Title: Preventing and Addressing Intimate Violence When Engaging Dads.

OMB Number: New Collection.

Description: The Administration for Children and Families (ACF), Office of Planning, Research, and Evaluation (OPRE) proposes to collect information as part of the Preventing and Addressing Intimate Violence when Engaging Dads (PAIVED) study. Since 2006, the Healthy Marriage and Responsible Fatherhood (HMRF) initiative has funded programs that play a key role in helping the Office of Family Assistance

(OFA) achieve its goals to foster economically secure households and communities for the well-being and long-term success of children and families. The purpose of the PAIVED study is to better understand the prevalence of intimate partner violence (IPV) experienced by the population of fathers served by Responsible Fatherhood (RF) programs, and the services that federally-funded RF programs are providing to address and contribute to the prevention of IPV

among its participants. The proposed data collection will include whether IPV content is included in RF programs, the types of activities they are using to address IPV, and related successes and challenges. Other collected data will include barriers to addressing IPV in RF programs, the relevance of addressing IPV with fathers, fathers' reactions to this programming, and what types of partnerships RF programs have with other agencies to address IPV. This information will be collected through

interviews conducted over the phone and in-person with RF grantee program staff and community partners. This information will be critical to inform future efforts to address and contribute to the prevention of IPV through RF programming.

Respondents: Responsible Fatherhood grantee program staff (e.g., program directors and facilitators) and community partners.

Proposed Information Collection Activity; Comment Request; Healthy Marriage and Responsible Fatherhood Performance Measures and Additional Data Collection (Part of the Fatherhood and Marriage Local Evaluation and Cross-Site (FaMLE Cross-Site) Project)—Extension

Description

Background

For decades various organizations and agencies have been developing and operating programs to strengthen families through healthy marriage and relationship education and responsible fatherhood programming. The Administration for Children and Families (ACF), Office of Family Assistance (OFA), has had administrative responsibility for federal funding of such programs since 2006 through the Healthy Marriage (HM) and Responsible Fatherhood (RF) Grant Programs. The authorizing legislation for the programs may be found in Section 403(a)(2) of the Social Security Act [1].

Extension of Current Approval

The Offices of Family Assistance (OFA) and Planning, Research and Evaluation (OPRE) in the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) are proposing to extend performance measure and other data collection activities, in service to the HM and RF programs. This data collection is part of the Fatherhood and Marriage Local Evaluation and Cross-site (FaMLE Cross-site) project, whose purpose is to support high quality data collection, strengthen local evaluations, and conduct cross-site analysis for the Responsible Fatherhood and Healthy Marriage grantees. ACF is requesting comment on the following data collection, which has been ongoing under OMB #0970-0460 since 2016. There are no changes proposed to the information collection, we are only requesting an extension to continue data collection with the current grantees through 2020.

Performance measures. ACF is proposing to extend collection of a set of performance measures that are collected by all grantees. These measures collect standardized information in the following areas:
