## INTRODUCTION

This attachment contains the details of sets of related data entries known as data groups (DGs) that are collected from state educational agencies (SEAs). The data groups in this document are organized by topic as listed in the below table.

A reviewer of this attachment may also want to reference Attachments E and B-4. Attachment E explains how to read the table of information on each data group. Attachment B-4 contains the definitions and permitted values of the categories in the category sets.

## ACCOUNTABILITY AND REPORTING PROVISIONS OF *ESEA*, AS AMENDED BY *ESSA*

---

The data groups in this section support the oversight and reporting of the accountability provisions of *ESEA*, as amended by *ESSA*, however, data groups associated with public school choice and supplemental educational services are included in a separate section.

These data groups comprise the education data most frequently shared with the public. This section includes data for the accountability and reporting components of *ESEA*, as amended by *ESSA*: academic achievement and participation in state assessments, graduation rates, additional academic indicators, and others. The data steward for most of the data groups in this section is the Office of Elementary and Secondary Education within the Office of State Support (OESE/OSS). Assessment participation and achievement files are co-stewarded with OSEP.

The table below lists the data groups in this section:

## **CAREER AND TECHNICAL EDUCATION**

---

The data groups in this section support oversight and reporting of career and technical education. The *Carl D. Perkins Career and Technical Education Act* of 2006 has requirements for reporting performance indicators in the Consolidated Annual Report (CAR). Below are the performance indicators and crosswalks for how the data are calculated for all students and for the subgroups of students using students who are economically disadvantaged as an example. The definitions of CTE concentrator and CTE participant are in Attachment B-1 under standard definitions. States will provide information on category sets that are missing or not collected in a metadata collection through EMAPS.

### **1S1 - Academic Attainment in Reading/Language Arts**

Measure - Percent of CTE concentrators met proficiency or above on state-established academic standards in reading (language arts)

	<b>All students</b>	<b>Subgroups (e.g., students who are economically disadvantaged)</b>

---

The data groups in this section comprise most of the Non-Fiscal Common Core of Data (CCD) that are collected through the EDFacts Submission System (ESS). CCD is a program that annually collects fiscal and non-fiscal data about all public schools, public school districts and SEAs in the United States. The data are supplied by SEA officials and include information that describes schools and school districts, including name, address, and phone number; descriptive information about students and staff, including demographics; and fiscal data, including revenues and current expenditures. EDFacts collects only non-fiscal data for CCD. The data steward for these data groups is the National Center for Education Statistics (NCES).

The CCD also includes the data groups in the table below which are listed under other topics in this attachment.

## **SAFE, DRUG-FREE AND GUN-FREE SCHOOLS**

---

The data groups in this section support oversight and reporting of the *Safe and Drug Free Schools and Communities Act* and the *Gun-Free Schools Act*.

In addition to the data groups collected through the EDFacts Submission System, ED will conduct a web-based survey using EMAPS to fulfill provisions of the *Gun-Free Schools Act*. That survey will include questions similar to the following:

- List the name and address of each LEA that has not provided an assurance that it is compliant with the state law that requires a student who brings a firearm to school, or possesses a firearm at school, be expelled for a year.
- List the name and address of each LEA that has not provided an assurance that it is in compliance with the requirement in Section 4141(h) that an LEA receiving *ESEA*, as amended by *ESSA*, funds has in place a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm to a school, or possesses a firearm at school.
- Indicate whether the state law related to the *Gun-Free Schools Act* has changed in the past 12 months. If the law changed, provide a brief description of the change or a copy of the new/revised statute.
- Explain how the state law addresses the need for providing educational services in an alternative setting to students expelled from their regular school setting. For example, does the state law:
  - Encourage LEAs to provide educational services to expelled students in an alternative setting
  - Require LEAs to provide educational services to expelled students in an alternative setting
  - Not address the need for educational services in an alternative setting.
- Indicate whether any state funds are used to support the implementation of educational services in alternative settings as it relates to students who have been expelled under the *Gun-Free Schools Act*.

The data steward for the data groups in this section is the Office of Safe and Healthy Schools (OSHS) which is under the Office of Elementary and Secondary Education (OESE). The table below lists the data groups in this section:

## TITLE I PROGRAM (NON-ACCOUNTABILITY PROVISIONS)

The data groups in this section support oversight and reporting of the Title I Program excluding the accountability and reporting which are in separate sections in this attachment. The data steward for these groups is the division of the Office of Elementary and Secondary Education with the Office of State Support that administers the Title I Program (OESE/OSS/Title I).

As part of the CSPR, ED collects data on participants and staff in Title I, Part A of *ESEA*, as amended by *ESSA*. Title I, Part A programs can be classified into four types: Public Schoolwide Programs (Public SWP), Public Targeted Assistance Programs (Public TAS), Neglected or Delinquent Programs (N or D) funded by Title I Part A<sup>2</sup> and Services to Children in Private Schools (Private). The matrix below illustrates the relationship between the EDFacts data groups and files and the data collected on participants and staff in Title I, Part A programs.

134	670 <b>Revised! 60</b>	Title I Participation Table	X	X	X	X

In addition, the status of a school as Title I (DG22) is reported in FS129 CCD file. The status of an LEA (school district) as a district that received Title I funds is confirmed by the states for purposes of the CSPR. The data group for the status of a district is included in the directory data groups and is discussed in Attachment B-1. The table below lists the data groups in this section:

The data groups in this section support oversight and reporting of charter schools. These data groups will only be collected for charter schools. The steward for these data groups is the division of OII that administers the Charter School Program (OII-Charter).

### ROSTER OF CHARTER MANAGEMENT ORGANIZATIONS

---

The purpose of the data items being collected regarding management organizations is to provide the Charter School Program Office of the U.S. Department of Education insight into the extent and scope of the relationships between CMOs and EMOs with charter schools. The federal grant funding provided to states are allocated to schools that work with such non-profit and for-profit organizations, which assist in directing the charter schools, without always having accountability to a district or the state. It is important that the U.S. Department of Education begins to form a roster of these organizations to provide stronger oversight and accountability for federal funds.

The charter schools would be linked to the charter management organizations using the identifier. Only states that have charter school would submit data on charter management organizations.

Every school year for states that have charter schools, the SEA would submit a roster of the management organizations operating in their state. A management organization would be defined as:

#### **Definition – Management Organization**

A management organization is an organization that is a separate legal entity that 1) contracts with one or more charter schools to manage, operate, and oversee the charter schools; or 2) holds a charter, or charters, to operate multiple charter schools.

Below are detailed descriptions of data groups used for the roster of charter management organizations. Similar to other education entities, the data groups are organized as unique identifiers, contact information and descriptive information.
