SECC Governance Structure

Please describe your SECC's duties, its membership selection process, and its administrative structure, if any.

What are your SECC's duties and responsibilities?

How are SECC members and leaders selected? Do your SECC's members represent all alert originators in your state?

What is your SECC's administrative structure? (e.g., How are decisions made in your SECC?)

Alerting Sources—State and Local Alerts

Do your state's Alerting Sources for state and local alerts differ from your state's Monitoring Assignments for the Presidential Alert?

▼

If any of the differences between EAN Monitoring Assignments and state/local Alerting Sources do not fit in the matrix below, please describe them here.

EAS Participant (call sign and Facility ID or PSID)	Operational Area Name	EAS Designation	First Alerting Source	Second Alerting Source	NOAA Weather Radio (NWR) site and frequency (optional)	Additional Notes

Multilingual Alerting Information

Describe any actions taken by the EAS Participant (acting individually, in conjunction with other EAS Participants in the geographic area, and/or in consultation with state and local emergency authorities), to make EAS alert content available in languages other than English to its non-English speaking audience(s).

Describe any future actions planned by the EAS Participant, in consultation with state and local emergency authorities, to provide EAS alert content available in languages other than English to its non-English speaking audience(s), along with an explanation for the Participant's decision to plan or not plan such actions.

Any other relevant information that the EAS Participant may wish to provide, including state-specific demographics on languages other than English spoken within the state, and identification of resources used or necessary to originate current or proposed multilingual EAS alert content.

Local Area Plans

Local Area Plans contain procedures for local officials and the NWS to transmit emergency information to the public during an emergency using EAS.

Does the state wish to include information from one or more LECCs to its State EAS Plan?

Yes ▼
