Instructions for Verifying the Preprinted Business Location Listing on the Front of this Form

1. You must verify that all preprinted business location information is correct.
2. You must show a full street address or rural route description for the actual physical location of the business. A post office box number is unacceptable, and if left uncorrected, may delay the issuance of the special tax stamp for a location for which special tax has been paid.
3. If any preprinted information is incorrect, line through the incorrect information and clearly print or type the correct information. **Please note your Federal Firearms License Number in the Location Address area.**
4. If a location listed is no longer in business, you must put a line through all information pertaining to that location and print or type the words "OUT OF BUSINESS" and show the date business activities stopped.
5. If there are new business locations to be added, you must complete the bottom portion on the front of this form. Please print or type.
