planning	10	--	--	--	--			
Gender	11	5	6	--	--			
# providers in practice/clinic	--	4	--	--	--			
Patient characteristics	13	12	9	7	6			
# days formal family planning training	6	--	--	--	--			
Years since last formal training	7	8	5	--	--			
Trained in LARC insertion	12	11	10, 11	22	20			
Trained on OPA's Zika toolkit	--	--	--	--	24			
Trained on CDC's STD treatment guidelines	--	--	--	--	25			
Confidence in LARC insertion/removal	--	--	23	--	--			
Health care network linkages	--	--	--	8	5			

Abbreviations: CHC=combined hormonal contraceptive; COC=combined oral contraceptive; DMPA=depo medroxyprogesterone acetate; IUD=intrauterine device; LARC=long-acting, reversible contraception; US MEC=U.S. Medical Eligibility Criteria for Contraceptive Use; US SPR=U.S. Selected Practice Recommendations for Contraceptive Use; QFP=Providing Quality Family Planning Services (revised Title X programmatic guidelines).

*Quick start=starting a woman on contraception the day of her visit regardless of the timing of her menses if the provider is reasonably certain she is not pregnant.
