INSTRUCTIONS

1. A **case** is defined as a set of all charges (or causes of action) filed in court against a single defendant that are handled by the court as a single incident. A case with three defendants should be recorded as three cases, but a case with one defendant with multiple charges (or multiple causes of action) should be counted as one case. Some questions ask for numbers or estimates (e.g., numbers of cases).
2. In this survey, we are interested in both the **cases that were “open” and that were “closed” by your office during calendar year 2018 (January 1, 2018 – December 31, 2018)**. A case is considered open when your office is dedicating resources to it or while it is still pending with the court. A case is considered closed when a court has entered their verdict or final finding in the case. Closed cases include dismissals, acquittals, not guilty findings, guilty findings, and other deferred dispositions, such as placement on an inactive docket. Civil closed cases include dismissals, entries of summary judgment, entry of judgment for or against a party, and when the parties enter into a settlement agreement and the court approves that agreement.
3. The survey asks about cases **“handled”** by your office, which means cases to which your office dedicates resources at any point of the process, including investigations, cases in the pre-indictment or pre-civil filing stage, court case filings, final case dispositions (adjudications and sentencings), and court findings (civil judgments and settlement agreements).
4. We recognize that it may be necessary to pass the survey to different individuals or units within your office to answer all of the questions on the survey. **You may share the survey, but please designate one person as the contact person responsible for completing and submitting the survey, as well as for any follow-up questions regarding the survey once it is completed.** If sharing the fillable PDF, do not send the password in the same email as the fillable PDF. Send the survey in one email and the password in a separate email.

DEFINITIONS

Our definition of human trafficking is based on the *Trafficking Victims Protection Act (TVPA) of 2000* (and subsequent re-authorizations) and includes both **sex trafficking and **labor trafficking**, which are defined below. However, we recognize that individual states may define sex trafficking and labor trafficking and the age of majority differently. **If your state’s definition of trafficking or underage victims differ from the TVPA definitions, please use your state’s definitions (as promulgated in your state human trafficking laws) while answering the questions in the survey.****

1. **Sex trafficking** is the recruitment, harboring, transportation, provision, obtaining, patronizing, or solicitation of a person for the purpose of a *commercial sex act*, in which the commercial sex act is induced by force, fraud, or coercion (22 USC § 7102); **or** to knowingly recruit, entice, harbor, transport, provide, obtain, or maintain a minor (defined as someone under 18 years of age) knowing or in reckless disregard of the fact that the victim is a minor and would be caused to engage in a commercial sex act (18 USC § 1591).
 - **Commercial sex act:** any sex act for which anything of value (e.g., money, drugs, food, shelter, rent, etc.) or the promise of anything of value is given by any person. A third party may or may not be involved.
 - **Coercion:** involves threats of serious harm to or physical restraint against any person; any scheme, plan, or pattern intended to cause a person to believe that failure to perform an act would result in serious harm to or physical restraint against any person; or the abuse or threatened abuse of the legal process. Coercion may include psychological manipulation, documents confiscation, and shame- and fear-inducing threats to share information or pictures with others or to report to authorities.
2. **Labor trafficking** is the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage or slavery (22 USC § 7102).
 - **Involuntary servitude:** a condition of servitude induced by means of any scheme, plan, or pattern intended to cause a person to believe that, if the person did not enter into or continue in such condition, that person or another person would suffer serious harm/physical restraint; or the abuse/threatened abuse of the legal process.
 - **Debt bondage:** the status or condition of a debtor arising from pledge by debtor of his/her personal services or those of a person under his or her control as a security for debt, if value of those services as reasonably assessed is not applied toward liquidation of the debt or the length and nature of those services are not respectively limited and defined.
 - **Peonage:** is a status or condition of involuntary servitude based on real or alleged indebtedness.
 - **Slavery:** is the status of being under the ownership or control of someone where a person is forced to work for another.
