Two-Earners/Multiple Jobs Worksheet

Complete this worksheet if you have more than one job at a time or are married filing jointly and have a working spouse. If you don't complete this worksheet, you might have too little tax withheld. If so, you will owe tax when you file your tax return and might be subject to a penalty.

Figure the total number of allowances you're entitled to claim and any additional amount of tax to withhold on all jobs using worksheets from only one Form W-4. Claim all allowances on the W-4 that you or your spouse file for the highest paying job in your family and claim zero allowances on Forms W-4 filed for all other jobs. For example, if you earn \$60,000 per year and your spouse earns \$20,000, you should complete the worksheets to determine what to enter on lines 5 and 6 of your Form W-4, and your spouse should enter zero ("-0-") on lines 5 and 6 of his or her Form W-4. See Pub. 505 for details.
