Agricultural Foreign Investment Disclosure Act Report

Use the following instructions to complete the Agricultural Foreign Investment Disclosure Act Report (FSA-153) to meet the reporting requirements of Agricultural Foreign Investment Disclosure Act of 1978. Details of the reporting requirements can be found in the U.S. Department of Agriculture Regulations at 7 CFR Part 781.

The following background information outlines who must report, what to report, when to report, and where to report:

Foreign Investors Who Hold Agricultural Land

Foreign investors who buy, sell, or hold a direct or indirect interest in U.S. agricultural land must report their holdings and transactions to the U.S. Secretary of Agriculture. The reporting requirement became law in late 1978 when the President signed the Agricultural Foreign Investment Disclosure Act (AFIDA). The data gained from these disclosures will be used in the preparation of periodic reports to the President and Congress concerning the effect of such holdings upon family farms and rural communities.

Failure to timely file an accurate report can result in a penalty with fines up to 25 percent of the fair market value of the agricultural land.

*Land used for forestry production means land exceeding 10 acres in which 10 percent is stocked by trees of any size including land that formerly had such tree cover and will be naturally or artificially regenerated.

When to Report

Foreign persons, who owned land on February 1, 1979, were required to report by August 1, 1979. Those buying or selling land on or after February 2, 1979, must report the transaction within 90 days of the date of the transaction.
