Please do all in your power to strengthen the EPA. Do not allow it to be "watered down" and become moot. Put someone in charge of the EPA who truly has our interests in clean air, clean water, wildlife habitats at heart. Don't let the work that has been done the past 48 years be pushed back or compromised. We need a strong EPA looking out for us and not allowing big polluter businesses to be able to run rampant and damage our environment beyond repair. Keep us and the animals and the planet healthy. Thank you.
