Form Approved
 OMB No. 0920-New
 Expiration Date: XX/XX/XXXX

Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

In this survey we will be asking questions similar to the ones that were asked the day you first tested for HIV in this study on 06/14/2015. In these questions we want to know about things that have happened in the time since 06/14/2015.

The next set of questions will be about sexually transmitted diseases other than HIV that you may have had since your first study visit on 06/14/2015.

Since your first study visit on 06/14/2015, has a health care provider told you that you had an STD other than HIV?

You said a healthcare provider told you that you had an STD since your first study visit. Which one(s)? Check all that apply:

What other STD or STDs did you have that weren't listed on the prior page? Please type in the name or names of the STD or STDs you had using the computer's keyboard. If you need help with spelling or other questions please ask the research assistant.

Previous Question
Next Question
Repeat the Question

We will now ask you some questions about sexual experiences you've had since your first study visit. We only want to know about partners you had oral, anal or vaginal sex with since 06/14/2015.

Some questions will ask specifically about your sex partners' HIV status and what you did with partners who were HIV positive, HIV negative, and partners whose HIV status you did not know. We know you can't always be sure of a partner's HIV status. Please try to answer the questions based on what you knew and what your partners told you or did not tell you about their HIV status.

Next Question
Repeat the Question

We know that it may be difficult to answer some of these questions if one or more of your sex partners do not identify as male or female, or if they are transgender. Except where we ask specifically about transgender partners, please include these sex partners in your responses to the questions about sex with either men or women, whichever you think is most appropriate.

We also know that how people refer to their genitals can be unique and personal. The following questions may use words that don't perfectly fit how you or your partners refer to your bodies. Please answer the questions about specific sex acts the best that you can.

+/-	0	.	

In this section, we will ask you about what you have done with the 3 partners that you provided details about in your first study visit.

Do you remember who you nicknamed Partner #1?

NO YES

Have you had anal sex with Partner #1 since your first study visit on 06/14/2015?

NO YES

Since your first study visit, how many times did you and Partner #1 have anal sex?

Since your first study visit, how many times did you and Partner #1 have anal sex without using a condom or not using it the whole time?

Since your first study visit, when you and Partner #1 had anal sex without a condom were you the top (your penis in his butt), bottom (his penis in your butt) or both? Please pick one...

Since your first study visit, during the time you were having sex with Partner #1, did Partner #1 have sex with anyone else?

NO YES

The next few questions will ask about times you and Partner #1 had sex with at least one other man together in the same encounter. For these questions, a threesome involves sex with you, Partner #1, and one other man (a total of 3 men). Group sex involves sex with you, Partner #1, and at least 2 other men (a total of 4 or more men). When the question asks about the number of partners you had during a threesome or group sex, please write the total number of different partners you had across all encounters.

Since your first study visit, did you and Partner #1 ever have sex with other people in the same encounter? (Threesome or group sex)

Since your first study visit, how many times did you and Partner #1 have sex with only one other man in the same encounter (threesome)?

Think of the most recent time you had a threesome with Partner #1. Did anyone have anal sex during this threesome?

Did anyone have anal sex without a condom during this threesome?

Who had anal sex without a condom with each other in this threesome? Mark all that apply.

What was the HIV status of the 3rd Partner?

Didn't know his HIV status

HIV-Positive

HIV-Negative

Did the 3rd partner and the 5th partner have anal sex without a condom during your most recent group sex encounter that included Partner #2?

Did the 4th partner and the 5th partner have anal sex without a condom during your most recent group sex encounter that included Partner #2?

Have you told Partner #2 about your HIV test results?

Has Partner #2 gotten tested for HIV since you first tested positive?

What was Partner #2's HIV test result?

To the best of your knowledge, is Partner #2 currently taking medicine to prevent himself from getting HIV? This might also be known as Pre-Exposure Prophylaxis or PrEP.

Do you remember who you nicknamed Partner #3?

NO YES

Have you had anal sex with Partner #3 since your first study visit on 06/14/2015?

NO YES

Since your first study visit, how many times did you and Partner #3 have anal sex?

