

Version 1, Choice 1: Conditions (L)=Low (Status Quo); (M)= Medium; (MH)=Medium High; (H)=High

Option A: Status Quo – No change in management (L)	Option B:	Option C:
Large Baleen Whales	Large Baleen Whales	Large Baleen Whales
4 to 5 whales killed per year from any cause (L)	3 to 4 whales killed per year from any cause (M)	2 to 3 whales killed per year from any cause. (MH)
Other Baleen Whales	Other Baleen Whales	Other Baleen Whales
2 species whale species (Sei whale and N. Pacific Right whale) are endangered, 4 whale species in the region not endangered or threatened. (L)	1 species endangered and one threatened, 4 whale species in the region not endangered or threatened. (M)	2 species (Sei whale and N. Pacific Right whale) are threatened, 4 whales species in the region not endangered or threatened. (MH)
Toothed Whales, Dolphins, and Porpoises	Toothed Whales, Dolphins, and Porpoises	Toothed Whales, Dolphins, and Porpoises
2 out of 19 whale species in the region (Sperm whale and Killer whale) are endangered. No dolphins or porpoises endangered or threatened. (L)	1 out of 19 whale species is endangered and one species is threatened. No dolphins or porpoises endangered or threatened. (M)	2 out of 19 whale species in the region (Sperm whale and Killer whale) are threatened. No dolphins or porpoises endangered or threatened. (MH)
Seals & Sea Lions	Seals & Sea Lions	Seals & Sea Lions
1 sea lion species (Stellar Sea Lion) in the region is endangered and 1 seal species (Guadalupe fur seal) is threatened, and 6 seals and sea lion species not endangered or threatened. (L)	1 sea lion species (Stellar Sea Lion) in the region is threatened and 1 seal species (Guadalupe fur seal) is threatened, and 6 seals and sea lion species not endangered or threatened. (M)	No sea lions are endangered or threatened and 1 seal species (Guadalupe fur seal) is threatened, and 6 seal species not endangered or threatened. (MH)
Seabirds & Shorebirds	Seabirds & Shorebirds	Seabirds & Shorebirds
Of the 19 species that breed in the region, 1 species (California Least Tern) is endangered, 1 species (Western Snowy Plover) is federally threatened, and 2 species (Scripps’s murrelet and Gudalupe murrelet) are state threatened. (L)	Of the 19 species that breed in the region, none is endangered and one is federally threatened (Western Snowy Plover), and two are state threatened (Scripps’s murrelet and Guadalupe murrelet). (M)	Of the 19 species that breed in the region, none are endangered or federally threatened, and 2 species (Scripps’s murrelet and Guadalupe murrelet) are state threatened. (MH)
