OMB No. 0990-0302

Abstract: Medical Reserve Corps Units are currently located in 889 communities across the United States and represent a resource of 188,229 volunteers. In order to continue to support MRC units detailed information about the MRC units, including unit demographics, contact information (regular and emergency), volunteer numbers and information about unit activities is needed by the MRC Program. MRC Unit Leaders are asked to update this information on the MRC Website at least quarterly and to participate in a technical assistance assessment using the Capability Assessment at least annually. This collection informs resources and tools developed as part of national programing, identify trends and target technical assistance to support MRC units' preparedness to respond to disasters in their communities. The MRC unit data collection has been refined to eliminate duplication and streamline data collection tools.