Since your first study visit, how many times did you and Partner #3 have anal sex without using a condom or not using it the whole time?

Since your first study visit, when you and Partner #3 had anal sex without a condom were you the top (your penis in his butt), bottom (his penis in your butt) or both? Please pick one...

Since your first study visit, during the time you were having sex with Partner #3, did Partner #3 have sex with anyone else?

NO YES

The next few questions will ask about times you and Partner #3 had sex with at least one other man together in the same encounter. For these questions, a threesome involves sex with you, Partner #3, and one other man (a total of 3 men). Group sex involves sex with you, Partner #3, and at least 2 other men (a total of 4 or more men). When the question asks about the number of partners you had during a threesome or group sex, please write the total number of different partners you had across all encounters.

Since your first study visit, did you and Partner #3 ever have sex with other people in the same encounter? (Threesome or group sex)

YES

NO

Since your first study visit, how many times did you and Partner #3 have sex with only one other man in the same encounter (threesome)?

Did you share your HIV status with New Partner #3 before you first had sex?

YES

NO

Did New Partner #3 share his HIV status with you before you first had sex?

YES

NO

What was New Partner #3 HIV status at that time?

To the best of your knowledge, what is New Partner #3's HIV status today?

To the best of your knowledge, is New Partner #3 currently taking medicine to prevent himself from getting HIV? This might also be known as Pre-Exposure Prophylaxis or PREP.

YES

NO

To the best of your knowledge, is New Partner #3 currently taking medicines for HIV?

NO

YES

To the best of your knowledge, does New Partner #3 have an undetectable viral load?

NO

YES

Since your first study visit on 06/14/2015, how many times did you and New Partner #3 have anal sex?

Since your first study visit on 06/14/2015, how many times did you and New Partner #3 have anal sex without using a condom or not using it the whole time?

Since your first study visit on 06/14/2015, when you and New Partner #3 had anal sex without a condom were you the top (your penis in his butt), bottom (his penis in your butt) or both? Check only one.

The next few questions will ask about times you and New Partner #3 had sex with at least one other man together in the same encounter. For these questions, a threesome involves sex with you, New Partner #3, and one other man (a total of 3 men). Group sex involves sex with you, New Partner #3, and at least 2 other men (a total of 4 or more men). When the question asks about the number of partners you had during a threesome or group sex, please write the total number of different partners you had across all encounters.

Since your first study visit, did you and New Partner #3 ever have sex with other people in the same encounter? (Threesome or group sex)

NO

YES

Since your first study visit on 06/14/2015, how many times did you and New Partner #3 have sex with only one other man in the same encounter (threesome)?

Think of the most recent time you had a threesome with New Partner #3. Did anyone have anal sex during this threesome?

NO

YES

Did anyone have anal sex without a condom during this threesome?

NO

YES

Who had anal sex without a condom with each other in this threesome? Mark all that apply.

What was the HIV status of the 3rd Partner?

Since your first study visit, how many times did you and New Partner #3 have sex with 2 or more other men in the same encounter (group sex)?

1	2	3	Clear
4	5	6	
7	8	9	
+/-	0	.	

Think of the most recent time you had group sex with New Partner #3 and at least two other men. How many men took part in this group sex encounter? Include New Partner #3, but not yourself.

1	2	3	Clear
4	5	6	
7	8	9	
+/-	0	.	

The next three questions are going to ask you about the HIV status (unknown, HIV positive, or HIV negative) of the 5 men involved in the last time you had group sex with New Partner #3.

How many of these 5 men, with whom you had anal sex without using a condom during the last time you had group sex with New Partner #3, were partners whose HIV status you did not know?

1	2	3	Clear
4	5	6	
7	8	9	
+/-	0	.	

How many of these 5 men, with whom you had anal sex without using a condom during the last time you had group sex with New Partner #3, were HIV positive?

1	2	3	Clear
4	5	6	
7	8	9	
+/-	0	.	

How many of these 5 men, with whom you had anal sex without using a condom during the last time you had group sex with New Partner #3, were HIV negative?
