SUPPLEMENTARY INFORMATION:

Proposal to renew the following currently approved collection of information:

1. *Title:* Procedures for Monitoring Bank Protection Act Compliance.

OMB Number: 3064-0095.

Form Number: None.

Affected Public: Insured state nonmember banks

Burden Estimate:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Estimated frequency of responses	Estimated time per response (hours)	Estimated annual burden (hours)
Bank Protection Act Compliance Program.	Recordkeeping ...	Mandatory	3,533	Annually5	1,766.5
Estimated Total Annual Burden	1,766.5

General Description of Collection

The collection requires insured state nonmember banks to comply with the Bank Protection Act and to review bank security programs. The Bank Protection Act of 1968 (12 U.S.C. 1881–1884) requires each Federal supervisory agency to promulgate rules establishing minimum standards for security devices and procedures to discourage financial crime and to assist in the identification of persons who commit such crimes. To avoid the necessity of constantly updating a technology-based regulation, the FDIC takes a flexible approach to implementing this statute. It requires each insured nonmember bank to designate a security officer who will administer a written security program. The security program must: (1) Establish procedures for opening and closing for business and for safekeeping valuables; (2) establish procedures that will assist in identifying persons committing crimes against the bank; (3) provide for initial and periodic training of employees in their responsibilities under the security program; and (4) provide for selecting, testing, operating and maintaining security devices as prescribed in the regulation. In addition, the FDIC requires the security officer to report at least annually to the bank’s board of directors on the effectiveness of the security program.

There is no change in the method or substance of the collection. The FDIC estimates that the number of respondents will decrease due to economic fluctuations from 3,629 to 3,533. The annual burden for this information collection is estimated to be 1,766.5 hours. This represents a decrease of 48.5 hours from the current burden estimate of 1,815 hours.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c)

ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

Dated at Washington, DC, on December 3, 2018.
